

What S. S. S. Does for Children

Children are constantly exposed to all sorts of diseases. The air they breathe is filled with germs, sewer gas and dust from the filthy streets are inhaled into the lungs and taken into the blood. At the crowded school rooms and other public places they come in contact almost daily with others recovering from or in the first stages of contagious diseases. You can't quarantine against the balance of the world, and the best you can do is to keep their blood in good condition, and thus prevent or at least mitigate the disease. You have perhaps learned from observation or experience that healthy, robust children (and this means, of course, children whose blood is pure) are not nearly so liable to contract diseases peculiar to them, and when they do it is generally in a mild form. On the other hand, weak, emaciated and sickly ones seem to catch every disease that comes along. This is because their blood is lacking in all the elements necessary to sustain and build up the body. Poisons of every description accumulate in the system, because the polluted and sluggish blood is unable to perform its proper functions.

Such children need a blood purifier and tonic to give strength and vitality to their blood, and S. S. S., being a purely vegetable remedy, makes it the safest and best for the delicate constitutions of children. S. S. S. is not only a perfect blood medicine, but is pre-eminently the tonic for children; it increases their appetites and strengthens the digestion and assimilation of food. If your children have any hereditary or acquired taint in their blood, give them S. S. S. and write to our physicians for any information or advice wanted; this will cost you nothing, and will start the little walkings on the road to recovery. Book on Blood and Skin Diseases free.

STRAWBERRY FAIR A SUCCESS

Grand Display of Choicest Fruit Gives Salem a Reputation.

Home Market, Shipping Berries and Canning Varieties Fully Represented.

The strawberry fair conducted at Salem Saturday under the Press Club was a great success. The exhibits of berries and plants with fruit were complete in each department. There was a large attendance of growers and the new varieties were closely studied and the result will be that hundreds of acres of new fields will be put out this fall. Salem will become the berry shipping and canning center of the Willamette valley. The exhibitors who showed new varieties deserve greatest praise. It is easy to get plants and grow berries after a variety has been discovered and tested in these various valley soils. But the grower who carries on the tests does so at a loss in cash and time that few persons are aware of, as not over one out of fifty advertised ever amounts to anything for field culture.

HERPICIDE
A Luxurious Growth of Hair.
The chief ailment of beauty is now placed within the reach of everyone by means of Newbro's Herpicide, a scientific discovery that effectively destroys the microbes responsible for all scalp diseases. It not only makes dandruff and falling hair things of the past, but invigorates the hair roots, causing a soft, thick growth to supplant the old thin and brittle one. Here is what one happy woman says:
"Pittsburg, Mo., Nov. 26, '06. My hair was coming out very rapidly, and my scalp was extremely itchy and chafing. I was using the hair restorer, Herpicide to me, and after three or four applications my hair stopped falling, and I am now growing again quite thick. I need to be provisionally satisfied with what I have done. You see I have come to prize Newbro's Herpicide as one of the best I have discovered."

When a Man Marries

He wants the best clothes his circumstances allow. For one time he is the target of all eyes, and it makes him comfortable to know his clothes were bought for him. This is why we outfit the majority of well-to-do men in the neighborhood. Men come to us because they know we know what they need, and they can leave every detail of their wants to us. They allow us to select everything—except their wives (we positively will not take this responsibility). Different men have different needs, and require different kinds of garments, but we do our work well in all cases. Remember us when getting ready for the momentous occasion.

THE JOURNAL AND ITS PUBLIC ENEMIES

The people sometimes love a newspaper for the enemies it makes. Geo. W. Davis and Geo. G. Bingham when they began a suit to have Davis made receiver of THE CAPITAL JOURNAL and for a \$50,000 accounting evidently had \$50,000 shortage on the brain. They were unable to prove their claim against Hofer Bros., but the claim of the State against Davis and his bondsmen, Bingham, is proven and not settled. Bingham and Davis failed to prove a single one of their allegations against THE JOURNAL, but every material allegation of THE JOURNAL against them has been proven by a Republican legislative investigating committee and Republican officials.

While no one expects that the State can recover a dollar of the money stolen from the state school funds, or any of their graft on the various departments of government, still the time has come for the people to realize that corruptionists in general do nothing so much as the exposure of independent journalists. These gentlemen lost their suit for a receivership and accounting of the affairs of THE CAPITAL JOURNAL but they have succeeded their litigation over THE JOURNAL's head by asking for a rehearing in the supreme court.

The public will excuse THE JOURNAL for this reference to its enemies. When laws, legislative committees and officials do not enable the people to protect or recover their public funds, the voice of a free press can alone speak for justice and put the blame for delinquencies where it belongs. The press is not superior to other institutions but there come times in the progress of the state and the development of self-government by the people when the press alone seems capable of giving a final verdict or yielding any satisfaction to the public.

STABBER LERWELL CAPTURED

Special to the Journal.
ROSEMOUNT, June 17.—Constable Henkin and deputies went to Perdue, some 15 miles east of Canyonville, to arrest two men who had the day before defied arrest. They were J. W. Lerwell and son, Philip Lerwell. The former was wanted for stabbing Wm. Horn at a dance the night before. The officers succeeded in locating them in a cabin near Perdue. Deputy Swank called out to Lerwell to throw up his hands and surrender. They did not do so but ran away, whereupon Dupont Swank and Pardee fired two or three shots at them, one of which took effect, hitting the elder Lerwell in the right arm between the shoulder and elbow. Lerwell, after scurrying around a little while got back into the house and after a few minutes parley the women came out and said quiet shooting that Lerwell was wounded and would surrender. The posse brought them to Canyonville, where they will be held pending examination. Lerwell's wound is not serious.

Horn was severely injured but will probably recover unless blood poisoning should set in.

Big Electric System in Northwest

SEATTLE, June 17.—The Board of Supervisors to-day gave a hearing on the petition of G. T. Dunlop for a franchise for 90 miles of country roads for electric lines. The proposed system will be the largest if completed that has yet been built in the Pacific Northwest. The petitioner desires having connection with Baltimore capitalists owning the San Mateo line, and who are seeking to acquire all of the San Jose roads with the idea of connecting San Francisco with Seattle.

A German Estate.

In the matter of the estate of Baron Otto V. Bismarck, deceased, an order has been filed with the county clerk by C. Von Wintzingerode, Imperial German Consul for Oregon, on behalf of Adolph Everford and other heirs at law of said deceased and the motion was allowed by the county court that the hearing upon the administration's final account and the time for filing objections thereto be continued until Friday August 23.

NOTABLY WORTHY CAREER

Special to the Journal.
ROSEMOUNT, June 17.—Mr. and Mrs. Hardin Davis, of Willbur, this county, celebrated their golden wedding anniversary yesterday. They were married in Iowa. "Crossed the plains" with ox teams in 1852, settled on their present donation land claim in 1853, residing there ever since. They have ten children living. Mr. Davis never gave a mortgage in his life, nor was either plaintiff or defendant in an action a law suit. He is still active, is a prominent fruit grower, in comfortable circumstances and a highly esteemed citizen.

ABOUT EXCLUDING REPORTERS

Special to the Journal.
ROSEMOUNT, June 17.—Mr. and Mrs. Sherill Durbin was seen by the Journal this day in regard to excluding reporters from seeing prisoners in the Marion county jail. He said he had adopted no rule to exclude reporters or lawyers from seeing prisoners. Any prisoner wishing to see a reporter or any paper can always have that privilege. Except in the Kelly case, on one had ever been refused admission to the jail and in that case he claimed that he had special cause.

BURNETT GRANTED NOSUIT.

John L. Vaughn has sued the Booth-Kelly Lumber Co. of Eugene for \$25,000 damages for injuries received October 16, 1900, resulting in the amputation of the left leg. L. Blyen and Thompson & Hardy are attorneys. The case was up before Judge Burnett and a non-suit granted, hence the news item.

Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try like it. Appeal in Mollineux Case.

Buffalo, N. Y., June 17.—On the argument of the court of appeals for counsel to-day is the case of Roland B. Mollineux, who is now in Sing Sing prison under sentence of death for the murder of Mrs. Kate Adams in New York. The hearing which commences to-day is expected to occupy the entire week. Though the facts in the case are not to be reviewed the appeal will nevertheless be of great interest because two lawyers of wide repute are pitted against each other they are David B. Hill, who has been retained by the State, and James G. Milburn, who is to make the argument upon which Mollineux's friends are depending to save him from the electric chair.

Good Boys

Are the bad boys very often. The boy that's good for anything is generally popular. He is a healthy animal, and the healthy animal will always fight for his rights.

When a boy shuns the rough sports of his companions he is apt to be a weakling and to be conscious of the fact.

A great many mothers have testified to the wonderful curing and strengthening power of Dr. Pierce's Golden Medical Discovery. All strength comes from food after it has been perfectly digested and assimilated. By curing diseases of the stomach and other organs of digestion and nutrition the Golden Medical Discovery enables the perfect nourishment of the body, which is thus built up in the only way a body can be built up—by food.

There is no alcohol in "Discovery," and it entirely free from opium, cocaine, and all other narcotics.

AN OLD MASTER MASON REMEMBERED.

Hon. Wm. Armstrong, Sr., of Salem, has returned from Portland, where he attended the Grand Lodge A. F. and A. M., with his hat tipped at the Napoleonic angle and wearing a broad Scotch grin. He has long served the Grand Lodge faithfully in many positions of trust, and during the past few years as a member of the committee on mileage. As an evidence of appreciation of his services the Grand Lodge presented him with a handsome token in the shape of \$50 in gold. That present was thoroughly appreciated.

The Latest Yarn.

A Pittsburg drummer tells this new yarn: I always carry a bottle of Kemp's Balsam in my grip. I take cold easily and a few doses of the Balsam always makes me a well man. Every where I go I speak a good word for Kemp. I take hold of my customers—I take old men and young men, and tell them confidentially what I do when I take cold. At druggists, 25c and 50c. 4
