EXPLANATION

How We Handle Our Coffee to Roast...

1. The green coffee is graded by a machine. This makes the different grades all the same kind.
2. It is put through a rubbing machine.
3. It is washed.
4. Then dried by heat.
5. Ready to roast.

It is put in an air-tight cylinder and roasted by gas flame. No smoke or aroma can escape as when roasted in a stove oven. When roasted with a gas roaster the berries sweat and all pores are covered and it will keep fresh much longer and have a better appearance.

WILD FLOWERS.

"They called me wild," the rosebud cried,
"When they spied
Me blooming by the woodland side—
They brought me where no silv'ry streams
Mingle with my dreams,
Where no bird seems
To sing its song;
They did me wrong—
To tear me from my simple station—
As woodland rose; by cultivation,
They called me Marechal Neil;
For the weal
Of Trade, they called me Jacqueminot;
But oh!
Despite the names they gave me in their art,
I am a rose at heart!"

A maiden cried, "They called me wild—
A girl—a child,
Until they brought me from my Latin,
And gowned me in their silk and satin;
They judged me by my outward grace
And face;
They called me a woman of the world—
Unfurled
Vain compliments about my duty
As an American Beauty;
They called me debutante:
For the want
Of better titles, called me belle—
Ah, well!
Despite the names they gave me from the start,
I am a girl at heart!"

Several pieces of vocal music, and some recitations were well rendered, then the band played at intervals during the remainder of the evening. Music racks were a scarcity but the young ladies kindly assisted by holding the music, when the boys declared they were glad they had forgotten their racks.

National Fanciers's Exhibition.

CHICAGO, Jan. 21.—The Beresford Cat Club began its second annual exhibition of cats of high degree today in the new Caliseum, in connection with the National Fanciers' Association Exhibition. The exhibition continues until the 26th, and draws a large crowd. The show of poultry, pigeons, Belgian hares and pet stock is very fine. The cat show has brought together as fine a collection of tabbies of high and low degree as was ever seen on the continent. The Beresford Club has members all over the country and also in Canida. There are here Angoras, Persians, Abyssinian, Australian, Siamese, Russian, Manx, Mexican, indeed all varieties. The most noted cats in the country are here.

Decreased Capital Stock.

The authorized capital stock of the company to $12,000,000, to consist of 120,000 shares, and the outstanding capital stock to $11,936,700 to consist of 119,367 shares of the par value of $100 each. The number of directors was increased from nine to twelve.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

SSS

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

BABY'S BUSINESS

A healthy baby is comfortable; and that is enough for a baby. His business in life is to grow.

Aside from acute diseases, his food is the cause of most of his troubles. But Scott's emulsion of cod-liver oil delivers him from it.

He isn't sick; only a little hitch, somewhere, in his machine for turning food into growth.

It is a great thing to do, for a baby, to help him over a hitch with mere food—the emulsion is food that has the tact to get there.

The tact to get there is medicine.

We'll send you a little to try, if you like.

UNITED STATES MINE WORKERS

INDIANAPOLIS, Jan. 21.—The United Mine Workers of America assembled in annual convention to-day. A stiff advance for mining coal is demanded by delegates from the various fields covered by the interstate agreement. The first increase to be urged will be for machine mining.

Convention of Mine Workers

INDIANAPOLIS, Jan. 21—The National Convention of United Mine workers met here to-day. There is a very large attendance, 200 delegates coming from the anthracite region of Pensylvania alone.

Indiana Mine Workers

INDIANAPOLIS, Ind., Jan 21.—Secretary-Treasurer Wilson, of the United Mine Workers' Union of Indiana, reported to-day to the National Convention in this city that the total membership on January 1st was 18,331, an increase since last January of 212 per cent. The chief increase in the membership, of course, is in the anthracite district. Mr. Wilson said that the increase in the sum to the credit of the organization in the bank will be at least 350 per cent., and will show a total of $350,000.

Not Growing Fast Enough.

LONDON, JAN 21.—At the beginning of the Twentieth Century, English thinkers are studying over the disturbing fact that the birth-rate of Great Britain has greatly diminished. So great is the decline in this regard that it is asserted that there has been a decline of 17 per cent. in this regard during the last quarter of the last century. The luxury of these days is telling on the Anglo-Saxon, as well as upon the Gaul, and produces this sharp diminution of birth-force. The economists are waiting with some anxiety the figures from the United States and Russia. If they should show no diminution in his respect the feeling of uneasiness would increase, inasmuch as Germany is growing in population steadily. France is trying to arrest its loss by offering bounties. It remains to be seen what England will do. Meanwhile it is plain that the advent of women in the lines of occupation formerly held only by men makes them indifferent to marriage.

The Latest Yarn.

A Pittsburg drummer tells this new yarn: I always carry a bottle of Kemp's Balsam in my grip. I take cold easily and a few doses of the Balsam always makes me a well man. Every where I go I speak a good word for Kemp. I take hold of my customers—I take old men and young men, and tell hem confidentially what I do when I ake cold. At druggists, 25c and 50c. 4

For Nearly Six Months Yet.

WASHINGTON, JAN. 21.—The hopes of those who are paying stamp taxes that they would be removed by this time by the reduction of the list, are doomed to disappointment. The slow-going Senate will amend the House bill so that it will not go into operation before July 1st, instead of on passage of the bill as the House enacted it. There would be some $8,000,000 in stamps to be redeemed if the bill became a law at once. The bank-check stamps will be retained, but the others, on express receipts, telegrams and proprietary drugs and medicines, will be removed.

Architects to Register.

NEW YORK, Jan. 21.—A convention of architects assembled today at the rooms of the Architectural League of New York to consider a proposed measure to be presented to the state legislature to require the registration of all architects with state board before they can draw plans for buildings. The architects interested desire that the bill shall be drawn, in such a measure as to prevent self-constituted architects of questionable ability from drawing plans for the erection of buildings, sometimes improperly constructed and dangerous to the public. It is proposed that all architects shall be required to register after passing an examination, but those now practicing may register without examination or payment of any fee.
