### IT IS REALLY REMARKABLE

The number of cheap plated watch cases that are made and sold these days—cases that will wear anywhere from six weeks to three years, yet most of them containing a guarantee to wear twenty. A gold filled case, one that will wear twenty years, cost within a dollar of what it did six years ago. That dollar represents the reduced cost of making—the gold cost just the same. We sell gold filled cases—cases that have stood the test of years—and personally guarantee every case which we sell in addition to the manufacturer's warrant. Any movement you want. Lost in New York.

On next Friday and Saturday evening the Military Band of Salem will have a benefit at the "Grand Opera House." The play will be the great "Lost in New York City." The Band together with the assistance of "Miss Lewis" who has been very successful in producing plays with local talent are working hard to make this a grand success. The boys want to get their uniforms and take this means to defray expenses. The quartette has been engaged, and Mr. Snyder, we believe will sing the "Palm." On Saturday afternoon July 6th, the children will have a grand Matinee. Whenever child presenting a ticket and 15c will receive a present. "Send the Children to see the pretty Maypole dance." Reserved seats can be had of some of the members of the band or at the box office, at the Opera House. Those taking part are Mr. R. Magers, Mr. Nelson, Mr. Rittins, Mrs. Watt, Mr. Sutton, Mr. Mannary being specially engaged to play the Farmer. A grand performance is assured us, let us turn out well and give them a good house.

## McDANIEL LOSES

The supreme court sustained the judgment of the lower court in the case of Frank McDaniel, convicted of the murder of Clara Fitch, in Portland, in July, 1899. McDaniel was sentenced 16 years in the penitentiary.

## TWO OLD PEOPLE HURT

Mr. and Mrs. Drenshel of near Canby were driving into this city this afternoon and when about half way here from the state fair grounds their horse became frightened at a street car and in some way overturned the cart. It fell to the ground so as to become entangled in the harness. Mr. and Mrs. Drenshel were both badly bruised in the back and shoulders and a deep gash was cut on both of their foreheads. The lady was taken charge of by neighboring residents of North Salem and Mr. Drenshel was brought to the office of Dr. Smith and Byrd and his wound dressed. Both are quite ailed.

The Bear's Eyes.  
A Canadian hunter tells this incident of how he once came face to face with his quarry and hadn't the heart to fire: "It wasn't a case of 'buck fever,' such as a novice might experience, for I had been a hunter for many years, and had killed a good many deer. This was a particularly fine buck that I had followed for three days. A strong man can run any deer to earth in time, and at last I had my prey tired out. From the top of a hill I sighted him a few miles away. He had given up the fight, and had stretched himself out on the snow. As I stalked him, he changed his position and took shelter behind a boulder, and, using the same bowler for a shelter, I came suddenly face to face with him. He didn't attempt to run away, but stood there looking at me with the most pitiless pair of eyes I ever saw. "Shoot? I could have no more shot him than I could have shot a child. Had the chance come from a distance of 100 yards, I would have shot him down and carried his antlers home in triumph, but once having looked into those eyes it would have been nothing less than murder. I have hunted deer since then, but I find the spot affords me little pleasure. Whenever I draw a bead, the picture of those mute, appealing eyes comes before me, and though it has not prevented me from pulling the trigger, I have always felt glad somehow when my bullet failed to find its mark."—Washington Post.

## STUDEBAKER BICYCLE WAGONS

I have just sold another of these daintiest of all rigs to Mr. Simpson, the Court street livery man, who now has two in constant use. There is no place in which a buggy gets more use than in a livery barn, and no other place where they are tested to the full limit of their durability, and liverymen know that the Studebaker line always stand the racket. They are cheaper lines, but—Mr. Simpson says that the pneumatic has come to stay, and that their efficiency and durability stands without question. Come and see us.
