

House Work is Hard Work without GOLD DUST.

Beauty is Health.

Wanted: A woman with a clear complexion and bright eyes, who is the envy of her friends. This is the youth of the world. Beauty is health. Health is the basis of beauty. Beauty is the result of health. Health is the result of a clear complexion and bright eyes. Beauty is the result of a clear complexion and bright eyes. Beauty is the result of a clear complexion and bright eyes.

WINE OF CARDUI

It gives thousands of women health, beauty and freedom from the dragging pains which make their lives so miserable. It cures the most stubborn cases of indigestion, constipation, nervousness and falling of the hair. It restores the natural beauty of the face, brightens the eyes, and gives the complexion a clear, healthy glow. It is the only wine of its kind.

G. W. Johnson & Co's Great Sale

Call at their store and see that beauty of a 1901 Columbia Bicycle, and learn how it will be disposed of. Remember our stock is complete in every department and you make a mistake if you fail to look through our stock before you make your purchase.

SOME PROGRESSIVE SCHOOL LEGISLATION

In the operation of the revised school law, which goes into effect May 23, 1901, the introduction of progressive and kindred ideas into the management of Oregon's public schools, so far as the employment of principals and teachers is concerned, is made impossible. Subdivision 7, of section 48, of the law provides that no teacher shall be employed to teach in any public school of the state, who is related in less than a third-degree to any member of the board of directors except such selection be made by the unanimous vote of the members of the board of directors. This provision is deemed essential to the best interests of the schools and in its impartial enforcement will promote the general efficiency. Under this law, the qualifications of applicants for positions as teachers will depend more than a personal or official "pull." Par. 22 sec. 48 also provides teachers shall be dismissed "only for good cause shown," and if ordered dismissed, "the material reason" shall be spread upon record.

Trembling Nerves

Are hungry nerves—nerves that are starved until they have no vitality left. They have lost all power to regain their natural strength and steadiness. You who are restless, nervous, fidgety, depressed in spirits, worried, worn-out and sleepless, should feed your nerves. Build them up and give them new life and strength before they fall you entirely. Now is the time to do it, and the best food you can use is

"My daughter was so nervous that she trembled all the time, and she ate no food as she had no appetite. She was constantly fretting and crying, and she had been growing worse for some time when we began giving her Dr. Miles' Nervine. The first night she rested well, and five bottles made her nerves as strong and steady as they ever were."

Dr. Miles' Nervine.

It is a brain-builder and nerve-strengthening of remarkable power, and a speedy remedy for nervous troubles of every description. Buy a bottle today. Sold by all Druggists on a guarantee. Dr. Miles Medical Co., Elkhart, Ind.

A GREAT EXPOSITION

PAN-AMERICAN WILL USHER IN A NEW AND GREAT ERA. Show Will Be the First Important Public Event of the Twentieth Century—Progress in the Western Hemisphere During a Century to Be Illustrated.

The achievements of the past century have been magnificent. The march of progress has been swift, and the triumphs of civilization have been manifold. The size of enlightenment is indeed here. Making has progressed in the culture of the finer side of existence and has turned to its uses the mysterious forces of the elements in a manner undreamed of but a few centuries ago.

Yet who can forget what the Twentieth century has to unfold? Who would dare to predict what the achievements of another hundred years may be? Standing on the threshold of this era, we look into the past, and in the grand picture of progress to be presented in the beautiful buildings and

ELECTRIC TOWER, WITH BALCONY OF COURT OF FOUNTAINS.

comprehensive exhibits of the Pan-American Exposition we see a record in graphic form of what mankind has accomplished upon this hemisphere during the last century now completed. With vision sharpened we look forward with prophetic eye into the mystery of the future and get, in imagination at least, a glimpse of what the next century is to bring forth.

Can it be possible that the Twentieth century will see an advance in material and intellectual things as great relatively to that of other centuries as the nineteenth century has witnessed? It scarcely seems within the bounds of possibility, and yet who can say whether or not more wonderful discoveries and even more valuable applications of our present knowledge than the past century has given us do not await us in the one now just begun?

Washington, March 12.—The battle ship Alabama had her final trial trip off Havana today. The North Atlantic Squadron arrived to witness the event. Rear Admiral Evans, Commander Poelker and Naval Constructor Capps conducted the trial, with the assistance of other officers of the squadron. The official time has not yet been announced.

Pennsylvania Railroad. PHILADELPHIA, March 12.—The annual meeting of the stockholders of the Pennsylvania railroad opened in this city today. The stockholders will be asked to give their assent to an increase in the capital stock and other subjects of importance await consideration.

A Complimentary Dinner. BOERON, March 12.—Tonight in Fenwick Hall, a complimentary dinner will be tendered Congressman John F. Fitzgerald, whose term of office expired March 4. There will be a large attendance of representative Democrats from the city and surrounding towns.

Morgan Loans His Pictures. LONDON, March 12.—The annual exhibition at the White Chapel Art Gallery opened today will be the Morgan collection of pictures, recently shown in Paris and kindly loaned the managers by J. Pierpont Morgan, of New York.

A New Yacht Club. NEW YORK, March 12.—Members of the old Ocean Yacht Club, which was disbanded in 1898, held a meeting in this city today to complete a new organization.

It Mitchell should stand in with the ship suddenly stood the Democratic who helped elect him will never forgive the act—Albany Item.

What have these Democrats to say about it anyway? Don't they get their Portland charter bill passed?

confidence existing in the ability of the management to open the gates on May 1 upon a completed and perfectly embellished creation is justified. The financial prospects of the Exposition are all that could be desired. The advertising it has received is already bringing forth fruit, and an undoubtedly large attendance is now in certain as anything can be which belongs to the future.

Seen from the distance of three-quarters of a mile away the appearance of the grounds presents the appearance of a grand and beautiful city, and when all is complete and winter's frost has given place to the sunlight and warmth of summer the charm of the scene will be such that the impression given will last a lifetime.

UNCLE SAM'S GUNS.

His Biggest Piece at the Pan-American Exposition. Extraordinary interest will attach to the Ordnance Exhibit of the United States Government at the Pan-American Exposition, showing the modern weapons of warfare, which were used in the recent wars. It will include the best of former exhibits and will in addition have novelties never before shown. The heavy ordnance will be mounted outside the Government building. This branch of the exhibit will include the 12 inch gun, with disappearing carriage, so arranged that neither the man nor the gun is exposed except during the moment of firing, the result throwing it into its original position. Then, too, there will be shown the 16 inch seacoast rifle manufactured at the Watervliet arsenal, the most powerful piece of ordnance ever constructed in the United States, having a maximum range of 20 1/2 miles. It will be the greatest display of heavy ordnance ever made, yet this is only one of the numerous features of the Government Ordnance Exhibit for the Exposition.

Another exhibit of ordnance will be made by manufacturers, but in a different part of the grounds. It will be very large, as all the makers will naturally want to make as good a show as possible. Here a considerable number of important inventions not yet accepted by any government, but which may figure conspicuously in the possible defenses of the future, will be shown. There will be great guns and small guns and guns of all kinds and their accessories at the Pan-American Exposition. To many visitors this will be one of the most attractive features of the big show. The study of weapons with which the great powers wage war is ever an interesting one, and the many wonderful discoveries and inventions in this line during the past few years have a tendency very naturally to accentuate the interest. That the fullest opportunity to satisfy curiosity in this direction will be given at this Exposition is assured.

FOOD PRODUCTION.

Possibilities in Pan-America to Be Shown at Exposition. Foods and Their Accessories, a division having a place in the Manufactures and Liberal Arts building at the Pan-American Exposition, will show

the possibilities for food production in Pan-America. The requirements of well and climate for a great variety of foods and accessories now brought from the orient will be shown to be possessed by the countries of the Western World.

A PEACE LION.

Now that the progress buildings are completely constructed and the whole great enterprise has been thus far so successful there is no need that

the possibilities for food production in Pan-America. The requirements of well and climate for a great variety of foods and accessories now brought from the orient will be shown to be possessed by the countries of the Western World.
