### Does it Pay

To get your coffee, tea, etc. at a tea store?

We say first, YES; second, the goods will speak for themselves to fill our guarantee.

No one can equal our Willamette blend, 3 lbs for 50 cents. You will save 10 cents on the 3 lbs. and the question is will it be as fresh as ours?

We roast twice a week.

Our 15 cent coffee will take the place of the package coffee; what does that mean?

Try the goods and be convinced.

#### PROMISE.

Once more of June a promise fair is waited to the balm air;  
The whippersnapper on every breeze  
That wafts the verdure tinted trees.

The skies are blue; the roses blush,  
Their sighs perfume the noontide hush,  
Then nature shows her bounties sweet,  
And life is happiness complete.

And yet we know that June may parch  
The thirsting earth, while from the arch  
Above us, through the weary days,  
The sun still speeds relentless rays.

But we dream on of trust and bliss,  
The day to come o'er shadows this,  
Life's joys which touch the heart most deep  
Are promises life cannot keep.

#### Society Women in Business.

The right of a society woman to enter into business in competition against women who have to earn their living is indisputable. The fact that a girl is born rich and is a member by right of a select social circle does not deprive her of the right to make the most of her opportunities. But there are certain considerations that have hitherto inclined rich women to leave to their less fortunate sisters the gainful occupations. If the rich woman does not happen to be fond of society, a thousand avenues of diversion are open to her which are closed to the women who has to make her own way in the world.

The two wealthy New York women who are about to engage in trade will draw customers from their less distinguished rivals in business. This fact does not affect their legal right to engage in trade, but it will affect the public judgment upon their exercise of their right. It is not probable that the example these two rich women have set will be extensively followed. While rich women may invest a part of their money in modest establishments, they will soon grow weary of the details of business. The disinclination of women to acquaint themselves with the details of housekeeping to an extent which enables them to intelligently superintend their own households does not hold out much promise that the fortunate few who do not need to work will ever become a preponderant in any occupation as to seriously in need the prosperity of women whom dire necessity has driven to laborious occupations.

#### One Solitary Woman.

A woman has been arrested in Denver on a charge of fraudulent voting. The despatches say it is the first case on record. Women have been voting in Colorado for eight years in Kansas for fourteen, in Idaho and Utah for five, and in Wyoming for twenty-one. If during this time only one woman has been charged with fraudulent voting, it is a pretty good record.

A great many men in Denver are

charged with having voted fraudulently at the same election; 201 men are under indictment for election frauds in St. Louis alone; while at a recent election in Philadelphia the number of fraudulent votes cast, is said to have mounted up into the thousands. There is hardly a large city in which more or less illegal voting does not go on. This is not regarded by anyone as a proof of the unfitness of all men to vote; but no sooner is one solitary woman charged with illegal voting than the fact is telegraphed from one end of the country to another, and quoted seriously as a reason why all women should be debarred from the ballot box.

Secretary of the Navy Long says he has never yet heard an argument against woman suffrage that was not an insult to the intelligence of a ten year-old boy. Certainly this particular objection would come under that head.

#### ORDER OF BUFFALOES INSTITUTED AT SALEM

The members of St. Joseph's society gave a "Buffalo" social at their Chenequa street hall Tuesday evening, that partook of the Buffalo order in every detail. Eleven-tenants was the requisite for admission and the conviviality of Buffalo fellowship was further pronounced within the hall, where initiation ceremonies were conducted and several candidates were acquainted with the mysteries of the popular fraternal organization. Fred Fontaine was the master of ceremonies and was largely responsible for the ridiculous initiation exercises and the ludicrous program that was carried out for the evening. When the initiation of all eligible candidates had been concluded, the company resolved itself into an informal gathering and passed the remainder of the evening in a delightful social way. When the event terminated, the participants disbanded with eager expectations for an early convocation of the festive Buffaloes.

#### THE NEW BROOM SWEEP CLEAN.

A large lot of new brooms just received from the largest factory in the country. A first-class broom, cheapest in the city, quality combined.—BRANSON & RAGAN.

#### Timid Woman, Callous Brute.

There is an F street real estate man whose pretty home is in one of the pleasantest streets in the older part of town. He is just an ordinary man, with no particular sympathy for the fears of nervous women; he has been married 15 years, and his wife is one of those women who fairly revel in all sorts of painful imaginings and frightful forebodings. She always makes her will when she starts on a journey, and she never fails to forgive all her enemies before she trusts herself behind any kind of a horse. There has not been a night in all the 15 years of her married life that she hasn't either smelled smoke or heard burglars. Last week, in the middle of one night, the husband felt the familiar pinch which for 15 years has caloused his arm. He heard the familiar voice say the same old words:  
"Oh, Charles! Do get up! I smell smoke!"

As usual, for after 15 years of that sort of thing even an ordinary man learns not to argue with a woman, he climbed obediently out of bed and went to the window. The street below was full of people, and a fire engine was putting away at the corner.  
"Oh, Charles!" called the wife, "is the house on fire?"  
Fifteen years have made Charles' feelings as callous as his arm.  
"Yes," said he brutally, "thank goodness the house is on fire at last. Now perhaps you'll stop worrying."—Washington Post.

### HOLE IN THE LUNGS

There are thousands of men and women, as well as ever with holes in their lungs; consumption stopped.

Consumption stopped is consumption cured. What does it?

Some change in the way of life and Scott's emulsion of cod-liver oil.

With the emulsion, give some attention to circumstances: change from a dark damp close room to a sunny dry airy one; from city to country; from hard to an easy life; indoors to out.

A hole in the lungs once healed is no worse than a too-tight waist or waistcoat.

Take the emulsion, and give it a chance to heal the wound.

Well send you a little to try, if you like. **SCOTT & BOWNE**, 409 Pearl Street, New York City.

### SALEM CREAMERY RESUMES THURSDAY

The Salem Creamery will resume operations on Thursday with increased facilities for better making. The company's old plant has been replaced by new and improved machinery of greater capacity. The plant now includes a 500 gallon churn and butter worker combined which in its operation requires but one man while the work under the old system employed two men. The plant has a daily capacity of 1000 pounds and the indications are that most of it will be employed. Mr. Goodhue, the manager, says there will be fifty per cent more cream available for his creamery during the summer of 1901 than there was for the corresponding season last year and he predicts that the supply of cream for next fall and winter will be double that furnished for the same period last year. He accounts for this in the increased interest manifested by farmers generally and the great development of the dairy industry in the section of the valley. He says the past year's experience has convinced farmers that the dairy business is a profitable department of diversified agriculture and it is being more largely followed this year.

### A Very Remarkable Remedy.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady acquaintance, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore, and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I really believe the dose in fifteen minutes he felt as well as ever.'" Sold by F. G. Haas, Druggist.

### CHEESES OF ALL NATIONS ARE MADE AT SALEM

Cheese-making is an important factor in the dairy industry of any community and this is particularly true of the Willamette Valley. Butter and cheese are in a sense, twin products and the record being made by the Salem Cheese Factory, which is located just east of Salem, confirms the foregoing statement. The institution is owned and operated by F. A. Schubinger and it is attracting attention by the fact of its large output. Mr. Schubinger daily converts 1000 pounds of milk into cheese, in the making of which he has established a reputation. His brick and Hamburg cheese are not surpassed and he finds a ready market for his product in the Salem and Portland markets. A metropolitan dealer recently solicited Mr. Schubinger's entire output, but he declined the offer, preferring to give his cheese a better distribution by retailing the same to individual merchants.
