COMMUNICATION WITH PLANETS

Said to be Established By a New Jersey Genius

He Gets Timed Soundings Like Those From a Morse Instrument

New York, Jan. 12.—Wm. A. Eddy, of Bayonne, N. J., says that since 1892 he has drawn from a kite wire hundreds of electric signals, both regular and irregular, which may have come from some planet and that the signals have been regularly timed like a Morse sounder. When the ends of the kite sustained steel wires separated by silk strands, sparks jump at 12 second intervals. Eddy says these spark signals may come from an outer planet, because electricity travels at the rate of 190,000 miles a second. Great variability to the effect is produced when there is apparently no change whatever in the condition of the upper air, as far as known.

PRESIDENT SITS UP

House Considering Rivers and Harbors Bill

SENATE HONORS SENATOR DAVIS

The Hay-Pauncfote Treaty Being Considered in London

WASHINGTON, Jan. 12.—The President continues to improve. He passed a good night and probably will sit up for a while today.

The House today resumed consideration of the River and Harbor Bill.

No legislative business of importance was transacted by the senate today. The session was devoted to services held in memory of the late Senator Davis, of Minnesota.

When the congressional investigating committee resumed probing into the progress of hazing at the Military Academy, there was an unusually large gathering of spectators. The first witness today was Colonel Mills, superintendent of the Academy.

The State Department has been officially advised that the Hay-Pauncfote treaty is under consideration at London, with a view of returning a final answer to this government.

ROYAL DOWRY OF AN AMERICAN GIRL

New York, Jan. 12.—A special to the World from Newport, R. I. says: It has been given out unofficially by a close friend of the Vanderbilt and French families that Alfred Vanderbilt has settled on Elsie French as her marriage portion, one tenth of his enormous fortune—namely \$3,700,000.

This great dowry is given to her, according to this authority not in cash, but in selected bonds and stock from that part of the estate of the late Cornelius Vanderbilt which was apportioned to Alfred, the chosen son and chief heir.

As the late Cornelius Vanderbilt's fortune was invested in securities paying four per cent, the bride will have an income of \$148,000 a year, or \$12,233 a month.

ANOTHER CLAIMANT FOR CLARK ESTATE

New York, Jan. 12.—Another claimant for the \$30,000,000 estate left by Imray Clark, the gold mine years ago, has put in an appearance in the person of Edward Hilliker of Parachute, Colorado, who has written to Governor Voorhees of New Jersey, setting forth his claims and asking information. The Governor has turned over the case of the new claimant to Elvin W. Crane of Newark, New Jersey, counsel for three claimants, Mrs. W. R. Delhagen, George M. Love and Annie Alvord, of New York.

KRUGER'S HEALTH

British Army Reported on the Defensive

PLANS OF THE NAPOLEON DEWET

The Boers Invasion of Cape Colony Continues to Be Serious

CHICAGO, Jan. 12.—A dispatch from Paris to the Tribune says: Private advices received here recently that a German physician who recently examined President Kruger pronounced him dangerously ill, scarcely likely to live more than a fortnight longer. The President was prostrated by an attack of bronchitis two weeks ago and the severe climate has facilitated the progress of the disease.

When President Kruger was first attacked by his present illness his condition was the cause of no little anxiety. Two days later, however, it was announced he was improving and had been able to leave his bed.

New York, Jan. 12.—A dispatch to the Tribune, from London, says: The chief source of consolation for the bewildered public, which cannot understand what is going on in South Africa, is an occasional dispatch from America indicating that the Philippine war is still in progress. No attempt is made to explain the fact that the two branches of the English speaking race are simultaneously harrassed with the dragging operations of apparently endless and profitless campaigns. But English humiliation is mitigated by evidence that the Americans are still far from the end of hostilities in the islands.

Gen. Kitchener is so reticent that pro-Boer journals like the Manchester Guardian and alarmist sheets like the Daily Mail are convinced that the situation is critical and the British army virtually on the defensive and in need of reinforcements. Gen. Kitchener takes the situation so coolly that military men are disposed to ridicule the idea that any descent upon Worcester or Cape Town is possible.

An officer in touch with the best sources of information informs me that there is no intention on the part of the War Office of sending out a large body of reinforcements. Drafts have been going out for several weeks in small detachments but the military authorities are not convinced that urgent measures are required.

Lord Roberts is believed to have received the following message from the British general in command of the forces in South Africa:

BOTANICAL WONDERS

The marvel of the hour is the wonderful cure of chronic diseases without the use of knife or poisonous medicines. This is what afflicted humanity needs more than all else. Not a week passes but Dr. J. F. Cook, the great botanical specialist and original discoverer of the botanical cure, heals some patients who have suffered for years from awful disease and the more awful effects of rank medical humbugs. Dr. Cook is willing to give patients the benefit of his life study but declines to publish further testimonials out of regard for his patients, yet will gladly refer any callers to their neighbors and friends who have been healed. Consultation free. If you have any physical ailments it will do you good to call and have a little chat with the doctor.

RUSSIA PLOTTING

To Make a Special Deal With the Chinese

THE DOWAGER EMPRESS WARNED

That She Must Recall Her Authorization to Sign the Treaty

PEKIN, Jan. 12.—M. De Giers, the Russian minister to China, denies the current report that Russia is endeavoring to make a special agreement with China irrespective of the other powers. With reference to the claim made by some of the other envoys that Russia violated her word in taking a concession at Tien Tsin, M. De Giers said: "Nothing of the kind. Tien Tsin is practically a foreign city, and Russia felt the necessity of a certain portion of the land there for the benefit of her trade interests. The land granted had been virtually unused for any purpose and was almost worthless. Russia will make it a valuable property, benefitting herself and China. I do not consider this like an acquisition of territory."

New York, Jan. 12.—A special to the Times from Washington says: Not much faith is placed by the State Department in the story from Paris that

JERSEY JUSTICE

Makes Corporations Pay the Taxes

NON-PAYMENT OF THEIR TAXES

Works a Forfeiture of Their Franchises in That State

NEW YORK, Jan. 12.—In the annual report of the board of assessors, which has just been submitted to the New Jersey legislature, it is stated that 6,065 corporations organized under the laws of the state of New Jersey have paid into the treasury during the last year the sum of \$2,051,290.

As the corporation tax rate in this state is one tenth of one per cent, on the paid in capital stock, or \$1 tax for every \$5,000 capital paid in, the 6,065 corporations must have paid tax upon \$2,051,290,000 paid in capital stock.

The state corporation department estimates that the 6,065 corporations assessed have paid in capital stock of 20 percent of the authorized capital stock. If the tax of \$2,051,290, which represents \$2,051,290,000 paid in capital stock is 20 percent of the authorized capital stock, the authorized capital stock must be five times \$2,051,290,000 or the sum of \$10,256,450,000.

The increase in the number of miscellaneous corporations assessed during the year over that of 1899 is 1136, although in reality 1807 new companies were added to the list in 1900.

The difference of 671 companies represents those whose charters were forfeited by the proclamation of Gov. Voorhees in May last for the non-payment of taxes.

NEWCASTLE IN RELIGIOUS CONFERENCE

New York, Jan. 12.—The Duke of Newcastle, who has been in this country for some weeks has been one of the noted participants in several conferences held during the week with high church leaders among the Protestant Episcopalians of New York and Philadelphia. As a result of these conferences, it is learned that a definite plan has been formed to bring into close union the ritualists of England and the United States.

Mr. Kelsey and the Rev. Mr. Wilson will leave today for Philadelphia, where they will be joined on Monday by the Duke of Newcastle. They will remain in Philadelphia for several days conferring with the ritualist leaders, then they will go to Boston to enlist the high church Episcopalians of that city in their plan.

The strike of the employees of the Union Traction Company ended today, a board of arbitrators having granted nearly every demand made by the strikers.
