The press has interposed vigorously more than once during the last few Huntington weeks to stop the scandalous extrava-Chemawa, were Salem visitors yester- gance which has characterized the administration from its highest to its most inconspicuous officials. The occasion of the most recent intervention was the extraordinary bill of Ferdinand W. Peck, commissioner general to the Paris Mr. and Mrs. G. G. Bingham and exposition, for his expenditures during daughter have returned from a visit in a period just two weeks less than a year. Mr. Peck submitted the following "detailed" statement of account :

Salaries of experts \$ 72,045 14 Salaries of clerks. officers' salaries ... Salaries of employes. Traveling expenses Buildir Rent-Chicago, Paris, New Furniture 7,252 69 5,403 75 1,775 00 ationary and printing. legraph and cable

10,400 46 iscellaneous. Total Mr. Peck's idea of detail seemed to be somewhat unique. When it comes to lumping into one charge over \$38,000 for traveling expenses, and in another item \$72,000 for salaries of "experts," whatever that may be, it certainly scems time to demand a rather more explicit accounting. Mr. Peck hails from Chicago, where he is a gentleman of prominence and popularity, and an active politician. Before the publication of this account the Chicago newspapers had been ridiculing him because of his constant flitting between Paris and Chicago. He seems to like life on ocean steamers, and of course it would not require very many trips in special cabins to f at up \$36,000. Upon the demand of the press the senate has called for an itemused explanation of this detailed statement. Like action was taken in the house at the request of Congress-

man Levy, Democrat, of New York.
