**PILGRIM BROTHERHOOD**  
 New Society Organized by Members of the Congregational Church.

Its Object the Discussion of Philosophical, Religious, Scientific or Economic Questions on Liberal Lines.

A society was recently organized in Salem, which, if it carry out the purposes of its being, will be a strong factor in the advancement of thought in this city.

It is entitled "The Pilgrim Brotherhood," and has been organized by the members of the First Congregational church. Membership, however, is not confined to members of that church, but is open to any man of good moral character.

The purpose of the society is the study and discussion of philosophical, religious, scientific or economic questions. And this study and discussion is not intended to be hampered by any narrow lines of dogmatic theology or pre-conceived notions.

The Rev. W. C. Kastner, pastor of this church, while he is an orthodox minister, is a man of wide reading and culture, a man who has thought much and deeply upon the problems that confront mankind, and is very liberal in his ideas. His ministry in Salem has been very successful, and he has won the approval of the progressive thinkers, of whom his congregation contains a goodly number.

So the aim of the society will be, in a

broad sense, the acquisition of knowledge, and the arriving at correct conclusions upon the questions of the day, avoiding, of course, anything in the way of politics in the partisan sense.

The president of the society is John Bayne; vice president, A. A. Bashor; secretary, F. C. Rhin.

There is also a standing committee on program, consisting of Guy M. Powers, John Bayne and R. B. Duncan.

Regular meetings will be held on the second and fourth Tuesdays of each month, in the parlors of the Congregational church.

On last Monday evening the Brotherhood held a meeting, which was addressed by Professor Collier, teacher of Sciences, whose subject was "The Development of Geological Ideas." The professor handled his subject in an entertaining and instructive manner, following it from the crude idea prevailing at the dawn of history and showing the changes and modifications wrought in the progress of time. He also discussed the progress of discoveries in the realm of fact.

At the next meeting there will be a discussion of the question: "Has the Christian church failed to reach the masses through a misconception of Christ's teachings?"

It is intended that there shall be a general discussion of this question, but not drawn on the hard and fast lines of a debate nor con. R. B. Duncan and A. T. Gilbert have been named as leaders, and there will be a profitable interchange of ideas.

**Dr. Bull's Cough Syrup** will cure throat and lung trouble without fail. For grippe, influenza and a deep-seated cough or cold, it is the best remedy offered to the public. The doses are small and a bottle costs only 25c.

**Study of French.**  
 Interest in the Paris Exposition of 1900 has stimulated the study of the French language. Prof. Mazzarelli, of Portland, has two classes of about 40 members at Salem, and his method seems to give a great deal of satisfaction. No books are used by the class, but the students learn the pronunciation by ear and imitate the peculiarities of construction orally. A Salem lady also has a French class and is proving herself to be a successful teacher of the language. She is a lady of culture and an enthusiastic linguist. Those who are unable to enter Prof. Mazzarelli's classes will find in this lady a competent and painstaking instructor.

**The Citizen's Ticket.**  
 The taxpayers' ticket commands respect from the personal character of the candidates for aldermen, Borrowers and Bureau are tried and true. Allen is a successful and energetic young business man, whose business methods and largeness are without spot or blemish. Intensity is a hardworking, industrious mechanic and business man. He is a quiet self-made and self-sustaining citizen.

None of them are office-seekers, political tricksters, public grafters or in any party manager's control and keeping. Each is his own master, accountable only to his own conscience and his neighbors. They are the character and kind of men who build up the credit of the community, and if elected will maintain the credit and honor of this city.

**Colds on the Chest**  
 When your cold has settled down deep in your chest, cough syrups will not relieve you. The system must be given strength and force to throw off the disease.

**Scott's Emulsion** does just this. It enables you to conquer the inflammation. The lungs soon heal, and all danger is passed. Do not let the disease become chronic because of neglect.

**The Suffrage Campaign.**  
 The impending Suffrage campaign in Oregon is not assuming gigantic proportions very rapidly. The gentle voice of Abigail Scott Duniway is not heard in the land but probably will not much longer remain silent. It is whispered that a stiller canvass will be made. The leaders it is said will personally make a house-to-house campaign on bicycles or automobiles, it is not yet determined which. They are not giving the voters an opportunity to read up on the subject, but will trust to horsejoggling him into their way of thinking by means of a little judicious chin-music. With the average voter this goes better from a woman campaigner than working his thimble. Turkish dress reform is proposed by one man who is not a suffragist as a substitute. He thinks that the baggy trousers, clasped at the ankle would add more to women's enjoyment than the ballot. They will probably prefer the ballot to comfortable Turkish trousers.

**Dr. Bull's Cough Syrup** is a Great medicine of intrinsic worth. It relieves a cough or cold quickly and cures severe throat and lung affections in an astonishingly short time. Sold by all druggists for only 25c.

**Use Allen's Foot-Ease in Your Gloves.**

We invite the attention of physicians and nurses to the absolute purity of Allen's Foot-Ease. It is a safe, reliable, and effective. Price 25c and 50c. Sample bottle free, eod&w

**CROCKER.**—At the Salem hospital, December 1, 1899, Vera Crocker, aged 19 years.  
 Deceased was the daughter of Mr. and Mrs. S. B. Crocker, of Turner, who are now in California and up to last evening could not be reached by telegraph to be told the sad news. The deceased was operated on recently for appendicitis.

The remains were taken to Turner last night.

**Catarth Cannot Be Cured with LOCAL APPLICATIONS,** as they cannot reach the seat of the disease. Catarth is a boon or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarth Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarth Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best blood purifiers, setting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarth. **WEDDING AT LIBERTY.**  
 On Thanksgiving day, Nov. 30, 1899, there was a pretty wedding at the residence of the bride's parents four miles south of Salem at Liberty, Or. Miss Daisy M. Stephens and Fred A. McIntyre, both well known at Salem and Liberty, were united in marriage by Rev. H. A. Ketchum of the First Presbyterian church of Salem, in the presence of a numerous company of relatives and friends. After the ceremony the wedding party adjourned to the dining room where a sumptuous dinner was served.

The house was nicely decorated and many beautiful gifts were presented to the bride and groom. The bride is the second daughter of Mr. and Mrs. W. Stephens who have the postoffice and store at Liberty. The groom is the oldest son of Mr. and Mrs. J. McIntyre of Rosevale. The happy couple will reside at Rosevale.

**Farmer Thrifty** got the idea that if he could keep a horse without the cost of feeding, it would be a great economy, so he reduced the horse's food a little every day. Unfortunately, the horse kept on getting thinner and thinner until he died. The farmer was sorry when he found out that he had starved his horse to death. He had not known that a horse could starve to death. He had not known that a horse could starve to death. He had not known that a horse could starve to death.

**There seems to be a gold trust** as well as a quick silver trust. The price of quicksilver is higher now than for nine years. In 1890 it was \$52 per flask in the San Francisco market. A few months ago it was down to \$38 per flask. It is now selling at \$50. When will the trust get hold of silver, or is that the one thing beyond the reach of control and manipulation?

Our big friend, Timson Ford is now resident in a new blue velvet coat and vest. Now let him complete the work so auspiciously begun by putting on a pair of white shoes and a plug hat, and all the boys will have to take a back seat. This we would suggest, would be an opportune time for the gentleman to lead some fair damsel to the altar.—Salem Independent.

The above paper should be mainly and fair and give Lawyer Ford the benefit of the facts. He is not on velvet, as to speak; just plain corduroy, by gorn, just plain farmer's corduroy. And if he was sent to congress or the senate he'd wear the same thing, even if some dude didn't like the peculiar smell of that kind of cloth. There is no sham about Timson Ford, except that sleepy look of his. He never sleeps when something needs tending to.

**THOMAS, WATT & Co.**

The candidates on the non-partisan citizen's ticket for aldermen are men who will not have to be watched. When they take the oath of office, at every one of them will be obliged to do, they will have no mental reservations or obligations to a push city committee with a Boss pulling the strings. They will go in to serve all the people with fidelity and honesty.

**DR. COPELAND ON CHRISTIAN SCIENCE.**  
 The Unitarian divine of Salem who has been grappling with Theology, Spiritism, Transcendentalism and other profound problems in the world of religious thought, will take up Christian Science Sunday night. He is able to present the subject in an entertaining manner, and his reputation is that of an honest and fearless speaker after spiritual truth.

The other subjects in his series for Sunday night discourses are usually of unusual interest in other parlors.

But rarely every point in town has taken a whirl at Christian Science. Just what line of attack Rev. Copeland will adopt, we cannot forecast. At any rate he should be accorded a hearing by all who are interested for or against the doctrines of Mrs. Eddy.

If a word is permitted in defence of a cause that has been tried in this city, it might be suggested to Rev. Copeland and all other reverends that Christian Scientists obey the laws and accord all others the right to believe and worship according to the dictates of their conscience. If the Christian Science women do not beat their husbands and the husbands do not beat their neighbors or creditors and are benefited by their belief and the practice of their religion, who can object to their doing so?

If Christian Scientists can save themselves and their families from sickness and sorrow and suffering, to say nothing of bills for medicine and medical attendance, and the losses resulting to the individual from long spells of sickness, invalidity and convalescence, who can object to their doing so?

If Christian Scientists have removed one lot of pain and anguish from the life of any human being, it will lessen the long train of human ills that seem to have become the major
