200 People by the Hair!

An average, healthy hair will support a quarter of a pound. There are 12,000 of these on the head. They all together would support 30,000 pounds. They are equivalent to an audience of 200 people, weighing 150 pounds each! It's mathematically true that an average head of hair will support an entire audience of 200 people. It doesn’t seem possible, but it’s so.

It doesn’t seem possible, either, that Ayer’s Hair Vigor restores color to gray hair. But it does restore it, and every time, too—almost all the dark, rich color the hair had years ago. It stops falling of the hair also, and keeps the scalp healthy and free from dandruff.

I hope you have this vigor for this year and I shall stick there in anything we do for a true hair dressing. I am never without it.”
