STOVE FOUNDRY BURNED DOWN

Perry & Co's. Plant Destroyed.

Also Kightlinger's Machine Shop—Fire Broke Out Soon After Men Left and Made Short Work.

The stove foundry of Perry & Co., near the S. P. passenger depot was destroyed by fire about 7 o'clock Wednesday evening, together with the machine shop of E. M. Kightlinger, which was in the same building.

The property loss will amount to about \$4,000, on which there was insurance to the amount of \$1,000 in the London & Lancashire Company. The items are estimated by Mr. Perry about as follows: Building, \$800; machinery, \$700; patterns and flasks, \$2,000; stock, including stoves finished and unfinished, \$500. The last item was not insured. This property was owned by Wm. Perry and E. Kightlinger.

E. M. Kightlinger valued his machinery plant at about \$500, on which there was no insurance. It will not be a total loss. The lathe, worth about \$800, appears to be but little damaged. A carpenter's brace which lay on the head of the lathe throughout the fire did not become hot enough to set fire to the wooden revolving pad.

A few stoves and a few patterns were saved from the foundry, but not enough to materially diminish the loss. Six or seven men were usually employed about the works.

The origin of the fire is not known to a certainty but it is supposed that a fragment of hot iron from the furnace caused a smoldering fire which broke out very shortly after the men left the foundry.

Some children playing near by saw the fire and an alarm was sent in about 6:40. Within a few moments the flames were through the roof in many places and by the time the fire department arrived after a prompt response and very quick run, the building which was a light wooden shell with corrugated iron roof was nearly consumed.

The lack of a good water supply caused a considerable delay. The water stands in pools in the bed of the creek near by, but these were exhausted one after another, and the engine was moved three times. Finally a line of hose was run to the hydrant, three blocks away, on the corner of 12th and Leslie and the last of the fire was quenched 1 o'clock.

Some delays were also caused by the bursting of two sections of hose. The supply of hose is diminishing, from this cause, and Fire Chief Duncan has asked for 800 feet of new hose, but it has not yet been supplied. The fire boys did good work in this case but the fire was too quick for them.

JEFFERSON WEDDING

Marriage of Miss Edith Hawk to B. H. Miller.

On Wednesday evening (Sept. 20) Miss Edith Hawk of Jefferson was married to Mr. B. H. Miller of Drain.

The ceremony was performed at the beautiful summer home of Dr. and Mrs. Hawk on their farm across the river from this city. The large house well illuminated inside, and porches hung full of Chinese lanterns looked like an enchanted fairy palace.

There were present about forty guests and everything possible was done to make the wedding a delightful affair. Mrs. Hawk and the doctor well understood the art of entertaining and this reception was one to be long remembered.

At 8 o'clock the bride and groom entered the south parlor standing in a bower of ferns, potted plants and flowers and were very impressively pronounced man and wife by Rev. F. B. Culver.

All then were invited into the dining room and partook of a delicious supper, such as the hostess could well prepare.

After supper toasts were responded to by Mr. A. B. Hudelson, Mr. T. M. Miller, Mrs. Miller mother of the groom and others. The wedding presents were numerous and beautiful.

Mr. and Mrs. Herman Miller will reside in Jefferson, Mr. Miller having gone into business there. All the guests departed at a late hour, after wishing the young people all the good things of this world, long life, happiness and prosperity.

SOCIAL DEMOCRATS.

Social Democratic Electors Named by Petition, and Nearly All are from Portland.

The petition to the Social Democratic candidates for Presidential electors and their acceptance, have been filed in the Department of State, for a place on the official ballot. There are 256 names on the petition, nearly all of them being residents of Portland, with a few scattering from the adjoining counties. The candidates of the party are:

Nels P. J. Folen, corner 3d and Flanders street, Portland.

J. Frank Porter, No. 1105 Fifth, Baker City.

Joseph Melndi, Alernethy precinct, Clackamas county.

C. P. Rutherford, Barns, Harney county.

The candidates of the party for President and Vice President, respectively, are Eugene Victor Debs, and Job Harriman.

Price of Cream.

T. S. Townsend, at the White Glove Creamery, now pays 25c for separator cream and 22 1/2c for hand-skimmed cream delivered at his creamery, or 2c less when he goes to farmer's doors at retail.

Remember Miss Luce's recital Friday evening at the First Presbyterian church.

BEAR THIS IN MIND

All local dealers in pianos, on the coast are supplied with their stock through the large piano houses in San Francisco and Portland. They can't make it pay to ship from the east unless in carloads and this no local dealer does, for he can't accept a full carload from one factory at one time. Our pianos are supplied, like the rest, from the coast houses. Our prices are now almost down to cost. A party who less than a week ago had but a piano elsewhere, is in yesterday, and was simply sick to find that our best Ludwig could have been had for less than they paid for a cheap instrument. These are facts which you'll observe for yourself when you come.

And Still They Come

PIANOS AT ALMOST COST

Will interest most anybody that has the remotest idea of buying. Salem people and people from nearby points will miss it if they overlook the opportunity of getting a standard make piano or organ at the prices we are making. We intend sending out every instrument in the store.

There is the Sweet Toned Ludwig And the Old Reliable Fischer And the Good Little Kingsbury And the Substantial Cable

Besides the Estey and Chicago Cottage Organs. All going at a big discount. Take time by the forelock and come and get your pick of the instruments, in a case to suit you, and you'll be happy.

A PLAIN TALK

We are as honest in what we say, as in what we sell. We do not misrepresent in statements—we do not substitute in prescriptions. We believe that genuine "honesty is the best policy" and that no permanent success in business can be attained without confidence, hence in all our dealings with physician and patient, and general public, it has been our first aim to merit confidence. Therefore, when we tell you an article is "good", we believe it to be so, and our quarter century experience with drugs ought to qualify us to judge intelligently along this line. If you wish the best medicines put in your prescriptions, bring them to us—if you like substitution take them elsewhere.

We never learned but one kind of Pharmacy—the honest kind. Another truth, our prices are right for right goods.

TALK TWELVE CENTS.

One of Salem's Leading Hog Merchants Thinks Hopping was Completed in a Good Many Yards in this Vicinity Last Week.

Hopping was completed in a good many yards in this vicinity last week, and in all the yards along the river will practically be finished in a day or two. Back in the hills the hops are later. In a few yards picking did not begin until last Wednesday, and will not be finished until some time next week. From reports made by growers it appears that the damage to hops by the rain was not of any considerable extent. Even owners of yards in the hills, where the hops were late, claim that no injury has been done, and that they will harvest a good quality of hops.

The market has not yet opened, and probably will not for a week or 10 days. Only a very small part of the crop is in the bale, and it is estimated by growers and dealers that by Saturday night next not over half the hops will be baled. A few growers have made bales in order to get samples. A few sales were made last week at prices ranging from 12 1/2 to 14 cents, but these were small lots. The sale at 14 cents was of very choice hops, and cannot be taken as an indication of what will be paid when the market opens and the hops are ready for delivery. Growers still talk of 15 cents, though there are some who do not speak so decidedly as they did in regard to holding for that price. Squire Farrar, a well-known Salem dealer, says that the brewers hope to buy their hops at 15 cents delivered, and if this price should prevail the grower will not receive over 12 cents. Unless there is a very radical change in the opinions of growers, there will not be many sales at 12 cents.
