BY HOFER BROTHERS,

EDITORAL There is significance in the declaration of the Republican factional organ at Eugene, that if the followers of exsenator Corbett control the county convention the ticket will be slaughtered. The meaning of it is that party lines are broken up in Oregon and that the fight at the polls will be resolved into a strike between two factions both calling themselves Republican. The war of the predatory element is against the conservative elements of the party. The predatory element claims that Corbett and his following are corrupt, that they are trying tolbuy the senatorship. On the other hand, the predatory crowd go to the legislature to trade their vote for appropriations and for appointments. It is the difference between spending your own money or spending the public patronage. With all the cry against Corbett using money, it is not a secret that Mitchell had all the mony he wanted to use, and there is evidence that be used it freely. The charge that Whitney of Linn county made is the public press against members of his own delegation and of his own party with whom he was elected on the same ticket, has never been denied or refuted or replied to by any of the gentlemen upon whom it reflected. In Linn county as in Lane the politicians will divide into two factions, obliterating the name Republican and Democrat, when it comes to the naming of the next Senator, It is to be regretted that in the face of this unworthy kind of strife the people cannot themselves take up and make a com petent man Senator who would be a credit to the state, a man identified with neither faction. This will be called cheap talk, but there are a large numbe of people who are tired of the methods of the past. The people are tired of either buying the office with appointments or cash. It may be that there is no other way to name a senator, but American people are naturally lean and was in the Bad Lands district with there should be. A candidate for sonator should be named in the primaries by direct voice of the people or elected by direct vote of the people. Both mothods gum habit formed early in life destroys brought him to detective Weiner would be still better, direct nomination the perfect conditions of assimilation so Dalglish offered the detective \$ 0 if he and dicect election. . . . Mrs. Dunham of Southington, Conn., has passed one hundred years and is in the cheerful enjoyment of good health. About once in 25 years she has had a doctor, and her recipe for health and old age is quite simple. She goes to bed early and eats as much plain wholesome food as is needed to keep her going. She spends most of her waking time out vegetables and flowers. The life insurance tables compiled for a hundred years determine that gardening is the need of it.
