## TODAY'S ELECTIONS.

Continued from first page.

labor tickets, and the result depends very materially on where most of the Jones vote will come from. It is certain either George K. Nash, republican, or John R. McLean, democrat, will be elected.

If Jones pulls more from the Democrats than from the Republicans, the prediction of Chairman Dick that Nash will have 50,000 plurality may be realized.

But if Chairman Stewart is correct in assuming that Jones will draw much more heavily from the republicans than from the democrats, then McLean will be elected.

The democratic managers have made much capital of the fact that Jones has been a republican up to this campaign, and that he was himself connected with a trust, and that he would not pledge himself to vote for Bryan in 1900.

As Ohio is normally a Republican state, Jones could draw more heavily from the Republicans and still not affect the result, were it not for the factional feeling, which may also cost Judge Nash some Republican votes.

It is conceded that all votes that can be controlled by Governor Bushnell, ex-Chairman of the anti-Hanna republicans will be cast for McLean, but this factional work may not extend to others on the republican state ticket.

Meantime the gold Democrats, as well as the Bryan Democrats, are supporting McLean, and there is no factional work among the Democrats.

The campaign has been bitter, dirty and full of charges and counter charges. It is, of course, expected that this vicious tendency will continue at the polls tomorrow, and that there will be many arrests, especially in the cities.

Ex-Governor Campbell says that McLean's plurality will be 40,000 if the democrats keep united. Claims made for Nash vary from 20,000 to 60,000 plurality, the wide difference being caused by the uncertainty of the Jones vote.

## IN JUSTICE COURT.

Two inept cases before Justice Johnson involving some hay.

Justice Johnson was busy Monday with the case of S. B. Ormsby vs George Howe, in which plaintiff sues defendant for the recovery of two tons of hay, alleged to be part of the crop raised on plaintiff's farm near Argenta, and wrongfully withheld by defendant, or for its value, \$20, and for \$10 damages.

The testimony was all taken and argument will be made, at the conclusion of the testimony in the case of S. B. Ormsby vs. Percy Brown, which is on trial this afternoon and is a similar case in all respects except that the amount of hay involved is one and one-half tons.

Both cases will be argued at once. Sherman, Condit and Park are attorneys for the plaintiff, and L. H. McMahon for defendant.

## JOURNAL "X RAY"

Here's to the United States of South Africa with some good man for president.

The Seattle Post-Intelligencer has been sold to a new combine of politicians.

Fish Lathrop says: An Oregon man is really not well advertised until he has been X Rayed a few times.

Wonder if those telegrams sent out Monday about the immediate capture of Aguinaldo and his army were campaign thunder?

The Hop Boers of Oregon have sent their ultimatum to the Dealers. The question now is, which side has the heaviest artillery?

The first reliable news of the elections will appear in Wednesday evening's JOURNAL and will probably be of a character to suit all tastes.

A man sometimes has trouble in governing one wife, but we notice the Sultan of Sulu has no difficulty in governing a whole lot of them.

Self-government under the American flag has been given to Ngoros island. All friars opposed to American reforms will be furnished free transportation to Spain.

Sam Richardson seems to know how to run a law school. With proper facilities Salem could just as well have a law school with two or three hundred students as with thirty or forty.

The local report says that at the Albany dedication of the Workmen temple at a certain stage of the program "all the guests retired to the armory." That must be an up-to-date temple.

After generously sending infected people to the Capital City, the newspapers of those towns still more generously advertise that Salem is "greatly excited" over new small-pox cases. Salem regularly incurs the generous envy of less prosperous towns like Albany and Portland.—JOURNAL. Another capital joke. The sending, though has been the other way.—Democrat.

See here, that's a capital pun.

**Winter Soon Here.**

And the weather will be cool and occasionally wet, and you will need good warm clothing and waterproof garments. H. Olson has a full line of these, including beaver overcoat, waterproof wool coats, wool lined and warm, ladies' men's and children's wool underwear all sizes.
