WEATHER REPORT.
Tonight and Sunday fair, continued cold.

LOUIS WESTON ARRESTED.

Brought from Salem to Answer for Champing Robbery.

Louis Weston was arrested in Portland, on Saturday, and brought to Salem by Constable Minto to answer to the charge of being one of the parties who held up Hofer and Zorn, at Champoos, last Thursday, robbing them of between \$300 and \$400.

Weston worked for Hofer and Zorn about eight years ago, and Mr. Zorn recognized his voice when the robbery took place, as he did most of the talking.

In 1896 Weston was sent to the penitentiary, from Marion county, and served a sentence of one year for burglary.

He has been positively identified by Hofer Zorn and one of the hired men as the leader in the hold-up.

The accused was brought before Justice Johnson this morning, and his examination is set for 1 p. m. Wednesday, bonds being fixed at \$1000.

New Citizens.

Six new citizens have been added to the voting population in the last two days. Their names and the countries of their nativity are as follows: Christopher Alderson, England; Krist Kral, Germany; John Parsons, England; Newman W. Kellaway, Great Britain; John Holman, Canada; Thos. Lauderback, Germany.

Citizens School Meeting.

Meeting to levy school tax and hear directors' report read, at City Hall, Monday evening Jan. 20th. Everybody turn out. 1 20 31

After a Fugitive.

A requisition has been issued by Governor Geer upon the governor of Missouri for the return of one James F. Moss, a fugitive from justice, who is wanted in Multnomah county for the crime of larceny by embezzlement. John Coniano, the Portland detective, will go after him.

Marshal's sale.

Notice is hereby given that under the provisions of ordinance No. 200, I will on

THURSDAY FEB. 1.

at 1 o'clock p. m., at the pound in the city of Salem, sell at public auction, the following described impounded animal to-wit:

One dark bay mare, white spot in forehead, branded on left hip letter T and figure 2, one above the other, white mixed hair all over head, shod in front, weight 1000.
Unless the above described animal is claimed before said date, sale will be made without reserve.

D. W. GIBSON, City Marshal.

January 27, 1900.

FARMERS' CONGRESS

Program Arranged for the Two Days' Meeting Next Week.

Addresses to Be Delivered by Leading Representatives of Allied Agricultural Industries.

Secretary Thielson of the Salem Chamber of Commerce has arranged the program for the two days' session of the Farmers' congress to be held here on Feb. 7 and 8.

This program may have to be modified in some minor points, as Secretary Thielson has not yet received responses from all those whom he has called on to take part. But the general plan will be followed.

The intention is to make the gathering an interesting and profitable one for all who are interested in any of the branches of agricultural industries, not excluding stock-men, sheep raisers and those engaged in allied pursuits. It is hoped to make a permanent organization for the holding of annual meetings at Salem.

There are innumerable ways in which an organization of this kind may be beneficial to those who join it and co-operate for mutual protection and assistance, and the diffusion of information of value to the industries represented.

The movement has been started and is being carried forward at the expense of a great deal of hard work, and against some considerable difficulties and discouragements, by the Salem Chamber of Commerce, through its very efficient and resourceful secretary, H. B. Thielson. It will be a good thing for the city to take the lead in a movement of this kind, not only by bringing people here from California, Washington and Idaho to attend the meetings, but by bringing Salem before the public as a city of energy and progressiveness.

The program for the two days' meeting is as follows:

Wednesday, February 7.

AFTERNOON SESSION, 2 P. M.

Address of welcome.

Response for State Agricultural and Horticultural Societies—Hon. T. T. Geer, governor of Oregon.

"Future Outlook for Dairying in Oregon"—Hon. Thos. Paulsen, president State Dairy Association.

"Swine Breeding"—John Redmond, vice-president Berkshire Breeders Association for Oregon.

"Soiling and Its Advantages in Dairying"—Geo. W. Weeks, Salem, Oregon.

"Goat Breeding"—Hon. J. B. Early, Salem, Oregon.

"Horticulture in Oregon and Markets for Oregon Fruits"—Hon. H. F. Dosch, secretary State Board of Horticulture.

Evening Session 8 P. M.

Music.

"The State Fair and Its Relations to Agriculture"—Hon. W. H. Wehrung, president State Board of Agriculture.

"Transportation for Oregon Products"—C. H. Markham, general freight and passenger agent Southern Pacific Company.

Each will have \$1250, less \$41.66, they having authorized the retention by the city of their half of the \$250 paid to ex-Governor Lord for his legal services in the matter.

Ex-Minister E. J. Phelps is very low with pneumonia at New Haven.

A BUSINESS PROPOSITION

No Bonus Asked by T. S. Townsend of Portland.

He Proposes to Establish a Creamery in Salem if Assured of Sufficient Patronage.

Mr. T. S. Townsend, a creameryman of Portland, who owns creameries in Tillamook, Astoria, Hood River and Nehalem, has been in Salem looking over the ground with a view to establishing a creamery here. He was much pleased with encouragement received, and will be here again next week in attendance on the Farmers' Congress, to meet the farmers of this section and see what assurances they can give him that milk and cream would be brought to him in sufficient quantities.

Mr. Townsend asks no bonus of any kind. All he wants is a reasonable assurance of sufficient patronage to justify the outlay, he would then put in a first-class creamery plant of a size to accommodate the business in sight.

He has a good plant at Nehalem, which he contemplates removing from there on account of the uncertainty of the shipping facilities, which, in the case of butter, is a serious drawback. He may bring that plant here, or place it at another point in this valley, and put in a new plant here of larger size.

An excellent location for the creamery has been offered, combining the advantages of power, cold storage and easy accessibility.

If he brings a creamery here, Mr. Townsend will gather milk and cream from a radius of from 10 to 15 miles, wherever there is enough to justify going after it.

He thinks that this valley is the best part of the state for the creamery business. While the grass along the coast country stays green a longer time in the year, this valley is an ideal place for the raising of corn and clover for ensilage, and the two are especially adapted to dairying.

This seems to be a particularly favorable time for the inauguration of creamery enterprises in this valley. For several years there has been little or no profit in wheat, fruit hops or other branches of agriculture in which we have been engaged, and there is no prospect of a betterment in those lines. Wherever the creamery business has been introduced on this coast it has proven next thing to a bonanza for the farmers, and why not here?

F. D. Culver, representing the Creamery Package Company, of Chicago, the largest creamery man in the United States has travelled through nearly every state in the union in the interest of creameries, and now in company with Mr. C. H. Markham, general freight and passenger agent of the Southern Pacific Railroad Company, is on a tour through Oregon.

Oregon, he says, is an ideal dairying country. The mild climate, the low cost of feed, together with a good market for butter, are factors which make dairying profitable. Fully one-half of the

land in the state is adapted to dairying. The milk of the state is the best part of the state for the creamery business. While the grass along the coast country stays green a longer time in the year, this valley is an ideal place for the raising of corn and clover for ensilage, and the two are especially adapted to dairying.
