Going to Alaska This Summer

If not you had better invest in one of our

Automatic Refrigerators

REMEMBER

The automatic is the only refrigerator built upon clearly scientific principals. They use less ice and take less cleaning than any refrigerator now on the market.

With it you can have a young Alaska right in your home. To be sure there would be no glaciers or dog sledges, but think of the deliciously cold butter, milk and many other things which only keep well in a refrigerator.

EXTRA SESSION OF CONGRESS POSSIBLE

As Result of Decisions in the Insular Possessions Cases.

WASHINGTON MAY BECOME A GIGANTIC POLITICAL SUMMER RESORT

Republican Leader of Illinois Does Not Regard the Philippines as Being Identical With the Case of Porto Rico That Has Been Decided.

New York, June 3.—A special to the Herald from Washington says: Officials of the Administration for the first time since the announcement of the decisions of the Supreme Court in the insular cases, admit that there is a possibility of an extra session of Congress in July.

If Attorney-General Knox after a careful review of the decisions, concludes that the President will not have power under the Spooner amendment to the army appropriation bill to impose duties on goods going into the Philippines, from the United States, or coming into the United States from the Philippines, the President will seriously consider the advisability of issuing an immediate call for an extra session of Congress. This statement is made on the authority of a member of the Cabinet.

Attorney-General Knox and Secretary of War Root have spent considerable time discussing the legal points involved. Mr. Knox is working hard on his opinion in order to have it ready for the Cabinet meeting on Tuesday. This meeting is expected to be of very great importance.

A call for an extra session would play havoc with the summer plans of Senators and Representatives. They have scattered to the four corners of the earth. Several including Senator Bacon of Georgia are about to start for the Philippines. Representative Cooper of Wisconsin, chairman of the insular committee of the House and Representative Tawney of Minnesota, a member of that committee expect to go later in the summer. Several including Senator Beveridge are in Europe. Mr. Henderson of Iowa, Speaker of the last House is on his way to Europe and many more are arranging to go.

He Has Saved My Life

State of Oregon }
County of Marion }
To whom these presents shall come (testimony):
This is to certify that I have been afflicted with Ovarian Tumors for a number of years, also liver trouble. I desire to publicly state and thank that Dr. J. F. Cook of Salem, Oregon, has removed said tumors, two in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and as I believe permanently cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was. I feel that he has saved my life. My home is three miles south of Turner, Oregon.

Mrs. CAROLINE ROTZOLL.
Subscribed and sworn to before me this first day of May, 1901.
W. W. HALL,
County Clerk.

Do Not Listen to "Cappers"

Who are hired to defame me and my methods of treatment. If I could not cure people there would be no use to fight me. It is because I do cure people that I am persistently misrepresented, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful.

Send for Circulars containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians.

The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This gives him confidence.

All Talk

That's about all there is to the scores of cough medicines you see advertised. They talk and talk and keep on talking. They haven't any record back of them, no cures to report, nothing to rely upon. When you see the words, "Ayer's Cherry Pectoral," you see the medicine you took when a child, something your parents and grandparents used. There's a record of sixty years of cures back of it.

For asthma, croup, whooping-cough, huskiness, hard colds, and coughs of every kind it is the standard remedy the world over.

"All one winter I could not speak above a whisper because of a severe throat and lung trouble. Every thing was done for me that could be done, but without relief. I then began to use Ayer's Cherry Pectoral. It relieved me at once and soon I was completely cured."—Mrs. W. J. Ball, Festus, Mo.

Three sizes: 25c, 50c, \$1.00. All druggists.

To keep on hand you will like the \$1.00 size best, and you will need this amount to cure a chronic or very severe case. The 50c size is just about right for bronchitis, hoarseness, la grippe, croup, etc. The 25c size is convenient when traveling, and is enough to break up a fresh cold.
