SOCIAL NEWS AND VIEWS

Mrs. Wagner, of Ashland, is the guest at the home of her daughter, Mrs. W. H. Leeds.

A party of Iowa people, who have been stopping with Mr. Bates, of Rosedale over the prime harvest season, left for home this morning.

Miss Eva Belle Montgomery, who assumes her duties today as a teacher in the public schools, has been visiting Mrs. Mark Montgomery, having come down from Halsey several days ago for that purpose.

PERSONAL.
Auctioneer Goode was at Portland this morning on business.

Squire Farrar went to Woodburn this morning to make some hop grower happy.

Justice Wolverton and State Printer Leeds have returned from a Klamath county hunting trip.

Beware of Ointments for Catarrh that Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

The Register of the Voice.
The register of the voice is some times confounded with the range. There are two registers in the voice, whatever its quality. These are termed the register of the chest and the register of the head.
The chest notes are given in full, even tones and with the natural voice. The tones may be either open or closed. They are given from the chest and the back of the nose.
Head tones come from the bridge of the nose, and if untrained are apt to develop an unpleasant shrillness. In a trained voice it is impossible to detect where the chest register ends—New York World.

Hacking COUGH
A hacking cough is a grave danger; the sooner you get rid of it the better. Don't wait until it develops into consumption, but use the celebrated Dr. John W. Bull's Cough Syrup at once. It is a wonderful remedy for all throat and lung affections, and will cure a deep-seated cough or cold in a few days. Good for old and young.

Our Endurance.
During life each member of the human body produces poison to itself. When this poison accumulates faster than it can be eliminated, which always occurs unless the muscle has an interval of rest, then will come fatigue, which is only another expression for toxic infection.
If the muscle is given an interval of rest, so that the cell can give off its waste product to keep pace with the new productions, the muscle will then liberate energy for a long time. This latter condition is what we call endurance.
Like any other ponderous and intricate machine, the body requires time to get in harmonious working order. The brain, nerves, heart and skeleton muscles must be given some warning of the work they are expected to perform. Ignorance of this fact has broken down many a young man who aspired to honors on the elder path.
The necessity of getting all the parts of the body slowly in working order is well understood by trainers and jockeys on the race track, as is evinced by the preliminary "warming up" they give their horses although it is doubtful if the trainers could give any physiologic reason for their custom.—Popular Science.

The Deadliest Poisons.
The discoverer of prussic acid was instantly killed by inhaling one whiff of his own handiwork.
Pure prussic acid is never sold or handled. The smell of it is always fatal. It kills not in three minutes as is commonly supposed, but the instant it enters the lungs as a gas. The mixture ordinarily sold as prussic acid is 98 parts water to two parts of the drug. A 20 per cent mixture of the acid would kill nearly as quickly as if pure.
Atropine, though it has no harmful odor, is so deadly that as much of it as could adhere to the end of a moistened forefinger would instantly cause death. Cyanide of potassium has a pleasant smell, which is not injurious, but a small quantity swallowed kills at once. Pure ammonia, if inhaled, would raise death almost as quickly as prussic acid.
When a carboy of nitric acid is broken, some one has to suffer. It will burn wood, eat through iron plates and destroy whatever it touches. Such an accident once happened in an acid factory. Every one ran away, leaving the acid to amuse itself by setting fire to things. Soon it was seen that the building would be destroyed and hundreds of people thrown out of work, and four men volunteered to put out the fire in the acid room. They succeeded and came out all right. Five hours later all were dead.

Dr. Bull's Cough Syrup is the best medicine for colds, laryngitis, tonsillitis or tonsils. Every drop of it soothes and heals. A twenty-five cent bottle of this wonderful remedy will cure a cough or cold in one day.

BRANSON & RAGAN

Her Timely Gift.
In common with other women, Mrs. Brown delights in a bargain, and when she observed the advertisement of a great fire and water sale in one of the department stores she repaired there without delay. There were many fine works of science, travel, history, religion and fiction to be had for a song each, but her eyes rested on a handsomely bound copy of "The Life of General Grant," and she bought it for her brother. Of course, it would not be fair to tell what she paid for it.
"The next day her brother came over to thank her. "It's fine," he said. "I haven't got very far in it yet, but I know it's going to be good. When little Jane gets along a little further in her German, I'm going to have her read me a bit of it every evening. I make rather slow progress of it myself."
"In German?" gasped the giver.
"Yes," said the brother, "it's written in German, a mighty handy thing to have around the house." Since then Mrs. Brown has never bought a fire or water book without looking carefully on the inside of it.—Worcester (Mass.) Gazette.

Paid as He Went.
Patient—"Then you think it's all up with me, doctor?"
Doctor—"I'm afraid so."
"Well, we must all die once, and I may as well go now as afterward. You're sure I'm going?"
"Yes."
"Then let me have your bill."
"My bill? My dear sir, this is very unusual. You should give your thoughts to most serious matters."
"My motto has always been 'pay as you go,' and now that I am going I want to pay."
So he paid and went.
