AGGIE'S CAPTURE

Was Successfully Effected By Funston

AS ANNOUNCED MARCH 23

Kansas Man Probably Had His Story and His Prisoner in Hand Then

MANILA, March 28.—General Frederic Funston's daring project for the capture of Aguinaldo in his hiding place in the Province of Isabela, Island of Luzon, has proved completely successful. Aguinaldo was captured there on March 23.

Aguinaldo, who was captured by General Funston and brought to Manila on the United States gunboat Vicksburg, was taken ashore at 3:30 p. m. today and taken before General MacArthur at the Malacanang Palace. He talked freely but seemed ignorant concerning recent events. He appeared to be in good health and was even cheerful. He lunched with the officers of General MacArthur's staff and was then escorted to the Andra-Street Jail.

Washington, March 28.—The press reports of the capture of Aguinaldo by General Funston were confirmed today by General MacArthur in the following cablegram: "General Funston has just returned from an expedition to Palawan, Province of Isabela, where he captured Aguinaldo, who is now in my possession at Malacanang."

Malacanang is MacArthur's headquarters in Manila. Admiral Remy cabled the Navy department as follows: "The Vicksburg sailed March 26th when General Funston and eight other Macabebes started on an expedition to capture Aguinaldo. Returned today, Aguinaldo and three staff officers were captured and delivered to General MacArthur."

News of Aguinaldo's capture by General Funston was received everywhere in official circles with intense gratification. President McKinley naturally is much gratified that the chief mover in the insurrection has been taken. It is a remarkable tribute to the daring and resourcefulness of Funston that long before he made the attempt he was selected by the authorities here as the officer who might accomplish it. It was the intention of Funston some time ago to return to the United States, but he was detained in the Philippines in the hope that just such a contingency as did arise should give opportunity to test his prowess. The President and the war department were fully informed of the trap laid to capture the insurgent leader.

There is much speculation as to the reward which Funston may receive for his work. It is considered not improbable that he will be given a commission in the regular army. In cabinet circles Funston's exploit was referred to in laudatory terms.

Secretary Long expressed the prevailing sentiment. The capture itself was of much importance, he said, but the moral effect probably would count quite as much as the brilliancy of the exploit. He considered it a significant feature of the war.

BOTANICAL WONDERS

The marvel of the hour is the wonderful cure of chronic diseases without the use of knife or poisonous medicines. This is what afflicted humanity needs more than all else. Not a week passes but Dr. J. F. Cook, the great botanical specialist and original discoverer of the botanical cure, heals some patients who have suffered for years from awful disease and the more awful effects of rank medical humbugs. Dr. Cook is willing to give patients the benefit of his life study but declines to publish further testimonials out of regard for his patients, yet will gladly refer any callers to their neighbors and friends who have been healed. Consultation free. If you have any physical ailments it will do you good to call and have a little chat with the doctor.

GERMAN SENTRY

Kills Three Chinese on Legation Street

FRENCH INFLUENCE IS INCREASING

Russian Control of Manchuria Would not Influence Commerce at All

New York, March 28.—A dispatch to the Herald from Peking says: A German sentry has killed three Chinese in legation street but as usual in affairs of this kind, contradictory stories are told as to the incidents leading up to the conflict.

HONG KONG, March 28.—It is reported from Canton that the activity of the French is greatly increasing in the neighborhood of that city. Two steamers ply between Hong Kong and Canton, and gunboats are much in evidence on the Chinese waterways. It is also reported that two steamers are being built in France to run between Hong Kong and Canton, and that France intends to subsidize the carrying of the mails. It is also expected that a French postoffice will open in Canton about April 1. Objections have been lodged against the plying of the steam launches under the tri-color.

Chinese captains now fly the tri-color with an addition of three small stars which are invisible a short distance away and as a result it is said, the Chinese people imagine they are still under the tri-color and conclude that the French influence is gaining. It is also reported that a French hospital was opened at Shamen some months back for the purpose of receiving Chinese patients. All this aids French influence and prestige.

London, March 28.—A dispatch from Manila says that several members of Aguinaldo's staff were captured with him and brought to Manila. The insurgent leader and his men were captured near Casiguran, near Baler, in the province of Luzon.

IOLA, Kan., March 28.—Business in Iola, the home of General Funston, was practically suspended today while citizens gave vent to the enthusiasm they felt over the Kansas soldier's feat. Funston's parents live on a farm five miles from Iola.

The Province of Isabela, where the capture of Aguinaldo occurred is on the Island of Luzon, about 200 miles north-east of Manila, and about 75 miles north of Baler, on the eastern coast, which place was made memorable by the capture of Lieutenant Gilmore and his party from the gunboat Yorktown, in April, 1899. Isabela Province is wild and mountainous, especially along the coast, where the high range known as Gran Cordillera Oriental extends for 100 miles or more from north to south, the highest points of the range being but a few miles from the shore. Rugged trails, in some places being but a foot or two in width, crossed by rushing streams and where these overflow their banks, the trails are waist deep in mud. It was to this uninviting district that General Funston and his small band went a short time ago. It was a part of the island that had never before been visited by American troops.

General Funston's plan, as outlined in a dispatch from Manila a few days ago, was to make the trip over the Isabela Mountains to Aguinaldo's hiding place, accompanied by Surgeon-Major Harris, Captain Newton, of the Thirty-Fourth Infantry; Lieutenant Adams, of the Twenty-second Infantry; Lieutenant Mitchell, of the Fortieth Infantry; six veteran scouts and a company of scouts, all picked men. They were to be landed by the gunboat Vicksburg on a remote beach north of Baler, and were to proceed overland, guided by a former officer of Aguinaldo, who had been

GERMAN SENTRY

Kills Three Chinese on Legation Street

FRENCH INFLUENCE IS INCREASING

Russian Control of Manchuria Would not Influence Commerce at All

New York, March 28.—James Reid, 82 years old, known to telegraph men throughout the world as "The Grand Old Man" is dangerously ill in his home here. He was operated upon last Friday for the removal of a tumor. Soon afterward the physicians performed a second operation for the removal of a small cancer. The patient since the second ordeal has been very weak.

Mr. Reid was identified with the inventor of the telegraph Morse. He was born in Edinburgh and emigrated with his parents to Toronto when he was 16 years old. He worked in a Rochester, N. Y., bank and hearing talk of the invention of the telegraph became interested and joined fortunes with Morse. He went to Washington and afterward opened the first commercial telegraph office ever conducted in Pittsburgh.

He was United States Consul at Edinburgh under the first Cleveland Administration and also under General Harrison. He came home from Scotland last fall. Mr. Reid has for years been a figure at conventions and other places where persons interested in telegraphy have congregated.

Farmers Heavy Losers in Argentina. BUENOS AYRES, March 28.—A bulletin just issued by the Chamber of Commerce says that the foot and mouth disease and the influenza have caused more losses to Argentine farmers than has been the general belief. It is estimated that in the last year about 14,000,000 sheep perished, including almost the whole product of 1900. The loss in wool is estimated at 25,000,000 kilos. Cattle also suffered, but less than sheep.

Today's News Summarized. The body of John Alliman, a pioneer stage coach operator of the Coast, has been found in the harbor at Oakland, Cal., and it is believed he was accidentally drowned. The armored cruiser New York has not yet sailed for Tangier. The American Consul is still awaiting orders from Washington. P. G. Knox, of Pittsburgh, called on the President today. He has invited Mr. Knox to accept the office of Attorney-General. A steampship line will be established on Snake river between Lewiston and Pitsburg Landing. Benjamin Castion Hoyt, founder of St. Joseph, Mich., is dead at that place, aged 94 years. Development of the Mount Reuben mines in Southern Oregon is going forward. Crozier New York sailed today from Tangier, resuming her voyage to Manila. Russians participated in the disinterment of bodies of American Marines. The Sultan of Sulu complains that the Americans are violating the treaty. Denmark lays down conditions for the sale of the Danish West Indies. Railroads in Washington will hire Italians in place of Japanese. Archbishop Martenelli will be raised to the cardinalate April 16. St. Petersburg may be placed under martial law. The health of Herbert Spencer remains very poor. Hessian fly damage helps the wheat market.

"As to Manchuria, nobody appears to know exactly what has happened or is happening there. If China chooses to make an agreement with Russia on this matter, I don't exactly see that it is anybody else's business. But according to the papers today, it appears that China is not willing to make this arrangement, though it is a fact that nobody but China and Russia know exactly what the facts of the case are. Personally, I don't see that it will make much difference to trade. As soon as Russia settles matters in Manchuria business will go on the same as ever."

GRAND OLD MAN OF TELEGRAPHY

Will Interest Many American Heirs

ROBINSON ESTATE IN PENNSYLVANIA

To Be Divided and One Grandchild May Get Nine Millions

New York, March 28.—Walter M. Johnson, of Brookland will sail for England today to claim on behalf of a dozen American heirs, the estate of Thomas Holden, valued at \$1,000,000.

But for the discovery of the will of Thomas Holden, who died in 1809, the American claimants would be unable to establish their right to the estate. This will was lost to the Holden heirs for years. Holden left no children and two sets of relatives engaged in a bitter strife over his property. Among the effects of one of the American heirs who died a few years ago the will was found. Mr. Johnson will take with him the old will. He will have power of attorney from the various American heirs.

Thomas Holden owned valuable real estate in England and upon his death the property went to his sister, Elizabeth and her heirs. She married Stephen Broadbent. They had several children. One of the sons, William Broadbent, married Jane, daughter of John and Jane Tennant. This branch of the Broadbent family came to the United States about 1850. They acquired a tract of land covering 200 acres. A large part of this property subsequently was sold to the Garrett family. The Broadbent's prospered and brothers and sisters of William followed to this country.

There were so many deaths among the several heirs that in time, according to the statement made by Mr. Johnson, only the direct heirs of William Broadbent retained an interest in the Holden estate. The case was placed in the hands of a Baltimore attorney who received information from England recently which resulted in Mr. Johnson's plan to go there and claim the estate. If the American heirs are successful the property will be divided among Walter M. Johnson, William B. Stambaugh, Daisy Stambaugh and Anna B. Stambaugh of this city; Joseph G. Johnson, J. M. Johnson, Ella McGahan, G. V. Johnson and Ferdinand Broadbent of Baltimore; Philip G. Stambaugh of Birmingham and Lady M. Durrant and Viola E. Stambaugh of Fairmont, W. Va.

Rochester, N. Y., March 28.—Mrs. Emma Robinson, a widow with four children living in this city, has received from a Washington lawyer the information that her name appears among the
