Becoming a Mother

is an ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy relieves confinement of all pain and danger, and insures safety to mother and child. This scientific liniment is a godsend to all women at the time of their most critical ordeal. Not only does MOTHER'S FRIEND carry woman safely through the perils of child-birth, but its use greatly prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at $1.00 per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.

SOMETHING ABOUT OUR CITY AFFAIRS.

The holdover aldermen in the city council are Larsen in the fourth ward, Burrows in the first ward, and Buren in the second ward. Successors are to be chosen to Walker in the first, Riggs in the second, Gesner and Allen in the third, and Griswold in the fourth. All of these gentlemen may be asked to serve again by petition of voters who favor a non-partisan Citizens' administration, except Allen, who has removed from the Third Ward to the Fourth ward. Mr. Allen made a careful and attentive city father and his services may yet be required in some higher position. Of course, the Citizens will ask Mayor Bishop, Marshal Gibson, Recorder Judah and Treasurer Moir to stand again.

Alderman Gesner says he will not take the nomination for alderman. There are two to elect. This is the strong Republican ward, but the Citizen's ticket may have one of each or both of one party.

These gentlemen have done their duty in a praiseworthy and patriotic manner that deserves the encouragement, good will and hearty support at the polls of all disinterested citizens. In two short years they have won a reputation for our city far and wide for good government that puts Salem in the front rank of all Pacific coast cities as a model municipality.

The finances of the city are in such favorable condition that the city government can branch out in the next two years and undertake something in the way of more lights, more police, street improvements, etc. THE JOURNAL believes that a progressive policy can now be undertaken with safety. It could not be done until daylight could be seen out of the horrible muddle of our finances. A child cannot walk until it can creep. It cannot run until it can stand. The only complaint against the citizens' administration has been that it has not done enough in the way of expenditures and improvements. But these things cost money, and money cannot be honestly spent until you have it. In two years past the city has gained a surplus. It has met its bills, made no new debts, reduced the old debt and annual expenses for lights, salaries, interest and other fixed charges. It could not incur new liabilities until it had put the balance on the right side of the ledger. That has been done heroically. It set a new pace in granting a franchise that protects the rights of the city and tax payers. It has enacted tax and revenue bills that if they stand the test of the courts will add materially to the city income. These things have been done intelligently and fearlessly and persistently. Naturally this causes some opposition among those who are taxed. But if property tax is reduced taxes on privileges and franchises must be increased.

There are those who look at all public matters from a personal viewpoint, or who see nothing in the government of a city but opportunity for little political sharp practices. But the better sentiment of thinking people takes a more serious view. The property interests of the city require a business administration. Progressive policies and the best business methods go hand in hand. The successful businessman is alone able to make improvements, has money to spend for luxuries and at the same time keep out of bankruptcy. Salem has halted in the headlong plunge toward municipal insolvency. In a few years more our city can be put on the upward road where progressive expenditures and systematic improvements can be undertaken out of surplus and possibly affluent revenues.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. W. Grove's signature is on each box.

THE SEED WHEAT PROBLEM IN WESTERN OREGON.

Wheat growing in Western Oregon has reached a critical stage. The industry will be very much affected by the course the farmers pursue in the matter of seed this winter. The plain fact is that the old Oregon white winter wheat has been grown so long that it has run all out and is today the lightest stuff that is brought to market. It was twenty or thirty years ago the finest and largest berry in the world. In weight and quality it was superb. But that day is past, and the farmer who is going to continue wheat growing must consider the facts as they are. The importance of getting better seed comes home to the man who grows oats as well as wheat.

Some have success with harder wheat and have grown the blue stem wheat to advantage. THE JOURNAL would like to hear from some who have tried the blue stem and such farmers will do a great favor by calling at this office and letting us know what the result has been and let us give the facts to our readers. We are convinced from talking with farmers that better seed wheat is an essential feature of the situation and that the wheat crop can be improved or ruined for the future just in degree as the farmers sow their old emaciated stock or refresh this crop with new blood.

This is a very important matter—too important to be theorized about. Let us have the facts from those who grow wheat. No doubt a great crop of good wheat and oats can be sown and made from present seed. But it is not too late to get hold of better and cleaner seed and put in at least enough to raise new seed for next year. Let every wheat grower give this some thought and attention and in a few years much can be done to restore this industry. Blue stem has done well on many lands. The kind called Prohibition wheat was not good for much at first but is now acclimated so that it is a great improvement on many soils. There are many lines of progress in this matter and they should be opened by everyone giving his mite of experience to help others along.

ECZEMA'S ITCH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—MRS. L. B. JACKSON, 1414 McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

SSS cures Tetter, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SPECIAL LETTER FROM PORTLAND

Written For The Journal By Its Local News Representative' Harold B. Johnson

PORTLAND, Nov. 15.—Mr. George Taylor, president of the Portland Chamber of Commerce, was seen this afternoon regarding the aid the Chamber will give the effort to secure an appropriation from Congress for the building of a canal around The Dalles to afford means of passage for vessels coming from the upper Columbia and the Snake Rivers. Mr. Taylor is of the opinion that the Chamber will do much to make the claim of Oregonians for this waterway emphatic. A meeting of the members of the Chamber was held yesterday, but the attendance was not sufficiently large for the transaction of business of the nature of the proposed canal, advantageously. It is believed that a decisive step will be taken at the next meeting, the date of the convening of the National Congress is so near at hand.

As is well known, it was the original intention to build a boat railway around The Dalles, and an appropriation was secured from congress for that purpose. That scheme having been abandoned, the desire is to ask for an appropriation of a million dollars which sum, plus the boat railway appropriation, it is believed will be sufficient for the work. No difficulty will be experienced in changing the reading of the original appropriation so that it would permit of the use of the money as now suggested. Some time ago the local Chamber of Commerce secured $5,000 with which to make a preliminary survey of the proposed canal region. Captain William Harts, of the United States Engineers, has the procuring of the data in charge and hopes to send a complete report to this department by the first of December. The compilation of the material has been delayed on account of difficulty met in endeavoring to secure reliable statistics as to the amount of traffic that the proposed artificial water course would be called upon to handle.

J. W. Brown, who was arrested last night by Patrolman Baily was arraigned in police court this afternoon charged with having robbed M. Obgle, a railroad employe of Pendleton, while the gentleman was on his way to the Union depot last evening shortly after eight o'clock. The robbery took place at the north end of Sixth street and Obyle says that there were three men who took part in the robbery. They deprived him of $70 in money and a silver watch which he carried. The case will be laid over until tomorrow, at which time the defendant Brown, will appear with attorney. He desired a postponment of the trial on the ground that he had had no opportunity of securing an attorney.

Many Portlanders were out last night with telescopes endeavoring to catch sight of some of the meteors that were due to pass across the heavens. The watchers, however, in this part of the country at least, experienced disappointment for the earth was enveloped in a thick cloud blanket that even if the meteoric shower took place, rendered its sight impossible.

It is expected that a large number of Epworth Leaguers will be in the city tomorrow at attend the League convention that is scheduled to be held at the Grace Methodist Episcopal church. The delegates will come from all parts of the Portland district of the church. A program of papers and discussions pertaining to league work has been arranged and will be given. Dr. E. M. Randall, Jr., of Seattle, Wash., will speak at the afternoon session and in the evening Dr. J. R. T. Lathrop will deliver a lecture.

The wheat market this afternoon is somewhat firmer than it was yesterday althoug the local figure still continues at 54½. The eastern market is ½ cent better, and it is owing to this fact that the firmer shade characterizes the local market.

Hon. John Barrett, ex-United States Minister to China, addressed the members of the Portland Chamber of Commerce and a number of the business men of the city, in the Chamber rooms this afternoon. The subject upon which he spoke was, "The Oriental Trade." Mr. Barrett said in the course of his remarks that he has always been an ardent believer in the Pacific coast development and of the aid she will secure in that development through her trade with the eastern countries. He said that he did not wish to make a political assertions, but from his travel in the Far East would give a few facts regarding the countries there as beneficial to the United States.

In the first part of the lecture he gave consideration to the people of the countries in the Orient. He said that the people in those nations were fast coming into a certain knowledge of what it means to buy and sell. At the present time the trade of China and the other Eastern nations is great, but American merchants get but a meagre share of it. English merchants have finely organized systems of merchantile trade in the East, but despite that fact the American merchants should be in no way intimidated. "I am satisfied," he said, "that two-thirds of the products demanded by those Eastern nations could readily be furnished by the Pacific coast states.

"The Philippines are almost the center of that great region known as the Far East. The islands are almost an exact geographical and commercial center. The Philippines afford a doorway to all the Eastern commercial situation."

CHRISTIAN SCIENCE JURY DISAGREED

OREGON CITY, Nov. 15.—Jury in the trial of A. W. Hertzka, the Christian Science healer of Portland, charged with healing for a fee without a license, disagreed.

Steamer Wrecked at Port Valdes.

The Seattle steamer, Ruby A. Cousins which sailed from this port loaded with a general cargo of government supplies for soldiers at Port Valdes, lies a total wreck in the narrows at the entrance of Prince William Sound.

The Cousins was wrecked while trying to pass through the narrows without the aid of a tug. The crew escaped in small boats and were picked up and taken to Part Waldes.

Fresh and the Best.

People who depend on a bakery for their bread, cakes and pies, and want the best and fresh baked, buy from the Pioneer Bakery run by Westacott & Stolz.

HATED HIS HANDCUFFS.

Kubli Tried to Get Out of Them---What They Say of His Head.

Corvallis Times:

Kubli is finally safely housed in the state penitentiary. He made the trip from Corvallis in company with Sheriff Burnett, Friday.

At every opportunity that he thought himself unobserved, the wily prisoner worked his handcuffs back and forth on wrists to discover some way of slipping his hands out of them. As he neared the frowning walls of the penitentiary he made one vicious attempt to slip the steel bracelets from his wrists. The attempt was so vigorous that skin and flesh was torn away for half an inch from one hand. Of course it was unsuccessful, and Kubli walked through the doors of the prison with his hands as securely pinioned as when he left the Benton county jail.

"Your young man has a bad head," was the first observation made by the superintendent of the penitentiary to Sheriff Burnett, after the latter had deliver his man. He referred to the angular and badly proportioned head of the new convict, which to any skilled observer furnished a key to the man's character. Kubli was in all respects a queer prisoner, and those who had him in charge are doubtless glad enough to be well rid of him.

Bed Time

take a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. It is made of herbs, and is prepared as easily as tea. It is called Lane's Medicine. All druggists sell it at 25c. and 50 cts. Lane's Family Medicine moves the bowels each day. If you cannot get it, send for free sample. Address, Orator F. Woodward, LeRoy, N. Y.

Dowie and His Peacemakers.

LONDON, Nov. 16.—Zionite Dowie is not paying as much attention to his lace-making project as he is to his endeavor to procure converts to his religious scheme. He has gone to Scotland now on an evangelization tour. He is aware that the labor leaders are prepared to meet his Nottingham lace-makers as soon as he lands them in New York, so he is proceeding with great care. But he still holds to the right to set them to work by contract in the United State as he claims to be able to establish the fact that these lace-makers, if imported by him, will not come in competition with any now working in America.

A Business Proposition.

A successful business career cannot be achieved without sound health. The business man should guard his health as he guards his capital; for health is part of his capital and the impairment of that capital affects every business interest. A sedentary occupation and quick lunches, soon show their effects in a sluggish liver. The use of Dr. Pierce's Golden Medical Discovery will cure "liver trouble" as well as indigestion and other diseases of the organs of digestion and nutrition.

The "Discovery" strengthens the body by supplying Nature with strength making materials. It contains no whisky, alcohol or other intoxicant.

"After three years of suffering with liver trouble and malaria," writes Mr. Edward Jacobs, of Marengo Crawford Co., Indiana, "I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I had tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets' I am stout and hearty. I indue entirely to your wonderful medicines."

Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

IT IS ALMOST UNANIMOUS

Citizens, Business Men and Tax Payers Endorse.

The Present Non-Partisan Administration of the Business Affairs of the City of Salem.

The public sentiment in favor of continuing the present city officials and board of alderman in power is stronger than ever before.

A large number of citizens have been interviewed and are unqualifiedly in favor of the existing order of things. It is understood the men who have served in the citizens' administration are willing to stand for a re-election on December 3d provided they are invited to do so by the citizens, and the sentiment in favor of such action is almost unanimous.

Some Expressions.

Dr. W. A. Cusick: We have entered into this movement as a business proposition, and all political considerations were eliminated. It has succeeded well, and all our officers have fulfilled their pledges so faithfully that I believe that every taxpayer has received great benefit from the administration. I am unqualifiedly in favor of a continuance of the same regime.

Ladd & Bush: Let us continue it by all means. It is not a matter that admits of question. When they came in power we were running in debt about $1000 a month. That has been stopped and there has been liberal saving besides. It would be business madness to return to the old order of things.

H. Poble: It's all right to date. Give us more of the same kind of work.

Werner Breyman: "I am well pleased with the whole work, and would like to have the same class of business men returned. In addition would like to see a little more and better street improvement."

G. W. Johnson: "Heartily in favor of the present regime, and don't believe we could better it."

John Q. Wilson: Think our present financial management is correct and should be sustained.

J. Q. Barnes: The present administration has conducted affairs in such a manner as to justify their continuance in power. Its management of the city's finances has been unexcelled, and should be continued.

J. J. Dalrymple: We want to put every man of them back, and more like them.

A. N. Gilbert: I approve of the most favorable things that can be said of this administration.

C. L. Daily: I don't see how it can be bettered. It is simply a case of introducing practical business sense in place of politics.

W. F. Boothby: I favor keeping the present set of officers in for as long a time as they will do as they have the past two years.

Eugene Breymen: The administration has been good for the taxpayers and the welfare of the city, and I want to see it continued.

R. P. Boise: The record will show that city affairs managed as a part of a political machine has been a dismal failure, and managing it as at present, with politics left out and business put in, has been a decided success. I want to see the present business method continued.

Gilbert Bros: Let us retain the present administration by all means. There have been no "jobs," and only the best interests of the city have been considered.

W. W. Skinner: I favor continuing the present program of economy and good city government.

E. C. Cross: Hope it will be continued in its present efficient form, as I believe it is the first time in a score of years that the city hasn't run behind.

Joseph Meyers: Like the management very much. But it is an outrage that we do not have at least one or two more policemen.

Branson & Ragan: Think it is all right and hope to see it continued.

E. F. Osburn: Can't speak too highly of the men and their work.

E. S. Lamport: Want things to stay just as they are.

John Savage, Jr.: Think we ought to let well enough alone. I am opposed, as a Republican, to the partisan ideas expressed in the Telegram article. In city matters we should drop all political considerations.

Guy M. Powers: The only way we will ever get out of debt will be by continuing the present administration.

H. A. Johnsonr The present administration has been good enough for me.

M. Bredemeir: It suits me very well.

G. W. Putman: It has been a great improvement and will gladly support it again.

J. Parvine: It is good and I don't know how we could improve on it.

Gil Steiner: "We should put through a straight citizen's ticket just as it is."

J. Conner: "I want to see the whole thing continued with one addition—better streets."

F. A. Turner: I helped put them there and I am not sorry for it.

Walter Morley: I am thoroughly in favor of the present methods.

F. A. Wiggins: It is by far the best administration the city has had to my knowledge. By all means let us continue it.

Damon Bros.: It would be the height of folly to make a change. We are doing well enough.

D. F. Wagner: It is all right in all respects and there are no objections to a continuation of the same.

T. Holverson: I am strongly in favor of giving the present administration a second term. We couldn't better ourselves.

Geo. J. Pearce: Would like to see every man of the present non-partisan city administration continued, and their methods as well.

J. H. Albert: Well satisfied with the present administration and favor a continuance of their non-partisan conduct of city affairs.

J. B. F. Tuthill: Voted for it before, and will do it again.

D. J. Fry: This administration ought to suit anybody. Especially tax payers. Hope to see it continued.

F. W. Hollis & Co: It has been all right as far as I can see.

A. M. Humphrey: Fully satisfied and feel that for once we are working on safe lines.

J. I. Thompson: Its first rate. Don't want changed as long as I live.

W. H. Holmes: Best city government we have had in twenty years, and we had better stick to it.

H. Stapleton: Am in favor of continuing the present administration.

A. N. Moores: Exceedingly well satisfied with the present order of things. Hope to see the same lines pursued in the future, as we now begin to see daylight from the slough of despond into which we were plunged in the past.

Dr. Bull's Cough Syrup is a grand old remedy used for many years, and still in public favor. It is without doubt the best medicine for all pulmonary affections. It always cures. All druggists sell it for 25 cents.
