GETTING SOMETHING FOR NOTHING.

A prominent editor was recently asked what he considered the evil of the age, when he replied, "The mania to get something for nothing." That reply contains more truth than the average reader is willing to credit it with. In fact, when sifted to the bottom it is the motive for too many of our acts. It is in most cases the first moving cause that prompts the actions of all, from the man who shirks at his work to the merchant who charges extortionate prices for his wares; from the man who lies to justify shortcomings to the murderer who lays his victim low in cold blood to get his filthy dollars. The school boy who would copy his problems from the slate of an associate as well as the lawyer who eloquently pleads to help his client dishonestly take his neighbor's chattels, is guilty of this short coming. A parent may promise his child a certain reward for a certain work, and fail to keep his word. An employer may ask an over-worked employe to render a little additional service and never allow him extra pay. A thief may enter your house in the night and take all your valuables. The wrong in each case is of the same nature, and differs only in a matter of degree. Many of these things are done unconsciously, some with small compunctions of conscience, while others are done knowingly and deliberately, and the sinner is probably guilty only in proportion to his "intent."

But there is another variety of this mania "to get something for nothing," and consists in so-called respectable people inducing others to indulge in questionable transactions for gain merely with a view to taking a share of their base profits—to get a part of their "something for nothing." One of the most striking illustrations in point is an organization to point out people with a little money how to double it or make vast profits without giving value re-

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Jessie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one could know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a finer hold than ever. I tried a number of blood remedies, but their mineral ingredients acted in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment was declared incurable, seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely, the dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatments for years, and find themselves worse now than ever. A trial of

S.S.S. For the Blood

will prove it to be the right remedy for Catarrh. It will cure the most obstinate cases. Books mailed free to any address by Swift Specific Co., Atlanta, Ga.

Feeble Kidneys

In health the kidneys strain all impurities from the blood. Diseased, they allow the poisons to accumulate. Weak kidneys come from weak stomachs. Build up the stomach with Hostetter's Stomach Bitters, and the kidneys will be as good as new. The Bitters also cures constipation, indigestion, dyspepsia, biliousness, nervousness and general debility. See that a PRIVATE REVENUE STAMP covers the neck of the bottle.

Is self-government by the people a myth, an utopian abstraction, or is it an accomplished verity? Is "vox Populi vox Dei" to be abandoned for the divine right of kings to rule through a beef-fed cabinet of a top-heavy monarchy? That is the question at stake. Public men in this country, educators, preachers, editors, will have to take sides on that issue before South Africa is subjugated.

The success of the Boer Republics in the battle field thus far would indicate that free institutions in South Africa, as in North America breed free men who will not sell their independence for flattery or under compulsion. They are the aggressors throughout the Transvaal war and prove by their acts that they regard with contempt the proud military array of the greatest civilized monarchy. That is the true estimate in the heart and brain of every thinking man toward every monarchy in existence.

The humiliation of Great Britain is great at having the integrity of the imperial domain threatened by a pny Republic of catlike panthers. The sacred soil of the empire is stained with the blood of its choicest troops shot down by the un-uniformed bugler sharpshooters. Their armored trains are captured; their mines are stampeded, several thousand British are prisoners, their garisons are besieged, their relieving parties are threatened.

The degradation of England will not cease with success or failure in the Transvaal war. Her humiliation will proceed from assailing a principle as deeply rooted in humanity as the belief in morality, or the hope of immortality—the belief in self-government being the only just government. Where a race, be it white, black or yellow, have grasped that idea firmly and are animated by it, they will shed their blood like water in its defence.

That is what the Transvaalers of South Africa are doing. That principle is what the American Republic stands for. In the Island of Negros the other day [the Americans established civil government. Over 5000 votes were cast to elect the officers of the little Republic. That will be done in Cuba, Porto Rico, Hawaii, the Philippines, as rapidly as peace, order and a surty to life and property are established. That is the trend of things in all the British colonies and if Great Britain proposed an extension of civil liberty in South Africa she would command respect.

But the Boers established the Republic and maintain it them. England can give them no political freedom or religious liberty. She proposes to tear them down, reduce them to mere colonial dependencies, where her military may subjugate and her aristocracy may bait and fatten off the masses of the people, where she shall forever, in the name of capitalism and the church of England take the lion's share of the earth and its products.

Vaccinated. When a man falls headlong from a roof, we think only of the hazardous character of his employment. It does not occur to us that thousands of men at sea or on land are hourly climbing to dizzy heights without a fear and without a fall, and that the real danger is not in the employment but in the weakening of the nerves and giving way of the muscles. That danger is just as great to the man on the sidewalk or in the office as to the man on the roof. When he said I had a cold, the stomach and the organs of digestion and nutrition are diseased the blood becomes impoverished, and nerves and muscles grow weak for lack of nutrition. More fatal diseases probably begin with "weak stomach" than with any other cause. The first symptom of disordered stomach calls for prompt use of Dr. Pierce's Golden Medical Discovery. It is a vegetable medicine, absolutely non-alcoholic and non-narcotic, and is unequalled for the strength it gives to blood, nerves and muscles.

During the summer and fall of 1899, writes Cleveland, O., Nov. 24.—The Inter State Base Ball League will meet here today to elect a successor to Charles B. Power, of Pittsburg, its present executive. Candidates in the field are President Power of Pittsburg, William Meyer of Fort Wayne and Bart Howard of Mansfield. Harry Weldon, sporting editor of the Cincinnati Enquirer, is also mentioned as a possibility. However, Power has at the present time—the inside track, and if he consents to continue in the race the probabilities are that he will be re-elected.

George W. Weeks, of Elk creek, an employe of the salmon hatchery located there, says the hatchery is a grand success and that there are now 400,000 young salmon about a month old and in a month more they will be turned out into the streams to rustle for themselves.

Goats are born rathlers, are never sick, live on tin cans, oak grub and most any old thing; are easily fattened, weigh more than sheep, and their wool is worth twice as much. The people who are going into the goat business in Western Oregon will all be plutocrats in a few years, asserts the Roseburg Plaindealer.
