The Pullman Company now operates two grades of sleeping cars via the Rio GRANDE WESTERN RAILWAY. The ordinary sleepers are entirely new, and the berths, both upper and lower, are fitted up complete with mattresses blankets, sheets, pillows, curtains, etc. with stoves arranged for making tea, coffee, etc., requiring nothing to be furnished by passengers. Uniformed pullman porters are in charge of the cars, who are required to keep them in good order and attend to the wants and omforts of passengers. The cars are ery handsome and commodious, and while not so elegant, are just as com-fortgble as standard or palace sleepers. Both first and second-class passengers are permitted to occupy these cars on payment of the Pullman bertn rates, which are less than half of the rates charged in the regular, palace sleeping

### Salt Lake City---An Important Factor in Transcontinental Travel.

No one crossing the continent can aford to cut Sait Lake City from his route. The attractions of the place, including the Mormon Temple, Tabernacle and Church institutions, the Great Salt Lake—deader and denser than the Dead Sea in the Holy Land-the picturesque environment and the Warm Sulphur and Hot Springs, are greater to the square yard than any locality on the

American continent. The RIO GRANDE WESTERN RAILWAY, connecting on the East with the Denver & Rio Grande and Colorado Midland Rail ways and on the West with the Southern (Central Route) and Oregon Short Line, is the only transcontinental line passing directly through Salt Lake City. The route through Salt Lake City via the Rio Grands Western Rallway is famous all the year round. On account of the equable climate of Utah and Colorado it is just as popular in winter as in summer.
