WHOOPING COUGH
One of the most distressing ailments, is to see a child almost choking with the insupportable whooping-cough. Give the little Dr. Bull's Cough Syrup, the most effective pulmonary remedy, and relief will come at once, the coughing spells will re-occur less frequently, and in a few days the sufferer will be entirely cured. No other remedy can cure so many cures.

John McCourt, one of Salem's most promising attorneys expects to leave soon for Portland where he will locate. There are at present only fifty-four lawyers in Salem and Mr. McCourt thinks this field too much encumbered for all to prosper so he will look for a more promising location. Mr. and Mrs. McCourt will be greatly missed by a large circle of friends here, who wish them great prosperity in their new home.

FAREWELL RECEPTION.
The farewell reception to Captain and Mrs. R. Kuhn at the Salvation Army hall Saturday evening was an exceedingly pleasant affair, in spite of the shadow cast by the approaching departure of the two earnest workers who, in the months of their stay, have won the high regard of the people of Salem.
The hall was crowded and the excellent program provided was highly appreciated. Following the formal program, ice cream and cake was served, everything passing off very pleasantly, and leaving grateful memories of the close in Salem of the work of those two faithful officers.

Dr. Bull's Cough Syrup is a remarkable medicine. A dry, tickling, hacking cough, that warns that consumption is near, needs no other doctor but Dr. Bull's Cough Syrup. It positively cures throat and lung trouble.

A Text That Cures.
The following extraordinary coincidence occurred at Tiawald recently: A young preacher, who has lately married, was planned to take the morning service, but by a misreading of the plan, he mistook his appointment for an evening one. Consequently the congregation gathered on the Sunday morning waited in vain for his appearance. Thereupon one of the office bearers of the church present undertook the service. Totally unaware that the absent preacher had recently married, he electrified and amused his audience by announcing as his text, "He has married a wife, and therefore he cannot come."—New Zealand Herald.

The Business For Him.
Little Charles—Sister told mamma yesterday you was born to be a politician.
Mr. Skimpsey—A politician? I wonder why she thinks so.
Little Charles—She says you can do so much talk with your mouth open, you should talk with your feet.

Second Time on Earth
No Bolls Nor Carbuncles Now—A Good Blood Medicine.
"I became convinced of the merit of Hood's Sarsaparilla when I took it myself as a blood purifier. So, when my husband had boils and carbuncles I urged him to take Hood's and the result was that when he had used but one bottle the boils had nearly all disappeared. He continued the use of the medicine and after taking two bottles he was completely cured, and, as he expressed it, felt as if he was on earth for the second time. He has never had any boils since. We take Hood's as a spring medicine and gladly recommend it." Mrs. A. E. STAYSA, Youkers, N. Y.
Scrofula from Earth.
"I have found Hood's to be the greatest blood purifier I ever took, and I have tried many medicines. I was a sufferer with scrofula from birth. My eyes were so badly affected I would be almost blind for a week at a time. My neck began to swell so that I could not breathe freely. Medicines failed to do me any good until I began taking Hood's Sarsaparilla. Today I have excellent health and my eyes give me no very little trouble. I owe it all to Hood's, which I recommend to all suffering from any disease of the blood." Miss KERRIN McGIBRE, Silver Creek, Ky.
That Tired Feeling.
"I cannot say too much for Hood's Sarsaparilla as a remedy for that tired and worn out feeling one has in the spring. As a strength builder and appetite creator it has no equal." Mrs. L. B. WOODARD, 285 Ballou Street, Woonsocket, R. I.
Hood's is Peculiar to Itself.

Secret Drawers.
"Most people seem to think," says a maker of furniture, "that secret drawers and hidden receptacles in furniture only exist in novels and plays, but this is by no means so. I very frequently take orders for such items, and I employ a clever woman designer, who shows positive genius in planning places of concealment, which no amount of tapping or measuring could reveal. In most cases, even were the hollow receptacle discovered, the wood-work around would have to be cut away, so complex are the fastenings. Most of the orders come from women—and rich people, of course—and I have no doubt that a desire to hide articles from too curious servants dictates the orders."—New York Tribune.
At Bed Time
I take a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. It is made of herbs, and is prepared as easily as tea. It is called Lane's Medicine. All druggists sell it at 25c, and 50 cts. Lane's Family Medicine moves the bowels each day. If you cannot get it, send for free sample. Address, Orator F. Woodward, LeRoy, N. Y.

NEW BOOKS

All predications indicate a great rush to this spring and summer to the new gold fields at Cape Nome. Here, for the first time in the history of mankind, gold is being washed from the beach sand. Mr. C. Edgar Lewis writes on this subject in the April Magazine number of The Outlook with very full information, and with some new and extremely interesting photographs of Cape Nome scenes, streets and miners. (\$3 a year, The Outlook Company, New York.)
Dickey Downey is the autobiography of a bird, by Virginia Sharpe Pat Patterson. It is an appeal to the heart and the imagination of readers to preserve bird life against the encroachments of the millinery trade for hat trimmings. There is an introduction by Hon. John F. Lacey, an Iowa congressman.
Anson D. F. Randolph & Co., 182 Fifth Avenue, New York, have published "The Baby's Journal," designed and compiled by S. Alice Bray. Price \$1.50. It is a lithographed work of art and is very appropriate to chronicle the advent of a child and its principal life events, with blank spaces to enter the events of its personal career, comprise a very neat and complete diary. There are pages to record gifts and enter parties and items of interest.

The International Monthly for April contains several articles of timely interest. Aside from the interesting paper by Prof. L. M. Keady of Bryn Mawr, on "The Institution of Society," a subject of greater interest than perhaps the title would suggest to some, there are four articles of value, viz.: A review by Prof. Cheyne of Philadelphia, on "Recent writing on English History;" the story of French drama for the last half and more of the Nineteenth century, by Brander Matthews, of New York; "Comments on the War in South Africa," by Capt. Zalinski, a well qualified critic, and who looks at affairs from the standpoint of an experienced American army officer; and the article by Hon. John R. Proctor, on "The Neutralization of the Nicaragua Canal." The latter article is especially timely. This Monthly for April is not surpassed by any in interest and variety.

The Tacoma State for February has a large number of illustrations on the fisheries of the northwest together with literary features showing great enterprise. Articles on mining and financial interests are always giving great prominence. The article by L. P. White, manager of the Bank of Whatcom, on a syndicate plan of treating country collections is novel and interesting. It shows the benefits that would accrue to bankers from cooperation in only one of their legitimate business. Mr. White seems to have the clear mental vision of a born financier and bankers will find it worth while to investigate his proposition.

The date set for the publication of Mr. Robert Nelson Stephens' new romance is May 1st, there having been considerable delay in the publication occasioned by the large first edition, necessitated by the advance orders. The book is entitled "Philip Winwood" and is described by the author as "a sketch of the domestic history of an American Captain in the War of Independence." The scene is laid in New York and London, between the years 1763 and 1780. Mr. Stephens' new book will add to the popularity which he has gained through his previous books, the most recent of which, "A Gentleman Player," published by J. P. Page & Co. Boston last season, is now in its thirty-fifth thousand.

An article in McClure's Magazine for May, by Earl Mayo, will tell about "The Biggest Steamship Afloat"—the monstrous Oceanic—giving the story of her construction, describing her mammoth machinery, and showing how she is manned and operated. Photographs of all the interesting points and parts of the great craft will be used to illustrate the article.

New train service on the O.R.&N.
The double train service to be established between Portland and Chicago April 22, in which the O. R. & N., the Union Pacific and the Oregon Short Line are interested, will shorten the through time 11 hours. Train No. 2, leaving Portland at 9:15 a. m., beginning on the date named, will be known as the Chicago-Portland special. Its equipment will be new, making it fully the equal of any train now in service from the Pacific Coast to the east. It will consist of a mail-car, baggage car, a library-composite car, a first-class Pullman sleeper, a dining-car, two chair-cars, and a tourist sleeper. There will be but one change-over car to all Pacific points. The full time will be three days through to Chicago, or four days and two hours to New York.
The second train, known as No. 6, will leave Portland at 6:30 p. m., connecting at East Portland, with the Southern Pacific's overland train from San Francisco, and will carry through equipment to Chicago via the Union Pacific and the Chicago & Northwestern, and also the equipment for the Washington division of the O. R. & N., in connection with the Great Northern for St. Paul. This train will reach Spokane at 10 a. m. A dining-car will be furnished for breakfast into Spokane, and for dinner on corresponding train leaving Spokane at 3:40 p. m. The new schedule as arranged, will supply the most complete service ever furnished on the O. R. & N., as provided increased service in Eastern Oregon, where it is greatly needed, and gives immediate connection with the Washington Coast to the east. At this point there is a large interchange of traffic, on account of the various mining districts of Baker County, the Coeur d'Alene, the Republic and Kootenai mining camps, Portland is greatly benefited by this change in as much as increased service is given from Eastern Oregon and Idaho.
No. 2, will arrive in Chicago in 9:30 a. m.; No. 6, at 7:45 a. m., as at present.
