SHERIFF DURBIN AND DEPUTY ESTES CATCH A SWINDLER.

Within a Few Minutes After He Uttered a Check With the Governors Name.

A young man giving the name of Ed. Riser, arriving in the city from Portland Thursday and before night had been lodged in jail after passing a \$20 check to which Governor T. T. Geer's name had been forged.

This was a piece of prompt and effective detective work on the part of Sheriff Frank Durbin and Deputy Sheriff John Estes.

The fellow's work was decidedly "coarse" and he is either very venturesome or very reckless. He got some Ladd & Bosh checks of Mel Hamilton and soon afterward endeavored to cash a check signed by himself. He did not succeed and soon afterward visited saloons with two checks signed with the name of the governor, T. T. Geer. One was for \$5 and the other for \$20.

Being a stranger, he was spotted at once, and the matter was mentioned to Sheriff Durbin. The sheriff and Deputy Colbath and Estes, took a walk around on Court street and saw the fellow go into the Banquet saloon. Durbin went around and came in by the back door while Colbath and Estes stayed in front. The stranger soon came out, and Estes followed him, and saw him make his way to Ferry street and enter the house kept by "Mrs. McGinty." Coming back Estes notified Durbin, and after a time they went to the Club Stables and the sheriff telephoned Mrs. McGinty; asking her if the stranger had tried to pass a check. She replied that she had just cashed one for him. Durbin and Estes started to the house, but just as the man came out and walked to the curb further west, which he entered. Durbin then went to the madame and procured the check, and proceeding to the rival establishment, where the stranger was posing as a revenue officer, nabbed the fellow without any trouble. He put up a bold front until shown the check, when he gave up, and after reaching the jail he broke down and wept copiously.

He is a small man, weighing about 125 pounds, smooth shaven, and is about 23 years of age. He has a very thick, protruding lips and is a peculiar looking chap.

This morning Fisher was brought before Justice of the Peace O'Donald, where he waived examination and was bound over to the October term of circuit court in \$250 bonds, in default of which he was committed to the county jail.

WANDERERS RETURN.

Stranded Sunday School Excursion Rescued and Brought Home.

Shortly after 6 o'clock Thursday evening the steamer Pomona arrived from down the river, having on board the excursionists who had gone on the Methodist Sunday school picnic on the Fourth and had spent most of the intervening time stranded on the steamer Ruth at Lambert's bar, near Wheeland. There were 100 of the excursionists and they were a tired, though a happy looking crowd, as they flung ashore after 26 hours on the bosom of the raging Willamette. Probably twice as many were there to receive them and there were many touching reunions, especially between wives and husbands who had been obliged to "back it" 24 hours longer than they expected.

The experience was a novel one, and, in spite of the discomforts, the excursionists had a jolly time.

The commissary department broke down the first thing, but by sending out foraging parties to the surrounding country, the distress was relieved. Sleeping accommodations were, of course, inadequate and the soft side of a plank was the best that could be found for the greater number of the adventurers.

Everything passed off without any accidents, however, and the participants will have a subject for funny stories for some time to come.

One of the Millions.

A young man wearing a blue button labeled "One of the Millions," was at the S. P. Depot today. He said he represented the Christian Citizenship party that was supporting Woodley, the Prohibition candidate for President. He said he was a Republican and many Republicans were going to vote that ticket.

Mon. L. C. Griffith Paralyzed.

Thursday evening, about 5 o'clock, L. C. Griffith, who resides 10 miles east of Salem, went a 1/2 mile from his residence after a load of rails. Having placed a load onto the running gears of the wagon he attempted to climb onto the load. His foot slipped, or a rail turned and Mr. Griffith pitched forward over the load and struck the ground with his head and shoulders. The shock par-

alyzed his right side and his body rolled between the wheels, where he lay helpless utterly unable to move hands or feet for more than an hour. Fortunately Mr. Griffith fell onto the lines and when the horses would start to go the lines would tighten and check them, although unable to move, Mr. Griffith retained consciousness and was able to quiet the horses, one of which was a colt, by talking to them. Finally one of the hands becoming alarmed by Mr. Griffith's non arrival investigated the field and found him in the condition above described. Mr. Griffith is still paralyzed, but it is hoped that he will recover.

Coos Bay Shipping.

Historic Mill.

Associated Press to the Journal. ANCHORAGE, Pa., July 5.—The famous old Gneph Mill, near here, which in colonial days supplied flour to Washington's troops while they encamped in its vicinity en route to Valley Forge, is to be torn down. The army remained on these grounds from December 13 to 19, 1777. The Gneph Mill was erected in 1747. A memorial consisting of a boulder nine feet high, taken from an adjacent hill and erected upon a substantial foundation, by the Pennsylvania Society of the Sons of the Revolution, in 1802, imparts the foregoing facts.

BRYAN AND STEPHENSON

Continued from first page.

the free list to prevent monopoly under the plea of protection.

The failure of the present Republican administration, with an absolute control over all branches of the National Government, to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations, or to enforce the anti-trust laws already on the statute books, prove insincerity of the high-sounding phrases of the Republican platform.

Corporations should be protected in all their rights and their legitimate interests should be respected, but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which created them should be forbidden under such penalties as will make such attempts impossible.

We condemn the Dingley tariff law a trust-breeding measure, skillfully devised to give the few favors which they do not deserve and to place upon the many burdens which they should not bear.

We favor such an enlargement of the scope of the interstate traffic law as will enable the commission to protect individuals and communities from discrimination and the public from unjust and unfair transportation rates.

FINANCES.

We reaffirm and endorse the principles of the National Democratic platform adopted at Chicago in 1896, and we reiterate the demand that platform for an American financial platform adopted by the American people for themselves which shall restore and maintain a bimetallic price level, and as part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation.

We denounce the currency bill enacted at the last session of Congress as a step forward in the Republican policy which attempts to discredit the sovereign rights of the National Government to issue all money whether coin or paper, and to bestow upon National banks the power to issue and control the volume of paper money for their own benefit. A permanent National bank currency secured by Government bonds must have a permanent debt to rest upon, and if the bank currency is to increase with population and business, the debt must also increase. The Republican currency scheme is, therefore, a scheme for fastening upon the taxpayers a perpetual and growing debt for the benefit of the banks. We are opposed to this private corporation paper circulating as money, but without legal tender qualities, and demand the retirement of National bank notes as fast as the Government paper or silver certificates can be substituted for them.

We favor an amendment of the Federal Constitution providing for the election of the United States Senators by direct vote of the people, and we favor direct legislation wherever practicable.

Later.

We are opposed to government by injunction; we denounce the black list and arbitration as a means of settling disputes between corporations and their employees.

In the interest of American labor and the upbuilding of the workingman, as the corner-stone of the prosperity of our country, we recommend that congress create a department of labor in charge of a secretary with a seat in the cabinet, believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home, and to our commerce abroad.

We are proud of the courage and fidelity of the American soldiers and sailors in all our wars; we favor liberal pensions to them and their dependents, and we reiterate the position taken in the Chicago platform in 1896, that the fact of enlistment and service shall be deemed conclusive evidence against disease and disability before enlistment.

Nicaragua Canal.

We favor the immediate construction, ownership and control of the Nicaragua canal by the United States, and we denounce the insincerity of the plank in the Republican national platform for an isthmian canal in the face of the failure of the Republican majority to pass the bill pending in congress. We condemn the Hay-Panacote treaty as a surrender of American rights and interests, not to be tolerated by the American people.

We denounce the failure of the Republican party to carry out its pledges to grant statehood to the territories of Arizona, New Mexico and Oklahoma, and we promise the people of those territories immediate statehood and home rule during their condition as territories, and we favor home rule as a territorial form of government for Alaska and Porto Rico.

We favor an intelligent system of improving the arid lands of the West, storing the waters for purposes of irrigation and the holding of such lands for actual settlers.

We favor the continuance and strict enforcement of the Chinese exclusion
