EPISCOPAL CHURCH

To Be Organized for the Philippines

NECESSITIES FOR CHURCH WORSHIP

Captain Mahan Expresses Some Liberal Views On Church Matters

New York, March 28.—Acting upon the initiative of General Francis V. Greene, Captain Alfred T. Mahan, U. S. N. (retired), George MacCulloch Miller and others, the Church Club of New York decided last night to take immediate steps to establish a diocese of the Protestant Episcopal church of America in the Philippine Islands with a resident Bishop and duly appointed ministers.

The general sentiment was expressed that it should not be the purpose of this church to seek any proselyting in the islands. It was not the idea that the new diocese should be a missionary parish but a regularly established branch of the church that should within a very short time become self-supporting.

The president of the Church Club George MacCulloch Miller, will appoint a committee which will draw up a plan for the establishment of the new diocese and the other church clubs of the United States will be asked to cooperate in the matter. This will be the first diocese of the Protestant Episcopal Church of America to be established without the confinement of the United States proper. Discussing the proposition last night, General Greene said:

"As regards the Philippine Islands, there is no doubt now of the truth of the statement that our first obligation is to remain in those islands and govern them. To give them up to any other nation would be disgraceful cowardice. To turn them over to themselves would mean anarchy and lawlessness."

"It can be fairly said that we hope to introduce in the Philippines, Porto Rico and the other countries that have come under our control, a better government than they have ever known before. We want to teach them to enjoy freedom while respecting the rights of others. We should establish a diocese with a Bishop and duly appointed ministers. The population there now—the American population is made up of soldiers and civil officers. Such of these as want to worship now have no chance to do so in the way in which they are accustomed. The thousands of American women and children in the Philippines, in order to worship must attend the camp services conducted by the chaplains. I have seen as many as 500 soldiers at one of these services on a day when the rain was pouring down."

"It would do the natives good to see a branch of the Protestant Episcopal church established in Manila. It would do more than anything else to establish and spread American ideas there."

Captain Mahan said that the chief factor lacking in the new island possessions of the United States was an enlightened public opinion. He concluded in part as follows:

"It is the duty of our church to send out its missionaries and to establish the church in the Philippines upon a sound basis. We have no announced purpose of making converts from other forms of Christianity, but if people want to come to us we should be there to receive them. All the church bodies should go ahead. Nothing will conduce so much to the political health of these dependencies as the free exercise of public opinion with all churches, through their missionaries, having an ample chance."

"As regards political conditions we can well afford to leave them to the government which under the searching light of intelligent public opinion will do the best that can be done for the Philippines. But as regards Christianity, we find that there unfortunately exists rivalries and divisions of creeds. I do not look for any formal parcelling out of the islands among the denominations."

for purposes of missionary work, as has been suggested. I believe that in matters of opinion the fittest survive.

A HARD CITIZEN BROUGHT TO THE PEN

Sheriff F. W. Sitton, of Yamhill county, brought two charges to Salem Wednesday. G. E. Vance will serve one year in prison for larceny in a dwelling and Wilson Tolson, a ten-year old lad was placed in the state reformatory. Vance was the fellow with whom Wright, the alleged thief of the Jory mare, was incarcerated in the McMinville jail, and whom the former tried to induce to break jail with him.

AGGIE'S CAPTURE

Continued from first page

trayed to Funston the Filipino leader's abode. To deceive the enemy it was arranged that Aginaldo's representative who had given the information to the Americans should lead the native scouts, they to assume the character of insurgents still loyal to the rebel cause. They were to make it appear that they had captured General Funston and other American officers of high rank, and were taking them into the camp of the insurgent chief, to be delivered as prisoners of war. Then was to come the daring part of the plan. The pretended prisoners were to throw aside their assumed character and metamorphose themselves from prisoners to captors; seize Aginaldo, beat down any opposition that might show itself and hold their prisoners, no matter how great the peril or how large the forces of the enemy. To carry out the plan, required a long march into the interior and never-ceasing caution to guard against treachery. The troops in New Vizcaya and New Ecija and the gunboats Vicksburg and Albany were ordered to cooperate with the capturing party. The news of Aginaldo's capture indicates clearly that the plans of General Funston were carried out successfully.

DEWET'S CAPTURE

Reported in An English Newspaper

NO PEACE TERMS BUT UNCONDITIONAL

Protective Tariff Policy May Become An Issue in Great Britain

PORTSMOUTH, March 28.—The Evening News of this city publishes a statement to the effect that General Dewet has been captured.

CAPE TOWN, Mar. 28.—Commandants Critchinger, Scheepers and Van Reenan have joined forces, and the Boer commandos thousands strong are moving in direction of Orange River, via Venterstad, Cape Colony.

New York, March 28.—Lord Kitchener's dispatch, giving some further details of the battle in which General Bullington routed Delarey, has given great satisfaction, as it emphasizes the substantial nature of the British victory, says the London correspondent of the Tribune.

Messrs. Merriman and Sauer, the emissaries to the Africanerbund, who are here now a peace mission, are not receiving much encouragement and it is more than probable that they will have an opportunity to air their eloquence on behalf of Boers at the bar of the House of Commons.

Meanwhile the feeling of the nation is decidedly opposed to offering to the Boers easy peace terms a second time. The Mail which accuses the government of having nearly betrayed the em-

MARION COUNTY ROAD BUILDING

A County Engineer Employed to Supervise Them

Easier Grades for the Hills and Better Drainage for the Valleys

A new era of road construction in Oregon has dawned. Existing laws relating to construction of highways, received thorough revision at the hands of the late legislature. Systematic roadbuilding will now be done in each county under the direction of a county roadmaster to be appointed by the county court of each county. It is not expected that much of a permanent character of roads of the county will be constructed of gravel although some crushed rock may be employed. Mr. Culver estimates that in most parts of the county, roads can be surfaced with gravel at a cost not exceeding \$750 per mile. During the summer, the county court proposes to encourage the farmers in co-operative road building by giving money according to the amount of labor contributed. By getting up a subscription of labor, and under this plan, farmers of any section can accomplish some very effective road building. Next year the county court will have ample funds at its disposal for carrying on this work and only roads of a permanent character will be constructed.

On April 1st, County Clerk W. W. Hall will mail to the various road supervisors of the county the necessary blanks for the collection of the \$3 poll tax, provided in another bill which requires that such a tax be paid to the road supervisor upon demand, by every male inhabitant of the county between the ages of 21 and 50 years unless by law exempt. The tax so collected is to be expended in the district in which it is collected and the road supervisor is required to regularly file a report of his disbursements, showing the receipt and expenditure of all money. Refusal to pay the tax will be held to be a misdemeanor and the refractory citizen unless he can furnish good cause for not paying the required tax, will be subject not only to pay the tax but the cost of his arrest and his wages or earnings garnished therefor. This renders the payment of tax compulsory. The money derived from this source of taxation is expended under the direction of the road supervisor and insures the payment of the tax by every eligible person. The money realized from the tax levy is expended by order of the county court the same as are the other funds of the county.

Greenbaum's Dry Good Store

First door south of Post Office.

GON DONE to be treated in this manner? Oregon has shelled out liberal appropriations for New Orleans, Omaha, Chicago, St. Louis, Buffalo and other expositions. Oregon has fettered and fastened the various national associations from Presbyterians to editors, and yet Oregon does not get the share of immigration that is its due. It is not to talk about our wonderful resources and delightful climate when we cannot get common justice in return for fair and liberal treatment.

What shall be done? Shall we sit still and let our thumbs and take pickings and leavings of these great influences that are forming great commonwealths north of us and south of us? These great corporations would not even carry the Oregon exhibit to the Buffalo exposition at reduced rates. They don't know Oregon but they know their feet, to PLUCK AND EXHAUST AND SECURE THE VOTES OF OUR SENATORS AND CONGRESSMEN.

I throw out these remarks simply as a citizen. As a newspaper man I have to do with these corporations. They treat the people and the resources royally. But I do claim as a citizen interested in fair treatment for Oregon, that WE ARE NOT GETTING FAIR TREATMENT, that these corporations are robbing the people and the resources of Oregon and USING WHAT THEY MAKE HERE TO ADVERTISE OTHER STATES AND TO BUILD UP OTHER COMMONWEALTHS at our expense. Am I right? If right, then what follows? OREGON MUST FIGHT FOR HER RIGHTS. Quit appropriating money for expositions to advertise the west unless we get our share of immigration. Quit sending money to congress who serve the corporations. Quit relieving the corporations of taxes and unfriendly legislation, and begin to show them that while Oregon is part of God's footstool, it is not their doornail.

They are doing wonders to build up and develop Washington and California. THEY CAN DO WONDERS TO DEVELOP AND BUILD UP OREGON, if we can only get our finger on the right button, if we can only turn on the lever, get the current coming the right way. Shall we try, or shall we sit down and kick like steers or snipe like Billie bullocks in a mulhobe because we love and better than our facts?

The colds from truth is, WE ARE GETTING LEFT IN THE RACE. We are good fellows, we have a good state, but WE ARE NOT IN IT. WE ARE NOT. The corporations help those, not who help them, but those who help themselves and HELP THEMSELVES HARD BY THE USE OF THE CLUB IF NECESSARY. Let us quit our doornail attitude and do a little common sense humping for Oregon.
