## STATE SCHOOL LAND OFFICIALS SUED

### Attorney General Blackburn Begins Actions to Recover Davis Defalcation.

#### SUITS AGAINST PENNOYER, METSCHAN AND EX-SECRETARY MCBRIDE

All Questions to Be Raised on Demurrers and Courts to Be Forced to Give a Square Decision on the Merits—Suits May Be Brought Against Second Board for Part of Deficit.

Attorney General Blackburn has begun suits to recover from the members of the State School Land Board and the bondsmen the full amount of the Geo. W. Davis Defalcation. He has drawn the complaints to raise the entire issue on demurrer and his papers read in plain English: "Let no guilty man escape."

Attorney-General Blackburn today filed complaints in suits of the State of Oregon against ex-State Treasurer Metschan, ex-Governor Pennoyer and ex-Secretary of State McBride, jointly and severally, as members of the State School Land Board, for the full amount of the Geo. W. Davis defalcation of \$50,952.08. Suits will also be filed in the name of the state against Geo. G. Bingham and E. P. McCormack as bondsmen of Geo. W. Davis in the sum of \$50,000.

The suits against the ex-state officials will be begun in Multnomah county through District-Attorney Chamberlain, and the suits against the bondsmen will be begun in Marion county through District-Attorney Hart.

About \$12,000 of this deficit was collected under the Pennoyer administration by Davis but he did not turn the money over until during the Lord administration. When the pleadings are submitted to the trial court, it is the opinion of the Attorney-General that the Pennoyer administration will be relieved of this amount of the shortage and it will then become charged as defalcation under the Lord administration. In that event suits will be brought for that amount against ex-Governor Lord and ex-Secretary of State Kincaid.

**Theory of the Suit.**  
Attorney General Blackburn has concentrated his talents upon these cases in order to draw up the complaints in such a manner that the whole question of liability may be determined if possible upon demurrer. It is his intention thus to secure a square decision upon the merits of the matter as free as possible from all quibbles and technicalities. The state law department has aimed to leave as little room as possible for any guilty man to escape, as he has estimated over \$100,000 will change hands as result of the race. Off Ashtabula Harbor about 16 miles from starting point the City of Erie led by about a length and a half.

### He Has Saved My Life

State of Oregon vs. Salem, Ore., May 1, 1900. County of Marion. To whom these presents shall come greeting. This is to certify that I have been afflicted with Ovarian Tumors for a number of years, also liver trouble. I desire to publicly state upon oath that Dr. J. F. Cook of Salem, Oregon, has removed said tumors, two in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and as I believe permanently, cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was, and feel that he has saved my life. My home is three miles south of Turner, Oregon.

MRS. CAROLINE ROTZOLL.  
Subscribed and sworn to before me this first day of May, 1901.  
Notarially attested. W. W. HALL, County Clerk.

Who are tired of disease and my methods of treatment. If I could not cure people there would be no use in my life. It is because I do cure people that I am persistently misapprehended, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful.

Iced for Cerebral Scintillating Testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians.

The doctor has derived the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This gives him confidence.

### BULLET LODGED IN HIS BRAIN

Yet he Remains Conscious and can Walk About.

ALBANY, June 4.—Sunday afternoon Nathan Sumpter, of Berry, accidentally shot himself in the head with a 32 Winchester rifle, the ball entering at the side of the nose and passing through the brain. Sumpter was out hunting with several of his companions and stood his rifle by a log while he sat down to rest. In getting over the log he pulled the gun after him and the hammer caught on the log and the gun was discharged, the ball entering at the right side of the nose and went through head lodging in the back part under the skull. He was carried three miles to Berry and morning was brought to Albany on the train. Surgeons dressed the wound and removed a considerable quantity of brain matter. Sumpter was conscious during the operation, and can walk with assistance.

### Idaho Fair Offers Prizes

Special to the Journal.

BOISE, June 4.—Eighteen thousand dollars in prizes and premiums will be given by the Idaho State Fair Association year. The Merchants' Purse of \$1000, will be hung for the second day. This will be a mile-heat race, three in five, for trotters of 2:30 class. The Capital City purse, running mile and a quarter for 4-years olds occurs on the last day for a prize of \$1000. The fair opens September 16, continuing six days. Last year over \$45,000 passed through the pool boxes and the gate receipts amounted to \$18,000. All pool selling is under the control of the Association. The fall meeting will be the heaviest racing program of the Northwest and is attracting widespread attention among stockmen and owners of racing strings.

Secretary Loveland states that there is an incessant demand for pure blooded short horn cattle throughout this section and invites outsiders to exhibit and hold stock sales during the fair.

### THE POPE'S ROOMS INVADED

By a Lunatic Who Was Promptly Arrested and Sent to an Asylum for the Insane—How He Penetrated the Apartments of the Vatican Remains a Mystery.

New York, June 4.—A dispatch to the Journal and Advertiser from Rome says: While the Pope was at work in his private room, a maniac made his way to the ante room and shouted, "the Pope is dead. I am his successor; give me the crown."

The noble guards on duty seized the intruder and prevented him from penetrating the Pope's chamber. But the holy father had heard the shout. He ordered that the man be arrested. He turned out to be Valentino Paterno, a religious fanatic. He was taken to a lunatic asylum.

How he passed the gate keepers, guards and ushers all the way from the outer gate of the vatican to the very door of the Pope's room is a mystery as yet unexplained.

## NO EXTRA SESSION OF CONGRESS

### Will Be Called By President McKinley to Deal With the Philippines.

#### ALL CONCESSIONS GRANTED BY CHINA TO THE EUROPEAN POWERS

Will Redound to the Benefit of the United States By the Operations of the Most Favored Nation Clause—How the War Indemnity Bonds Will Be Disposed Of.

New York, June 4.—A special to the Herald from Washington says: President McKinley will not call an extra session of Congress if he can avoid doing so by avoiding the establishment of the civil government in the Philippines.

The question of whether an extra session will be called was decided at the meeting of the Cabinet today (Tuesday) though it may be postponed to allow additional time for Attorney-General Knox and Secretary of War Root to consider the divergent opinions of the judges of the Supreme court.

The Attorney General and the Secretary of War have had several conferences and although the Attorney General would not indicate what conclusions they would probably reach, he said their views thus far were in complete harmony and reports that there has been any disagreement between them were absurd. Secretary Root said the same.

Members of the Administration all agree that the postponement of the establishment of a civil government in the Philippines is to avoid it if possible to do so. Institution of civil government would materially change the situation and the Administration wishes to avoid any interim during which it would be impossible to collect duties on goods coming from the Philippines for the support of the island government.

The Attorney General and Secretary of War are carefully considering whether the Spooner amendment does not authorize the collection of duties on imports from the Philippines to the United States for the benefit of the treasury of the Philippines, just as duties on imports from Porto Rico are now collected for the benefit of the treasury of Porto Rico.

If this cannot be done, they may decide that the amendment permits the imposition of an expert tax on goods shipped from the Philippines to the United States, that tax to be collected either at the port of departure in the Philippines or at the port of arrival in the United States and the proceed to be paid into the insular treasury.

It can be authoritatively stated that Dingley rates upon goods from Philippines entering United States will remain in force. President will put into effect such changes in tariff duties on goods going into Philippines as Taft commission may recommend. Establishment of civil government can proceed without interruption as soon as military authorities consider time ripe for its establishment.

Concessions granted by China to other nations in treaties to be negotiated as the concluding chapter of the Chinese crises will be enjoyed by the United States under the "most favored clause" to be inserted in the convention this government will present for signature.

It will immediately upon the settlement of the indemnity question consider the nature of treaties. It is practically certain that the powers will not be willing to negotiate a single treaty with China, though identical treaties may be drawn up. Officials of the Administration believe that the powers will prefer to negotiate separate treaties. If this is done, different concessions will be demanded.

This government proposes to demand reasonable safeguards for American interests but in order to insure that the

United States may not suffer in consequence of advantages obtained by other governments, a clause will be inserted providing that any concessions granted to other nations will be enjoyed by the United States.

It is the impression of Administration officials that the Ministers in Peking will be ordered by their government to accept the British proposal regarding the method to be pursued in the settlement of the indemnity demand. The British proposed an issue of bonds at four per cent interest, each power to dispose as it saw fit of the bonds it received in payment of its share of the in-

## BEEF ON THE HOOF ADVANCING

Burdens of the Retail Market Thrown on the Poorest Class of Consumers in Large Cities.

CHICAGO, June 4.—Beef on the hoof, as stockmen say, has been advancing in price for the last two weeks, until the retail butchers of Chicago have found it necessary to raise their prices to customers, just as the butchers have done in New York.

The usual feature of the advance is that it affected only the cheaper grades of meat and thus places the burden on the people who cannot afford sirloins and porterhouse at 18 and 20 cents a pound.

The advance on what is known as "cheap stock," such as loins, ribs, and chucks, is two and a half cents a pound as compared with the prices a month ago.

Beef carcasses have gone up nearly \$1 a 100 pounds in the last two weeks, said a representative of Armour & Company, but this is nothing unusual. Cattle are always higher at this season of the year. The advance will not continue long and it has reached the top mark already.
