

CANCER IS NOT INCURABLE

Time was when Cancer was considered as incurable as leprosy. Physicians and friends could give little relief or encouragement to one afflicted with this terrible disease. Even now doctors know of no remedy for this fearful malady; while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in its place, for the disease is in the blood—it is deep-seated and destructive, and beyond the reach of the surgeon's knife or caustic, flesh-destroying plasters. The blood must be purified and strengthened, the system relieved of all poisonous, effete matter before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood. S. S. S. is a purely vegetable remedy; no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you?

Cancer is not always inherited; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may develop from a sore or ulcer on your tongue or other part of your body; a slight bruise or hurt, a little pimple on the eyelid, lip, little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it—begin with S. S. S. at once; it will cleanse your blood and prevent the formation of cancerous cells.

Mrs. R. Shriver, La Plata, Mo., writes: "A small pimple came on my jaw about one inch below the ear on the left side of my face. At first it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and extend into the hair, and gave me intense pain. I tried everything I could hear of, but nothing did me any good. I then began the use of S. S. S. and after taking several bottles the Cancer healed, and there is now no sign of the disease. This was two years ago, and I am still enjoying perfect health."

A Sunday Excursion. It is the inherent right of every man to worship God when he pleases, where he pleases and how he pleases, or not at all, if he pleases, and so believe. It is the privilege of every man to toil up the mountain side on the Sabbath morn and worship the maker of the universe from the snow-capped summit of everlasting purity, it is his privilege to attend services at a church and receive spiritual teaching in the edifice of man set aside for divine worship if he so pleases and it is his privilege to meditate on the wonders of nature and give silent thanksgiving to the Master as he glides over the smooth waters of the beautiful Klamath lake that reverberates with the sweet strains of orchestral music which glides away into the sylvan glades to greet the listening ear of the doe and finally drifts into silence with the drumming of the pheasants and the sighing of the wind in the pines—albeit this he called a "Sunday Excursion."

The incomparable mind—the maker and the ruler of all things, could scarcely have conceived the plan of dictatorialship exercised or attempted to be exercised by sect or creed over mankind, and the duties, the privileges of mankind lie not in the keeping of demagogues or human minds, but are provided for in the divine plan.

Belief is a condition of the mind, fostered by heredity, environment, teaching and intelligence. The all-pervading soul may be unchangeable but belief is as varied as human conditions, and no man, no sect, no individualism need arrogate to itself the privilege to teach, to benevolence and offer

BAD BEDS AND BOARD.

The Salem-Nome Passengers have a Hard Time Getting Good Provisions or a Comfortable Resting Place.

A letter has been received from a Nome gold-seeker on board the Senator, dated May 23d, which recounts a revolt on board ship. The writer says:

Complaint has been made by the second cabin passengers at the sleeping accommodations and the menu. It came to a climax this morning when a petition was presented by a committee to Capt. Patterson setting forth their grievances. It was signed by 72 second-cabin gold seekers, among whom are ex-Governor Fletcher, of Salem and Eugene D. White, a Portland attorney. The committee told the master of the Senator if their demands were not complied with they would go down into the first-cabin dining-saloon in a body and take seats at the tables.

Captain Patterson advised them not to do anything that they might be sorry for later, and added that he had about a hundred men who were able bodied and in good health, who could at least stand on their feet aboard ship better than most passengers. So far there have been two meals since the action of the committee. There has been no bloodshed, and the second-cabin passengers continue to eat in the second cabin.

George Richards accidentally stabbed William Benn in the left arm with a hunting knife. They had been skylarking, Benn became angry when he felt the knife, and securing the weapon attempted to stab Richards. The latter's father interfered and with other steerage passengers disarmed Benn. The men afterward renewed their friendship. All the parties are from San Francisco.
