**IT DOES NOT REQUIRE A SCIENTIST TO DISTINGUISH THE DIFFERENCE**

Between the food kept in the two different styles of refrigerators.

**THE NEW WAY**  
The ice and food are apart and at the same level. The cold air falls from the ice and ascends in the food chamber allowing the warm air to pass off ahead of it. Returning again to the ice it is cooled again and again thus keeping up a constant circulation taking less ice and producing more cold. The vapors are condensed in the ice chamber, and the impurities carried off with the melting ice. There are dilly in use in Salem and no reports of dissatisfaction.

**THE OLD WAY**  
The cold air falls from the ice, the warm air ascends causing a collision of the two elements, resulting in stagnation and imperfect circulation. The ice melts but does not perform the duty intended for it. Vapors are condensed in the food chamber, causing the food to taint, and all the scouring and clearing that is done, can not prevent it.

**CHINESE BOXER WAR GROWS CONSTANTLY MORE ALARMING**

**Chinese Government Either Cannot or Will Not Try to Suppress the Trouble.**

**BOERS NOT YET ALL CRUSHED**

LONDON, June 4.—The public here is full of confidence of Lord Roberts' entering Pretoria before many hours have elapsed. The latest theory is that Roberts is moving his flanks so as to envelope the Boers in the neighborhood of Pretoria. In the Orange River Colony the burghers are reported to be keeping close watch on President Steyn to prevent him from leaving the commandos in the lurch.

**WORK OF THE CHINESE BOXERS**

PEKIN, Sunday, June 3.—The most alarming reports are constantly coming from the country, particularly Pao Ting Fu. A serious crisis exists at the palace. The ultra conservative party advocates are not taking repressive measures, using the Dowager Empress to aid the "Boxers" to finish the work of driving the foreigners out of the country.

**CHINESE ARMY IS NOT EFFECTIVE**

WASHINGTON, June 4.—The following is from Minister Conger, at Peking: "Outside of Peking, murders and persecutions by the 'Boxers' seem to be on the increase. The Pao Ting Fu railway is temporarily abandoned. Work on the Peking and Pang Kow line is stopped. All foreigners have fled. The Chinese government seems either unwilling or unable to suppress the trouble. Troops show no energy in attacking the 'Boxers.'"

**NEW YORK DEMOCRATS MEET**

NEW YORK, June 4.—The Democratic state committee will meet tonight to agree upon a program for the state convention, which assembles tomorrow. The former senator, D. B. Hill, who is expected to be chairman of the committee on resolution, was called upon by Wharton Barker, who was nominated for president by middle-of-the-road populists.

**BEFORE THE ELECTION**

**AN ESTIMATE ON THE SITUATION IN MULTNOMAH COUNTY.**  
Republican Voters Said to be Disgusted With the Course of the National Leaders.  
Correspondence Written Saturday for the Democratic East Oregonian.  
PORTLAND, June 2.—If the election could be held tomorrow, without giving as unscrupulous and pharisaical a gang of looters as ever plundered the public in any place—a chance to get in their final deadly work, the Democrats would carry Portland and Multnomah county. They will come within a few hundred votes of doing so anyway, after the flood of corruption has been turned loose. There was never such a campaign in this devoted city. There is not a republican that has any hope of election, except by salvation through Corbett and Joe Simon, and the money they put up. The like was never seen here. I will state a few facts and then a few reasons, briefly. Republicans—bad rock, old-time, Lincoln, Montanans; veterans of the war; men who have voted for 30, 40, 50 years, and always voted the Republican ticket—are declaring openly and voluntarily not only by two and three, but by dozens, scores, and even hundreds, that they will not vote the Republican ticket any more—at least not just now.

**BOLD ATTEMPT AT TRAIN ROBBERY**

How Masked Robbers Were Felled in an Attempt to Work a Train.  
By Associated Press to the Journal.  
ST. LOUIS, Mo., June 4.—A special to the Post-Dispatch from Longview, Tex., says:  
The north-bound cannon ball train on the International Great Northern was held up sixty miles south of this city. Three masked men forced the engineer and fireman to uncouple the mail, baggage and express car and pull about two miles from the remainder of the train. The robbers made Fireman Love break a hole in the end of the car with a coal pick. The messenger fired through the hole, and in the confusion Engineer Rich crawled upon the engine, pulled the throttle wide open and left the robbers behind.

**FAMINE RAVAGES WORSE IN INDIA**

BOMBAY, June 4.—Louis Klopsch, of New York, publisher of the Christian Herald, who has arrived here after making a tour of the famine-stricken districts, makes the following statement:  
"Everywhere I met the most shocking and revolting scenes. The famine camps have been swept by cholera and smallpox. Fugitives, scattering in all directions and stricken in flight, were found lying in the fields and roadside ditches. The numbers at one relief station were increasing at the rate of 10,000 per day.  
"At Godhara there were 3,000 deaths from cholera within four days, and at Dohad 2,500 in the same period. The hospital death rate at Godhara and Dohad was 90 per cent.  
"Air and water were impregnated with an intolerable stench of corpses. At Ahmedabad, the death rate in the hospital was 10 per cent. Every day I saw new patients placed face to face with corpses. In every fourth cot there was a corpse.  
"The thermometer read 115 in the shade. Millions of flies hovered around the uncleaned dysentery patients. I visited the smallpox and cholera wards at Viragam. All the patients were lying on the ground, there being no cots. Otherwise their condition was fair.  
"I can fully verify the reports that vultures, dogs and jackals are devouring the dead. Dogs have been seen running about with children's limbs in their jaws.  
"The government is doing its best, but the native officials are hopelessly and heartlessly inefficient. Between the famine, the plague and the cholera, the condition of the Bombay presidency is now worse than it was at any previous period in the Nineteenth century, whole families have been blotted out. The spirit of the people is broken, and there may be something still worse to come when the monsoon breaks."
