More Boer News.

BOER CAMP, Upper Tugela river, Jan. 20.—The British now occupy three positions along the Tugela river. Their naval guns have been firing steel-pointed, armor-piercing shells.

Reports being received that 2,000 British cavalry were attempting to outflank us along the Drakensberg ridge, a strong patrol was sent to reconnoiter.

Mistaking the signals, the scouts and patrol proceeded to kopje, from which a terrific rifle and Maxim gun fire suddenly opened. The Boers lost 14 killed and 20 wounded. The British loss was probably insignificant.

The bombardment of the Boer positions at Zwartkop was resumed yesterday, chiefly with a battery brought across the river.

In the afternoon the cannonading became exceedingly brisk, and under its cover their infantry advanced in three lines to ascend a row of kopjes, which they occupied at nightfall, but later they retired to their old position.

During the night a score of shells were fired by the British, and a balloon was sent up to spy out the Boer position. The naval guns resumed the bombardment this morning with a new position, but without results.

Necessity of a Victory.

LONDON, Jan. 24.—Political considerations, both foreign and domestic, press upon the military authorities the necessity of speedily accomplishing something. These authorities have been persuading General Buller to attempt his great operation. This impression, whether true or not is abroad.

From Vienna comes the statement that the idea of the intervention of European powers is gaining adherents in influential quarters.

Special dispatches telegraphed from Ladysmith Monday say that the investment has not been relaxed and that the garrison has ceased to speculate regarding the precise date of deliverance.

The position of the British forces outside of Natal is unchanged. The forward movement elsewhere appears to be waiting for reinforcements.

Standard Oil Co. fire.

PORTLAND, Jan. 24.—The fire in the Standard Oil warehouses yesterday afternoon was confined to the original property. For a time a high wind prevailed which spread the burning oil over several acres, and it was with great difficulty that the firemen saved the other warehouses in the vicinity. The fire burned fiercely all day and it was late last night before the lake of oil had burned out. Several engines will be kept throwing water on the ruins all night, to prevent the fire from spreading. Had the flames reached the huge tanks of oil, the loss would have been much heavier.

WILL STAY HERE.

Hon. W. H. Hobson Has Invested in Sumpter, But Will Not Leave Here.

From the fact that Hon. W. H. Hobson, of this city, has invested some money in business in Sumpter, it has been inferred that he intended to close up his business here and leave Salem.

This is a mistake. Mr. Hobson says that he has no intention of leaving this place, but on the contrary, will stay here, and will soon have in a lot of new goods and replenish his stock in all lines.

He has bought out a grocery and miners' supply business in Sumpter, and will run that as an entirely separate venture.

He says that Sumpter is one of the liveliest towns in Oregon now, and has the assurance of being a good business point for a number of years.

The present boom there is being somewhat over-done, but when that is over the mining industry will still make good business for many years.

Concerning the business purchase made there the Sumpter Miner says:

"W. C. Calder who has so successfully conducted the general merchandise business at the Red Front store since March 1899, building it up from a small country store to its present magnitude, has transferred his entire interest and good will in the business to the Hon. W. H. Hobson, state senator, and one of the best known men in Oregon, politically, socially and financially, and especially in Masonic circles.

Look Out, Boys.

Two responsible citizens came to Recorder Judah this morning to complain of the actions of two young boys whose names will not at present be published.

The gentlemen had suffered a shock to even their modesty from listening to the frightful language used on the street by the two boys in question, who had been very abusive and foul-mouthed addressing their remarks to a young lady who was passing. There is an ordinance covering such offenses against public decency, and the Recorder will not hesitate to have offenders brought before him and severely punished. In this case he has seen the parents of the boys, who much chagrined over the affair, and will probably "attend to" the youngsters, themselves.

THE PRESS NOT BAD.

Conclusion Reached by the Pilgrim Brotherhood Last Evening.

The question for discussion at last night's meeting of the Pilgrim Brotherhood in the parlors of the Congregational church was "What is the Moral Effect of the Press Today."

The speakers taking part in the discussion were, Prof. Collier, G. M. Powers, W. C. Kantner, Gil Sherwood, A. W. Dennis and John Bayne.

The consensus of opinion was, that with a few exceptions, the moral influence of the press is good, and it was urged that on the principle that you can't spoil a rotten egg, even the yellow journals do not greatly harm those who patronize them.

The interesting fact was brought out that of 50,000 newspapers and magazines published in the world 43 per cent are published in this country.

At the next meeting on the evening of February the 13, the question is "What Should the Government Do for the Unemployed?" The discussion will be led by A. W. Dennis and G. M. Powers.
