SACRED CONCERT.

And Address About American Sunday School Interests by Dr. Lewis.

The annual sacred concert given by the choir of the First M. E. Church last evening was a musical treat. As is usual on such an occasion the church was too small for the crowds who wished to attend.

Prof. Selby has splendid control of his choir of twenty voices and their rendering of the choice selections was highly commendable and reflected great credit upon themselves and their leader.

The soprano solo in "Lead Kindly Light" was sung with much sweetness by Miss Mattie Southwick, as was also "Christ Our Passover" by Miss Menick. These two ladies have voices not easily excelled and showed careful training.

One of the best numbers was the baritone solo "The Plains of Peace" by Mr. J. W. Bickford.

Miss Ethel Hughes and Miss Lillian Robin were heard in contralto solos of great merit.

Miss Ethel Raymond was at her best in her rendering of "Entreat Me Not to Leave Thee." Her clear, rich tones filled the room with a volume of melody that would be hard to surpass.

Dr. Lewis of Columbus, Ohio, was introduced and spoke briefly about the Sunday school work in which he is now engaged. He stated that twenty-two millions of people now study the same lesson every Sunday. The Sunday school is the one fibre that unites all denominations.

The churches are taking in more converts from the Sunday schools than from the outside. Last year 127,000 pupils of Sunday schools, became church members. Dr. Lewis is a very able and interesting speaker and Salem people are indeed fortunate to have a chance to hear and see him.

It is strange that there is so much corruption in the Philippines and Cuba. We have heard it said that America has taken charge of those islands and driven Spain out. Must be some deluded news we are receiving.—Nevada, Klamath.

The mistake consist in the fact that America has not taken charge of them. They are in charge of and being run for the benefit of McKinley and his political and ecclesiastical henchman—Communism.

THE NEGRO PROBLEM

Its Solution Outlined by an Educated Colored Gentleman Sunday Evening.

At the First Presbyterian church Sunday evening, Prof. Gilbert Stewart, of the Tuskegee Institute, of Alabama, delivered an address on "The Negro Problem and Christian Education Among the Negroes in the South."

The church was fairly well filled and a good impression was made by the young colored man.

He is a ready speaker, has a very good voice and uses excellent English.

He spoke about three-quarters of an hour on the subject indicated, and his talk was interesting, both for the information it contained and as giving the view of an educated Negro as to the problem of his race.

He briefly outlined the history of the Negro in the South and from the record made at the time of the civil war, he showed that the Negro's greatest characteristic is fidelity to a trust. Immediately after the war a great mistake had been made in the plan of education adopted for the Negro. He was taught Latin and Greek, but was not taught how to grasp the real opportunities which lay before him. The industrial situation was in his hands at that time, but the old generation of skilled laborers, mechanics, brick-layers, overseers, etc., taught in the school of experience during slavery, had been allowed to pass away without being replaced.

It was to remedy this that the Tuskegee Institute was founded. Started ten years ago in a little log cabin with 20 students, it now had 2000 students and ample accommodations in the way of buildings, all erected by the students themselves from material mostly produced by them.

The graduates of this institution go into the black belt and teach their race the things they have learned. It shows what can be done by the new plan of educating both the hand and the head. This would be the solution of the Negro problem. Other plans were not feasible. Emigration was not practicable. The Negro would not go, and the whites would not let them go.

"The negro does not want social equality," but he wants equality of opportunity. There is no color line to industry or to wealth. "If the negro has a bank account he is respected even in the hotbeds of secession in the South."

In the way of religious education the attempt was being made to teach the precepts of a practical Christianity, to take the place of the emotional Christianity, which is so largely the religion of the southern negro.

In its upward struggle the race should have the support and encouragement of all Christian people.

HONOR THEIR DEAD.

The Modern Member of America Decorate the Grave of a Departed Woodman on Sunday June 17.

On Sunday at 10 a. m. the committee of Oregon Cedar Camp No. 5246, Modern Woodmen of America, proceeded to the cemetery, (it being the annual Memorial day of that fraternal society) to do honor to F. S. Dearborn, the only member of Oregon Cedar Camp that has passed away since the organization has existed in Salem.

The grave was beautifully decorated with choice flowers. There was no public ritualistic ceremonies as is usually observed by the Modern Woodmen, but a simple token in reverence to their departed neighbor. Mr. Dearborn was one of the charter members of Oregon Cedar Camp.

We have 31 Reasons for buying a Standard rotary, over any other machine. Here are 12 of them.

1. The largest bobbin of any machine made, hold 100 yards of No. 80 cotton.

2. Tension released when taking out the goods.

3. Finest goods not drawn or puckered.

4. Less noise than any other machine.

5. Runs 50 per cent lighter than old style machine.

6. Most rapid sewer, makes two treadle motions to three of other machines, sewing same length seam.

7. Tensions not changed by change of speed, size of thread, thickness of good, nor length of stitch.

8. Does not break thread when machine is run back.

9. Shuttle so constructed that it cannot hit the needle, hence no broken needles from this cause.

10. Feed motion all positive no springs used, hence will feed all thicknesses of goods and seams without chewing the cloth no matter what length of stitch.

11. No cog wheels in any part of machine.

12. Chain stitch attachment FREE making two machines in one.

There are 19 more reasons just as interesting as above. If you're interested come and get one of our slips. You can prove every fact we state for yourself. Come and see us.

SEWING MACHINES

Many new unacquainted people, settling in Salem and the surrounding country, may not know that Salem has a more complete sewing machine store than many ever visited. You have a chance to select a sewing machine out of ten of the leading makes, as well as the cheaper grades. If a person by accident selects a machine and it does not prove suitable, you can exchange it, a privilege you do not have with other advertisers and dealers. Do you not think you could be suited with a Domestic, New Home, Wheeler & Wilson, Standard, Climax, White, Eldridge and others? No repair charges, if any, for any new machines, have been paid me by parties who bought new machines from me. I would like to call your special attention to the fact that nearly all companies have changed their machines so much that the later machines are quite different from what they used to be. Very often you are told by salesmen that this or that is only in this make of machine. Perhaps honest in their belief and done by their ignorance in sewing machines, not having learned the A. B. C. in the sewing machine business. There is not an essential point that I cannot show you the same in three or four different makes of machines. Things told you by canvassers, advertisers and dealers in only one make of machine, trying to make a sale, depending on you not being posted. Any make shown you with fairness or impartiality by me.

Since there are so many changes in sewing machines in all makes, I shall be pleased to have you call and see the different changes, then make your own selection. You may be far better suited, than looking at only one make.

In prices, I have the same machines in cheap machines, so extensively advertised at same price with same guarantee. The better grades at prices that make them sell, that I have a right to feel proud of. I have had over twenty years' experience in dealing in sewing machines. Old machines taken in exchange and sold on installments, if desired.

This place is owned and managed by Geo. C. Will. No. 231 Commercial street, opposite Bush Bank.
