## NONPAREIL

Mrs. Hooser, 317 Commercial Street.

## House Cleaning Time

Suggests Such Things as

### Carpet Sweepers and Feather Dusters

Small Things, but Very Useful and Essential...

We have just received a fresh supply of both. The dusters include Turkey feather and several grades of ostrich feather, being the most desirable for parlor and store use. We have a nice lot of carriage dusters made from the feathers of live ostriches. They last longer and give better satisfaction than any duster on the market for rough use.

The Bissel Sweeper with all the latest improvements needs no introduction.

We Close at 6:30 p. m. Except Saturday

**BUREN & HAMILTON** The Low Price House Furnishers.

## CHICAGO MILLIONAIRE WHO WAS FAITHFUL

Devoted to an Insane Wife for a Quarter Century.

Leaves Her Half His Property and Another Share to a Niece.

Chicago, April 13.—A pathetic chapter in the life of Colonel Francis E. Rigby, the pioneer real estate dealer, who died at the Grand Pacific Hotel Thursday was disclosed today when the provisions of his will was made known. It shows the enduring patience and faithfulness of Colonel Rigby to an afflicted wife through a period of nearly a quarter of century and that in his dying moments he thought of the invalid companion of his earlier years and bequeathed her half of his large estate.

Colonel Rigby married happily 25 years ago. Within a few months Mrs. Rigby developed a mental disorder that proved incurable. After taking every precaution to insure good care for his afflicted wife, Colonel Rigby took up his residence in hotels of the downtown district which was his model of life until his death.

While breakfast at the Grand Pacific Hotel the attack of heart failure which caused his death came upon him. In an unconscious condition he was removed to a private room where after application of stimulants he rallied. Calling for paper he wrote a will bequeathing one half of his property to his wife and the other half to his niece, Miss Anne Rigby Fowler who resides in Leeds, England. The value of Colonel Rigby's wealth is variously estimated from \$500,000 to \$2,000,000.

## JUDGE BOISE'S COURT IN SESSION

Judge Boise this morning decided the case of Miss E. Morelock vs. W. L. Gilbert in favor of the defendant. This was a case to correct the lease on some property in Nob Hill addition to Salem. Plaintiff claims right to three rooms, part of the parlor and woodshed. She was turned out and straightway instituted this action against defendant. John Bayne was attorney for plaintiff and Bonham & Martin represented the defendant.

The court has been busy the greater part of the day hearing the case of G. D. Trotter vs. the Town of Stayton, which was instituted last week.

Judge Boise has rendered his decision in the case of W. T. Slater, plaintiff, vs. John and David Holmes, defendants, which resulted in a contest between John and David Holmes as to whom the profits on the 1900 hop crop, amounting to \$371.60, belonged. It was tried on April 8, 1901, and Judge Boise decided in favor of David Holmes. W. Kator was the attorney for John Holmes and John H. McNary for David Holmes.

## ROBBERY AND SAFE BLOWING

Friday morning L. Abrams, the pioneer merchant at Lincoln, found that during the night the store safe had been blown open and about \$40 in silver and some valuable papers were missing. Mr. Abrams has been in business 32 years at that place and this same safe had the outside door broken off many years ago by robbers. So there was only the inner door left and the use of nitroglycerine made it easy work to demolish that. The whole inside of the safe was blown out and papers of some value destroyed. The thieves helped them selves to some canned goods and crackers.

The preceding night the store at Mc Coy was similarly entered and the safe blown open and contents rifled. Geo. Pearmaine's smokehouse is reported to have been robbed but the report has not been confirmed.

## ASSAULT AND BATTERY CASE DISPOSED OF

Justice O'Donald tried his first case since a few weeks' absence with lagrippe. It was that of the State of Oregon, plaintiff, vs. Robert McFarlane, tried before a jury comprised of T. L. Davidson, James Atkin, T. G. Albert, and T. E. Casfield. Plaintiff charged defendant with assault and battery, committed on one Charley Underwood, at Turner, on Wednesday, April 10, 1901. John H. McNary represented the state and P. H. D'Arcy was attorney for the defendant.

## REPUBLICANS ARE TIRED OF FACTIONS

Corvallis Gazette, Rept. We heard a democrat say recently: "The Oregonian will oppose and belittle both senators." Doubtless the wish was father of the thought. It is safe to say that the Oregonian will offer no factious opposition to either. It knows that both are able men. It has known Mr. Simon quite all his life and knows him to be a man of irreproachable character, of remarkable industry and more than average ability. The Oregonian surely has no personal reason for opposing Mr. Simon. If it, indeed, once opposed Mr. Mitchell on personal grounds, that is long since past and will not be renewed. Unless our senators make some very important and bad break it is altogether reasonable to believe the Oregonian will be found leading the republican press in holding up their hands.

## UNION MACHINISTS WAR ON RAILROADS

Deliver an Ultimatum to the C. & G. W. Railroad. Fighting for a Nine Hour Day in all Chicago Shops. Chicago, April 13.—The Tribune says: The first move in what is likely to be a bitter fight between the international Association of Machinists and several of the railroads entering Chicago has been made in demands by the Association on the Chicago Great Western Railroad. The demands call for a minimum scale of 25 cents an hour, shortening of the work day from 10 to nine hours, and regulating the apprentice system.

The officials of the railroad company are expected to make a reply within the next few days. If they refuse to comply with the demands of the Union, all of the 300 machinists in the employ, the majority of whom are employed in the shops at Olweiss, Ia., will, it is said, be called out.

Heretofore there has been no fixed minimum scale, it having ranged from 25 to 27 cents. The demand for a nine hour work day is in accordance with the determination of the machinists, to secure shorter working hours throughout the country and will include all shops where union men are employed. For a long time there has been much dissatisfaction with the apprentice system and it was decided at length to insist on certain changes.

While the machinists have delivered their ultimatum only to the Chicago Great Western, the same demands, it is said will be made on the big companies entering Chicago and preparations are being made quietly for making a fight to secure them.

The officials of the union have been at work for some time organizing the men in all the shops of the several roads and they declare they have met with sufficient success as to feel confident of their ability to secure an enforcement of their demands. As in the case of the Chicago Great Western, the machinists have had no written agreement with the roads and an effort will be made to secure one.

The machinists also are preparing to fight for a nine hour day in all the shops in Chicago, beginning on May 20 and while the officers of the union say they think a victory will come without serious trouble, it is generally believed that strikes will result.

This for the reason that at least three fourths of the shops are not members of the Metal Workers Association with which the union has agreements, and it is known that several shops have indicated that they would not grant a nine hours day.

PERSONAL  
Mrs. C. B. Moore came up from Oregon City today.  
Mrs. R. A. Edes returned from Portland this morning.  
W. F. Buckner, of Jefferson was in the city today on business.  
Miss Nettie Pogue of Eugene has been visiting her brother M. E. Pogue in this city.  
Mrs. T. M. Eckhart and son Will, and Mrs. Clinton Kays and children have gone to Dallas to visit their brother, Sam Savain.

SYRACUSE, N. Y., April 13.—The Globe Navigation Company will be incorporated at Trenton, N. J., to own and op-

## HAYTI AND SAN DOMINGO

Coming Into Conflict Over a Boundary Controversy.

How the Trouble Grew Out of Changing Bed of a River.

KINROSS, Jamaica, April 4.—(Correspondence of the Associated Press.) The following statement of the causes leading up to the recently developed boundary trouble between the Republics of Hayti and Santo Domingo and of the present condition of affairs, is furnished by persons just returned from the island.

The incident that has recently occurred at Philibert on the northern frontier and which greatly enlarges the friendly relations of the sister republics, is considered by the Haytiens to be premature. The Haytien posts established in that district to put down smuggling and brigandage from over the border have had to defend themselves against repeated attacks. By mutual consent the river Massacre, which divides the Dominican Province of Dajabor from Haytien territory, has for a long time been provisionally accepted by both governments as the natural boundary of the two states.

All the country on the right bank of the river was acknowledged to belong to Santo Domingo whilst the country on the left bank was regarded by both governments as Haytien territory. And hereby hangs a funny and interesting tale.

The Dominicans, a year or two ago, conceived a brilliant idea. Knowing that nature sometimes makes rivers in the tops change their courses, it occurred to some people residing on the right bank of the stream that they might add considerably to Dominican territory if they could manage to effect a deviation in the bed of the Massacre. And no sooner thought than attempted. Huge bonfires and trunk of trees were repeatedly rolled into the river. This the Haytiens say with the knowledge and connivance of the Dominican Government. But up to the date of the commencement of the present troubles all such attempts to improve upon nature proved unavailing.

For the Haytiens on the left bank discovered the little scheme and time after time removed the obstacles in the river before damage was done. However, within a couple of weeks ago a remarkable thing happened. The Haytien soldiers at Philibert, situated on Haytien territory on the left bank of the Massacre River retired to rest one night.

When they awoke next morning they looked in vain for the river. The bed over which the water had previously flowed was dry. Investigations followed and it was found that the river was flowing over a new channel some miles to the west.

Of course the Dominicans discovered not that the river had changed its bed in the course of a night but that the Haytien soldiers had transferred some substantial buildings some miles into the interior of Santo Domingo in the space of a single setting and rising of the sun.

The Dominican representatives appeared immediately upon what was Haytien territory the day before and called upon the Haytien officer to remove his position the other side of the river. The Dominican officer who made the demand expressed the indignation of his government at the contemptible action of the Haytiens.

The Haytiens, however refused to withdraw their post, calling instead on the Dominicans to restore the river to its original bed. Then the trouble commenced. There was a clash of arms. The Haytiens had the upper hand so the Dominicans agreed to have the whole matter decided by arbitration.

Meantime the Dominicans are quietly preparing for war; and there is a strong feeling in Hayti that there will be a clash of arms before the question of arbitration is settled.

The Haytien troops along the frontier have been reinforced and are now quietly awaiting the coming of the Dominicans to force them from their own territory to the opposite side of the river.

NEW TODAY.  
Advertisements under this head 5c a line each issue.  
CLAYTON F. YOUNG—Bicycle repairing 540 North Cottage street. All work guaranteed. Rims put on, \$1.50; cleaning, \$1; punctures, 25c; fork tips, pair, \$1.25. All other work in proportion. Wheels called for and delivered free. Phone Red 2556. 4 13 11

erate steam and sailing vessels, sailing from Seattle to Pacific Coast, Alaskan, Hawaiian, Australian, Japanese and Chinese ports. Capital, \$1,000,000 in all subscribed. Three 3000 ton steamships in Atlantic ports have been purchased and will sail for Seattle within ten days.

How They Treated Washington. As an example of the progress of medicine during the last century The Medical Record cites the case of Washington's last illness. He died of laryngeal diptheria, and the treatment was, it would seem, for an old man sick with a disease, very exhausting to the vitality. It consisted in the abstraction of between two and three quarts of blood, the administration of about 20 grains of calomel and 6 grains of tartar emetic and an injection, with external application of blister. And yet so strong was Washington's constitution that he survived this treatment for 24 hours.

One Contar. "Could you tell me the meaning of the word 'catarrh'?" he asked of the street car passenger who was folding up his newspaper. "Are you going to ride two or three blocks farther?" was queried in reply. "Yes, sir." "Then you'll see one. The conductor has carried that sharp nosed woman two streets past where she wanted to get off already, and she'll wake up soon and start a catarrh that'll probably jump the car off the track!"—Washington Post.

JOURNAL X-RAY. This is the Thomas Jefferson day—what little remains of him in vogue in public affairs.

McKinley could also lay the cornerstone of the new Y. M. C. A. building when he comes to Salem.

Not as many Good Samaritans will visit poor John Gates in prison now that he got into troubles on his own hook.

Portland saddlers and harness makers have struck for higher wages. Organized labor is in the saddle in that town.

Twenty thousand people will be in Salem the day that President McKinley is here and all they ask is a chance to see him and possibly hear him. Give the crowds a chance.

Some of the Portland managers of the oriental centennial of the Lewis and Clarke expedition want the whole state to get in and drill on what they are all the time treating as a kind of back yard enterprise of their own.

There isn't much to the cry that the Governor can't veto anything in an appropriation bill without defeating the whole bill. He could try striking out a line once and they would pass the bill with his amendment in fifteen minutes and they would never go home until it was right.

What Shall We Have for Dessert? This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two minutes. No boiling! No baking! Simply add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocer's today. 10 cts.

## PERUNA CURES CATARRH OF KIDNEYS EVERY TIME.

## DANGEROUS KIDNEY DISEASES CURED

Peruna Creating a National Sensation in the Cure of Chronic Ailments of the Kidneys.

Mr. John Vance, of Hartford City, Ind. says: "My kidney trouble is much better. I have improved so much that everybody wants to know what medicine I am using. I recommend Peruna to everybody and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must be great."

Mr. J. Brake, of Petros, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's Disease, which brought me so low the doctor said nothing more could be done for me. I began to take Peruna and Manna, and in three months I was a well man, and have continued so ever since."

As the appearance of the first symptom of kidney trouble, Peruna should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of

serum from the blood. Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease.

Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located. A book on catarrh, written by Dr. Hartman, will be sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

Let Me off at Buffalo! S. Friedman has accepted the invitation extended to him to visit the Exposition at Buffalo and will start right after the 4th of July. And while East will visit several manufacturers and purchase the '41 stock.

In order to do this Our fine stock of clothing now in the store will have to be sacrificed. A tremendous cut in the prices of all clothing from now until after the 4th of July. A few of the prices are here mentioned, the balance will be found inside the store.

A Suit of Clothes Worth \$15 for \$10.00  
Worth \$12.00 for 8.00  
Worth \$7.50 for 5.00  
Worth \$6.00 for 4.00  
Worth \$5.00 for 3.15

Good Pants Worth \$6.00 for \$4.00  
Worth \$4.00 for 2.25  
Worth \$2.50 for 1.85  
Worth \$1.75 for 1.20  
Worth \$1.00 for .65

Good Knee Pants Worth \$0.25 for .17  
Worth \$0.50 for .33

We supply parts for all machines, sell you the best needles at 25c a dozen. Finest Sperry genuine sewing machine oil as well as bicycle oils of all sorts.

## Cyclodial Sprockets,

The secret of Cyclodial sprockets is entirely in the peculiar curves given to the teeth, and the perfection with which they are cut. Any good mechanic knows that gear wheel with teeth improperly shaped will not drive machinery correctly, and that the greatest care and most scientific researches have been expended in perfecting the form of gear wheel teeth. Does it not stand to reason therefore, that the same care should be used in forming a tooth intended to operate with a chain, particularly when it will be subjected to a greater strain than would be required of a gear under almost any other circumstances? It is, nevertheless, a fact that on nine-tenths of the bicycles made today the sprocket teeth are made without correct mechanical shape; in fact nothing more than projections to keep the chain from slipping around the sprocket. Some are made in the shape of a V, and are so pointed that they form a regular inclined plane, on which the chain blocks climb whenever power is applied. The Tribune people after much careful experimenting produced and patented the sprocket with teeth made with a cyclodial curve, which in mechanics is the curve made by a fixed point, say on the periphery of a circle when rolled along on a plane surface.

TRIBUNES are famous for their cyclodial sprockets—perfect bearings—and easy running qualities. Our sales are way ahead of any previous record up to date.
