TO KILL THE DANDRUFF GERM

Is the Only Possible Way of Having a Permanent Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin, brittle hair, the owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy the germ but Newbro's Herpicide. "Destroy the cause, you remove the effect."

The well was about 15 feet deep. The horse began grazing after shaking off the mud.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any cese it fails to cure. Send for circulars and testimonials.

HAVE NO OPINION.

Chinese Residents of Salem Are Non-Committal on the Present Trouble.

The Chinese residents of Salem are exceedingly non-committal on the subject of the trouble in China. A JOURNAL reporter interviewed some of the prominent Chinamen of the City yesterday, but got little worth repeating.

On Lee, of On Lee & Co., was the first man seen, and his talk was an advance copy of all the rest.

"Don't know anything about the trouble in China," said On Lee. "I been in this country twenty-six years. I don't know boxy man. Don't know what that mean. Never hear about boxy man. I don't know anything about trouble in China, only what Americans tell me. We have no telegraphs to China; no telephones. Letters take long time—twenty-four days. Don't like to see any trouble between China and America. It is bad business."

This was rather more definite than anything said by the others. They were all more or less voluble in explaining that they knew nothing about the matter, and Sun Lung, the Court street laundry man, added "that he didn't care." A bright young Chinaman in one establishment, in the absence of the bosses man, was inclined to the opinion that Japan was responsible for the trouble. But the absence of any definite opinion is a remarkable illustration of the secretiveness of the Chinese character.

To-Night and To-Morrow Night.
