STRIKERS GAINING BOTH EAST AND WEST

Shaffer Satisfied With Steel Situation to Date.

ONE UNION GAINS DEMANDS FROM 'FRISCO MANUFACTURERS

Shirt Waist Makers Resolve to Increase Their Strike From 2500 to 4000 Hands - National Association of Brewers to Make War on Brewery Workmen.

PITTSBURG, Aug. 24.—The closing of the sixth week of the great steel strike finds the controversy apparently as far from a settlement as on 13th July, when a conference of the labor leaders to devise some means of bringing about a settlement was devoid of results and it rests with the conferees as individuals to seek another conference with the United States Steel Corporation executives and to arrange for arbitrating the differences. The meeting made no effort to extend the strike to the affiliated trades. This morning President Shaffer expressed himself as satisfied with the situation.

NEW YORK, Aug. 24.—At a meeting of the executive committee of the Shirt Waist Makers Union last night it was decided to extend the strike and increase the number to 4000. Fifteen shops will consequently be tied up today.

SAN FRANCISCO, Aug. 24.—The strike of the structural iron workers involving 250 men has been settled. The employers agree to give the men a nine hour day for work in the shops and an eight hour day for outside work with no reduction of pay. The demand of the union was for a shorter work day and the employers concede the demand in full.

NEW YORK, Aug. 24.—A circular has been issued by the National Association of Brewers making the announcement of the commencement of war to the knife on the National Union of Brewery Workmen, commencing September 1. The brewers first ask owners to assist them in bringing first a general movement against the unions of brewery workmen; second to bring pressure to bear on the government to withdraw the new tax on beer, and third, to raise the price of beer, with the assistance of the state organizations of brewery owners. The circular concludes with the announcement, "we will take action on September 1."

On the other hand the workmen have sent out an appeal asking their members to stand together. It is estimated that 20,000 men will be locked out.

NEW YORK, Aug. 24.—There will be no general strike of the silk workers of Paterson. At a meeting of the weavers union last night the shop unions to which the question had been referred for a vote reported. The reports showed that 400 voted against a general strike and 100 in favor of it. Most of the weavers did not vote.

SAN FRANCISCO, Aug. 24.—Yesterday was a day of suspense in the strike situation. Rumors of all sorts were in the air, but there was nothing tangible reported.

He Has Saved My Life

State of Oregon County of Marion In Salem, Ore, May 1, 1900 To whom these presents shall come Greeting, This is to certify that I have been afflicted with Ovarian Tumor for a number of years, also liver trouble. I desire to publicly state upon oath that Dr. J. F. Cook of Salem, Oregon, has removed said tumor, two in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and well believes permanently cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was. I feel that he has saved my life. My home is three miles south of Turner, Oregon. MRS. CAROLINE ROTZOLL. Subscribed and sworn to before me this first day of May, 1901. W. W. HALL, County Clerk.

Do Not Listen to "Cappers"

When any friend to defend me and my methods of treatment. If I could not cure people there would be no use to fight me. It is because I cure people that I am persistently misrepresented, but I keep on curing folks just the same and soon get the best people in Oregon stand by me, for which I am thankful. I send for literature containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people who were once hopeless pronounced hopeless by the "quack" physicians. The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies. Still he cures absolutely just what he can do. Dr. J. F. Cook Botanical Physician Office: 301 Liberty St. Salem, Or.

BARR'S JEWELRY STORE

Leaders in Low Prices, 118 State Street.

yacht race and some who are well known in the sporting world are inclined to give the long end to Shamrock. One of the most prominent of these sporting men is quoted as saying that the men who make bets are disgusted with the trials of the American boats, and that those with the bank rolls do not like the performances of Constitution. He has expressed the opinion that even money bets on the race will prevail. Another high authority of this class says that he has found feeling and sentiment in favor of Shamrock and he cites one incident of a bet made by a Chicago man of \$100 to \$50 that Sir Thomas Lipton would win. No heavy betting is reported from any place.

RAVISHER SENTENCED

RAWLINS, Wyo., Aug. 24.—Judge Craig has sentenced J. M. Caldwell of Vernal, Utah, to the penitentiary for a term of 10 years. Caldwell was convicted on the charge of having criminally assaulted a 14 year old girl who lived near Baggs. Caldwell was captured by a posse and a mob had formed for the purpose of lynching him but the plan was frustrated by the authorities.

INDIAN LABORERS

PHOENIX, Ariz., Aug. 24.—Arrangements have been completed by which several hundred Maricopadians, who have suffered much in late years by drought and famine will be sent to Southern California to work on the California and Eastern Railway. If the experiment proves successful, large numbers of Indians may be given permission from time to time to accept various forms of employment outside of Arizona.

HORSE SENSE

David Starr Jordan Talks About Labor Troubles.

Bases Chinese Exclusion Upon Reasonable Qualifications.

DENVER, Aug. 24.—President David Starr Jordan of Leland Stanford University is here on his way to California, after having spent several weeks in Estes Park with Professors Kellogg and Campbell of the Leland Stanford University. In an interview he said there were three great questions now prominently before the country, the labor problem, the Chinese exclusion question and the problem of the Philippines.

"The question of the trust and the unions," he said, "must be settled by ballot. If the laboring men have not the common sense and the judgment to vote rightly they will suffer the consequences. They have it in their power to solve the problem. If force or bloodshed are resorted to, it is a mistake I do not believe in sympathetic strikes, as they oblige many innocent individuals to suffer. Why should a fruit raiser lose his crops because the freight handlers are on a sympathetic strike? The strike of freight handlers on the Pacific Coast has cost an immense amount of inconvenience and loss to travelers and members of the community who know nothing about the grievances but are made to suffer."

"As to the Chinese exclusion, said the doctor, "it is not at all one sided, I am not in sympathy with the sentiment that would exclude all Chinamen from our country. I am in favor of admitting a Chinaman who comes to these shores accompanied by his family, if he brings his family he will have something to anchor to. I would exclude all paupers and Chinamen who come alone. We should bear in mind that if China is opened to the trade of America we cannot afford to antagonize that great nation by a rigid law of exclusion."

STEAMER IS SUNK

ANTWERP, Cal., Aug. 24.—The San Joaquin River steamer Dauntless, from San Francisco for Stockton, was sunk early this morning by the steamer Mary Garrett, bound for San Francisco, with a load of wheat. All the passengers and crew were saved. The Garrett is uninjured.

BETS ON SHAMROCK

NEW YORK, Aug. 24.—Professional betting men are beginning to show a keen interest in the coming international

FRENCH GERMAN CAPERS

NEW YORK, Aug. 24. A Berlin dispatch to the Herald quotes a high German official as follows: "When the French Government heard rumors of a possible meeting of the

Kaiser and the Czar it made every possible effort to induce the Czar to come to France.

"There is no doubt that the acceptance of President Loubet's invitation by the Czar is a great success for the Waldeck-Rousseau Cabinet, which is now identical with the republic. We do not think that the Czar's visit is in any way directed against Germany. If it is directed against anything, it is, first and foremost, against the opponents of the Waldeck-Rousseau Cabinet and the adversaries of the republic.

AMERICAN TARIFF WAR

LONDON, Aug. 24.—The Saturday Review says: It would appear as if steps were actually being taken in Austria-Hungary to commence the threatened tariff war with the United States. We understand the American invasion of the Venetian coast industry is one of the principal causes of grave discontent as it greatly reduces the prices of the Austrian producers and may lead to serious social troubles.

"There is no doubt North American interference in South American affairs will in the future lead to European activity. We do not regret this, as we have always pointed out that Europe ought not to allow herself to be eliminated from South American concerns. It would be well if the various states of the southern continent would agree to settle their own quarrels and remove the excuse for North American interference."

COLOMBIA IN REVOLT

Gen. Pietrie Heads Men in Carabobo and Aragua.

European Press and Public Centred on Uncle Sam's Actions.

NEW YORK, Aug. 24.—According to advices from Caracas, Venezuela, the State of Carabobo, a former province of Guairico, and the town of Aragua have revolted against President Castro, says a Port of Spain, Trinidad, dispatch to the Herald. General Juan Pietrie is at the head of the revolutionary movement.

St. Petersburg, Aug. 24.—Newspapers here continue to comment on the Italian conflict.

The Russia says: "When a union of the South American Republics has been definitely reached with the United States of America at its head, they will form so powerful a combination that they will be able to dictate to Europe, even on questions outside their continent."

The Birabeviya Violomosti says: "The declarations of the Washington Cabinet mean that the United States is siding with Colombia against Venezuela and will prevent any intervention on the part of England, although the latter has a right to participate in questions concerning Venezuela (sic) under the Clayton-Bulwer treaty. The British Government must smugly put up with affronts that two or three years ago would have seemed incredible. Declarations from Washington would then have evoked a declaration of war."

NEW YORK, Aug. 24.—Signor Branchi, the Italian Consul General here has written to the Tribune at Rome protesting against that journal's attitude on the Panama question. He defends the United States which he declares has the right to prevent rebels from stopping communication on the isthmus. He adds: "Italy should remember that 3,000,000 Italian subjects live in peace and prosperity in the United States and that Italy has no national interest in the isthmus of Panama."

The English press says a London dispatch to the Tribune is convinced by the departure of the French Mediterranean squadron for their Atlantic maneuvers that the Sultan will be allowed the time required for borrowing the money and paying the dock claims on an easy installment plan. It turns from the Turkish capital to tropical America for a livelier foreign theme and the attempts to explain the bearings of the Monroe Doctrine on the relations of Venezuela and Colombia and the control of the isthmus. The English press is not at its best in dissertations upon the Monroe Doctrine but it is making progress. The best journals have discovered that the United States has a treaty right to prevent interruption of isthmus traffic and exercises it as true to the protection of the commercial interests of all nations and not for the expansion of the Monroe Doctrine.

BOERISH PROBLEMS

Large Convoy of Ammunition and Provisions Captured.

The Last Batch of Yeomanry Contains Cripples and Afflicted Men.

NEW YORK, Aug. 24.—The capture of a large Boer convoy of provisions and ammunition, says the London correspondent of the Tribune, is the chief fact in the budget of war news. The weakness of the military guard protecting the convoy when supplies are scarce and cannot be easily replaced is fresh sign of exhaustion. The pro-Boer journals are still asserting that the black men will be armed and stationed in block houses after the close of the war, but there is no authority for the rumor. This is only another way of saying that the Boers never can be subdued, for block houses will not be needed when the last band of guerrillas has been dispersed and peace has been restored. From a detailed complaint which it is alleged has been made by Lord

CARDINAL GIBBONS COMING

Thousands of Prominent Catholics Will Meet Him at the Steamer.

NEW YORK, Aug. 24.—A number of prominent Catholics are in the city to welcome Cardinal Gibbons when he is expected today on the steamship Etruria. Among those who will meet the vessel at quarantine are the Rev. William L. Russell of the Cathedral at Baltimore; Rev. John D. Roland of St. Vincent's Church, Baltimore, and Rev. Dr. Stafford of Washington.

These gentlemen will act as an escort for the Cardinal to Baltimore. Cardinal Gibbons is expected to remain as a guest of honor of Major John D. Reilly of Brooklyn until Monday. At Baltimore the Cardinal will give a magnificent welcome. He will be greeted by at least 12,000 people. The procession of Catholic societies of Baltimore and Washington and towns throughout Maryland will number over 8000 men. Acting Mayor Williams and a delegation of city officials will receive the Cardinal at the station and the Acting Mayor will deliver an address of welcome. The procession will escort the Cardinal to his residence at the cathedral where he will hold a reception.

YELLOW JACK, NIT

NEW YORK, Aug. 24.—The three men landed on Swinburne Island on Thursday as yellow fever suspects from the steamship Ethel Brytha have developed no further symptoms of the disease and Dr. Doty, the health officer, is quoted as saying that they may be discharged today. In view of the recent developments in Havana and the assertion that germs are propagated by the bite of mosquitoes, it is interesting to note that among the other precautions taken in the case of these three suspects since their arrival they have been carefully guarded from the possibility of being bitten by mosquitoes. Nets surround their beds and the attendants have continually been on the lookout lest a mosquito should bite, itself becoming infected and in turn communicate the disease.

TURKEY WILL PAY

CONSTANTINOPLE, Aug. 24.—The Quays Company matter has been settled as was expected in accordance with the desire of France. An Imperial irade has been issued ordering the company to exercise freely all the rights granted by concession.
