

THE BLOOD HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetters—in fact the majority of human ailments—are caused by poisons or humors that are engendered and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are the **Blood is the Source of All Strength** naturally grow thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders and any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pain, require a tonic and blood purifier such as S. S. S., which not only antiseptically neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the nutritive blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from an expert and educated doctor. Write to THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

A Strong Woman

Iowa City, Iowa, Aug. 15, 1909.
My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the harvest. She attended to all her household duties and looked and smiled all the while. This medicine gave her strength. Formerly she was weak and thin and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when she was young. **JOB A. RICHENHAFER.**

Mrs. Eisenhater had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took **WINE OF CARDUI**.

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not as injurious to a woman's health as labor in stores, factories and offices where thousands of girls are employed year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains and strong naturally, Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. Theodor's Black-Draught puts the bowels, stomach, liver, kidneys and blood in proper shape. Greatly increased strength and endurance is the natural result. Most cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Theodor's Black-Draught.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

RIDE ALL THE TIME

If you put a pair of **GOODYEAR PUNCTURE-PROOF TIRES** on your bicycle. They may cost you something but by a year from now you will be money ahead, for you will have no repair bills to pay. Then besides they ride so different from the cheap tires—a feather bed compared to a board floor.

They are made by the makers of wonderful rubber goods **The Goodyear Tire & Rubber Co., Akron, O., Snell Yale Cycle Co., Distributors Portland, Or.**

Here's Our... \$10 Burrab!

We think, we BELIEVE, we KNOW that we have the **Best Ten Dollar Suit**

On the market. These suits would easily pass for \$30 suits. But we were bound to have the best ten dollar suit to be had anywhere and we've got them! All new and late cut. Patterns neat and handsome. You will be surprised when you see them. Come in.

OBSERVED BY THE G. A. R. ORGANIZATIONS

Continued from Fourth Page.

street cars and the red, white and blue was worn on every side.

At Dalrymple's store the decorations were quite neat and artistic and across the street at Holmstrom's a pretty memorial window was arranged with a monument erected to our dead heroes. The monument was draped with the flag and a flag was in the background. The trees in the corner and floor covered with turf gave a pretty effect and arms stacked on either side.

Joe. Mayers and sons in the McCracken building had the most elaborate decorations, the outside of the building being almost covered with banners floating from the second and third story windows

PROGRESS MADE IN MALHEUR COUNTY

New National Bank About to be Organized.

Large Sale of Beef Cattle for Eastern Ranges.

Wells of Hot Water That Are to be Piped into the Town.

BARRE CITY, May 31.—A National bank, with capital stock of \$40,000 is being organized in Vale, Malheur county. This town is the commercial center of the county, and has a population of 300. During the past two years it has grown rapidly, and the business interest of the place demand banking facilities nearer than Caldwell, where such has previously been done. Stockholders of the bank will not all be residents of Vale and adjacent country, as some of the capital will be subscribed in Baker City. M. G. Hopp, one of the leading business men of Vale was in Baker today making arrangements to establish the bank. He said that it was an assured fact, although further particulars could not be given, that it was present, within the next sixty days Mr. Hopp said the bank would be ready for business.

A large sale of beef will be consummated in Malheur county June 10. That is the date fixed for the delivery to one single eastern firm of between 10,000 and 12,000 head of yearlings and two year olds. All of this stock is intended for the Eastern market, and will not be driven to the Montana or Wyoming range for fattening. It is in condition at the present time, immediately after passing through the winter. Yearlings are purchased by these buyers for \$20, and two-year olds, \$27. This price is one dollar cheaper than the same stock sold for at the same period last year. The sale will clean up most of the surplus beef in that section of the county, and will leave but few from the immediate district for the fall market. Buyers are quite active in Malheur and Harney counties, and offer tempting prices.

Recently a remarkable stream of hot water was struck within one half mile of Vale, in Malheur county. A stream three and one half inches in diameter was struck a year ago, which spouted 30 feet above the surface. Desiring a flow at an elevation up the hill from which hot water could be piped to the town of Vale, the owner of the property bore further up. They now have two wells on the hill side, each three and one half inches in diameter, and each throwing a stream 30 feet above the surface. This water is 212 degrees Fahrenheit. It is the purpose of the owners to pipe the water to the town and there use it for a water main and for heating dwellings. By conducting the water underground for the distance of a half mile, it is believed that it will cool but little, and during the winter will be very valuable, its hot water will be in demand for the fuel problem for heating purposes has been solved. Arrangements are now being made for construction of the pipe line.

The Postmaster at the Zoo.

The lawyer who evidently considers life one huge, continuous joke entered the clerk's office at the city hall with an expression of extreme reluctance over spreading his business in the office at the time he had just several pur suits. Experience had taught them that the forefaded lawyer would say something of an entertaining character.

"Gather round, boys," he said. "I have a dandy for you this morning." The speaker paused. The others silently waited for what was coming.

"Now listen carefully," resumed the lawyer, "and note the beauty of the connection between the three sections of this little conundrum. Here it is: 'If the postmaster should visit the zoo and while there be taken by the wild animals, what o'clock would it be?'"

There was another pause. Finally the clerk in charge of the dockets ventured the answer, "It would be all day with the postmaster."

"Wrong, entirely wrong," commented the lawyer. "I didn't ask what time I asked what o'clock would it be."

A third pause. Then by general consent the answer was requested. The lawyer again announced, "At 6 p. m."

Before the gathering had recovered the lawyer had slipped from the room and was headed for the court 36 appeals to try the postmaster suit will animals consumed on the higher tribunal.—Washington Star.

To Cure a Cold in One Day

Take **Exhaustive Broom Quinine Tablets**. All druggists refund the money if it fails to cure W. Grove's signature is on each box.

A Lay Suggestion.

On the last night of a series of "protracted meetings" in the Methodist church of a little southern California village the visiting evangelist was making a special effort to obtain a showing of anxious souls. He had preached his best sermon and reached an emotional fervor that he had seldom equaled. But nobody responded to his invitation. They sang a hymn, and then the evangelist rose again and called upon the congregation to "enlist for the service of the Lord."

The evangelist, a wooden legged veteran who had dropped into the back seat watched the proceedings with interest. For the third time the perspiring evangelist rose and asked, "Is there no one willing to enlist in the Lord's army?"

Then response came from the back seat. "Draft 'em, parson; hang 'em, draft 'em!"

WHY THE BOILER BURSTS.

Scientific Explanation of Some Phenomena of the Kitchen.

When you hear the kitchen boiler cracking, there is no cause for alarm. There is a prevailing impression that the cracking is produced by steam and that there is therefore an increased pressure on the boiler at such times. But this is an error. If the boiler is in good condition, with the water turned on as usual so that the boiler is kept filled, the only pressure that it is subjected to is the same as that in the water pipes, from which of course there is no escape into the air. And this is true no matter how hot the water in the boiler may be.

The reason is very simple. As long as the boiler is kept full of water there is no room for steam. If you open the hot water cock, the water pours out and a vacuum rises from it, because it then has nothing but air to escape into the air. In other words, evaporation takes place. But as the hot water pours out water from the pipes rushes in to take its place, and thus the boiler is kept full.

The cracking noise referred to is heard when the water is unusually hot and is nothing but the expansion of the boiler under the influence of that heat. It is in no degree an indication of danger unless indeed the boiler is worn out or defective, which is a matter entirely outside of what we are now considering.

When a kitchen boiler explodes, it is generally because a fire has been kindled in the boiler, and the boiler is empty. It happens sometimes when people come back to town after spending the summer away. The fire heats the boiler, of course, and when the water is turned on it is converted suddenly and violently into steam, and the boiler cannot stand the enormous pressure. Fortunately few persons are so thoughtless enough or silly enough to build a fire before opening the cocks connecting the boiler with the water pipes.—Chicago Chronicle.

Try Grain-O! Try Grain-O!

Ask your Grocer today to show you a package of GRAIN-O. The new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich, nutty brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 3/4 the price of coffee. 15c. and 25c. per package. Sold by all grocers.
