Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them. The dreadful ordeal through which the expectant mother must pass, however, is so fraught with pain, suffering and danger, that the very thought of it fills her with horror. There is no necessity for the ordeal of childbirth to be either painful or dangerous. The use of MOTHER'S FRIEND during pregnancy so prepares the system for the event that it is safely passed without any discomfort whatever. This liniment has carried thousands of women through this great crisis without suffering, and they declare it a godsend to women. Send for free book containing information of priceless value. NATURE IN EDUCATION.

By Edward Rowland Sill.

I would give up all the mind
In the prim city's hoard can find—
House with its scrap art bedight,
Straightened manners of the street,
Smooth voiced society—
If so the swiftness of the wind
Might pass into my feet;
If so the sweetness of the wheat
Into my soul might pass,
And the clear courage of the grass;
If the lark caroled in my song;
If one tithe of the faithfulness
Of the mother bird and her brood
Into my selfish heart might press,
And make me also instinct good.

THE DEFECT IN OUR PUBLIC SCHOOLS

In vacation time we are free to consider the defects of our public education. When they are in full blast and our children are all going we are too loyal in our support to see a defect. Now when the battle of education is not on, let us see if we can discover a defect.

Has it occurred to the reader why we have so few poets and orators and literary men as a result of all our millions spent on education? Has America today a poet worthy to be named with Emerson, Bryant, Longfellow and Lowell?

The first named were nature poets, the latter two were classicists. Do our schools and colleges produce lovers of nature or men of literary culture? If so, who are they? Indeed, we live in a material age when the better side of humanity, its soul and spirituality, is submerged in the struggle for wealth. Our children learn to love neither the world at their feet nor the world of the imagination.

Public education that leaves its graduates out of sympathy with the beauties of creation, out of touch, love or admiration with the handiwork of the Divine, and with the creative faculties dormant and unaroused, that kind of an educational system will not prepare men and women for the highest development and the full duties of citizenship.

Our children are not taught the names of the common plants and flowers of the field, are not taught industry in connection with the soil. Is not this as important as the rule of three and to figure interest when they will never have any to figure? Let us think about these things when we bow down in idolatry to present educational systems.

THE MONEY QUESTION IS NOT THE ISSUE.

In 1896 the question of making the gold dollar the sole unit of value as the monetary standard, or retaining bimetalism according to the traditions of our country, with free coinage of gold and silver at the ratio of sixteen to one, was the paramount issue. All other questions were laid aside and the presidential election was made to hinge on that question alone. And after full and thorough discussion the gold standard won the day.

True to its principles, the Democratic-Peoples party reaffirms its declaration in favor of the bimetallic principle. But it does not declare that to be the paramount issue. Mr. Bryan in his speeches recognizes the verdict of 1896 and does not seek to make the money question the sole issue. If he is put in power by the people with both houses of congress back of him, he will not be put there on the sole issue of restoring bimetalism.

This is said in the full belief that the bimetallic standard is just and right and sound from the standpoint of economic science, and if it were the sole and parmount issue all honest bimetallists would rally to the support of Mr. Bryan, and all honest supporters of the gold standard would rally to the standard of President McKinley and the battle of 1896 would be fought over again.

So it is proper and wise that the Gold Democrats have abandoned their organization, have put no ticket in the field, and will heartily support Mr. Bryan. The socialist and Midway Populist and Prohibitionist will not support Bryan. But on the issue of Trusts and opposition to Imperialism the Militarism the united Democracy will rally to his banner in the interest of maintaining true American principles.

The money question is not the sole issue any more than the Tariff question is. Both questions are crowded to the wall in public thought by the issues growing out of the Spanish war, the war in South Africa, and the war possibilities in China. What the outcome will be time alone can determine. On the issue of Trusts and expansion the lines are clearly drawn. Bryan opposes both propositions. McKinley does not. Take your choice.

THE SUBSTITUTE FOR DISHONEST ATHLETICS.

A great deal of so-called college athletics is nothing but gambling of the most demoralizing and dishonest kind. It is related that on the occasion of the last inter-collegiate meet at Salem, in which religious schools participated, thousands of dollars changed hands. There was wrangling and trickery that would have disgraced the natives of Wrangel island, and the question is what is the remedy for dishonest athletics.

At the annual meeting of the state board in control of the State Agricultural college it was discussed and after a heated argument pro and con it was voted that the school should not participate in such inter-collegiate contests. These gambling exhibitions traveling over the state in the name of education were voted down in an official manner, and the official board was censured by the advocates of athletics. But their actions does not prevent the conduct of honest games and sports.

The best substitute for dishonest athletics is honest industry. We should offer prizes for the best cultivated piece of land, for the best crop of cabbages or celery, or the best bed of strawberries, or for the best family garden made by the young man or young woman, with the best quality and variety on the smallest space. Such a college student would be a credit to the state institution he or she hailed from.

LAND SWINDLING IS NOT A CRIME.

It is a notorious fact that congress invites open and above board fraud in the disposition of the public lands. In the first place the way the big corporations are gobbling up the great bodies of timber lands on lieu land scrip is enough to make a man's hair stand on end. But the private citizens is not a whit better when he or she sees a chance to grab some public land. It is probable that more lands are taken because people get the idea that they are beating the government than ever would be taken if all the methods were honest and straightforward.

The so called timber and stone act permits homesteading of both timber and mineral lands. Parties filing must swear that they take the land for their own personal use, just what they never intend to do. They must make oath that they do not file for purposes of speculation when the whole thing is a speculation from the start. They must make oath that it is not under any contract to be signed over or transferred to any syndicate, when most of it is engaged and contracted before the deal is ever begun.

But all these things are not a violation of law when it is done against the government. What would perjury or fraud against the next door neighbor is not enough to ruffle the conscience in the slightest degree when the government is the party of the other part. If no land could be held but what was honestly got few titles could be held today.

HOW WILL IT HAPPEN?

The Portland Oregonian says: "If Bryan should be elected the United States treasurer will have the new duty thrust upon him of issuing a monthly, perhaps daily statement, declaring the actual values of the silver dollar. The quotation will never be 100 cents as it is now."

In connection with the above the Times Mountaineer suggests that it would like to have the Oregonian to explain how it will be that silver coin will not be quoted at 100 cents on the dollar in the case of Bryan's election. By an act of congress of last March gold was made the unit of value in the United States. All other classes of money, silver, copper, nickel coins and paper were made redeemable in gold. Does the Oregonian assume that this act of congress was so flagrant, and so directly in conflict with the approbation of the American people that gold will not be able to bear its load in case of Bryan's election? We are desirous of knowing how silver, backed up by gold, can depreciate because of a change of administration. Will the Oregonian please explain?

"Hunger Is the Best Sauce."

Yet some people are never hungry. Whatever they eat has to be "forced down." There is, of course, something wrong with these people. By taking Hood's Sarsaparilla a short time they are given an appetite and then they enjoy eating and food nourishes them. If you find your appetite failing, just try a bottle of Hood's. It is a true stomach tonic and every dose does good.

IF YOU WANT TO CATCH FISH

Go fishing where fish have been caught by others. If you want to be cured take the medicine which has cured others. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It cures many diseases which seem remote from the stomach because it cures the stomach in which such diseases have their origin.

"Words fail to express what I suffered for three years, with cold chills, palpitation of heart, shortness of breath, and low spirits," writes Mrs. A. C. Jones, of Walterboro, Colleton Co., S. C. "I could not sleep and really thought I would soon die. Had a peculiar roaring through my head all the time. Was so emaciated and weak I could not feed myself. My aunt induced me to try Dr. Pierce's Golden Medical Discovery, which I did only to please her, and *its has cured me*. To-day am sound and well. During the three years I was sick I had five different physicians."

Dr. Pierce's Pleasant Pellets cleanse the system and regulate the liver.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY HAS CURED 98 PER CENT OF THOSE WHO HAVE USED IT.
