STRIKERS CONTENT BUT TRUST GAINS MEN

Injunction Against Amalgamated Men Interfering Outside.

SIMON BURNS' PLANS OF ARBITRATION ARE REJECTED

Throwing of Boquets at Morgan by Union Officials - Number of Girl Shirt Waist Strikers Increased to 6,500 With a Prospect for More - Good Advice by Cigar Makers' Union.

PITTSBURG, Aug. 29.—The strike situation continues quiet. While the strikers still express satisfaction with the prevailing conditions, the steel corporation is slowly but steadily increasing its forces at the plants already in operation, and preparing to open more mills.

NEW YORK, Aug. 29.—A New Philadelphia, Ohio dispatch reports that attorneys for the American Sheet Steel Company have secured an injunction through the United States court against the Amalgamated Association at Canal Dover, for intimidating and keeping workmen from entering the rolling mill, also for holding and stopping pedestrians upon highway.

INDIANAPOLIS, Ind., Aug. 29.—Simon Burns announces that his plan for settling the strike by arbitration has been rejected by Chas. M. Schwab, president of the United States Steel Corporation.

NEW YORK, Aug. 29.—Frank P. Sargent, Grand Chief of the Brotherhood of Locomotive Fireman, before leaving this city last night for his home in Peoria, Ill., said of the steel strike: "I think that as President Shaffer of the Amalgamated Association has receded from his original demands, Mr. Morgan could afford to be magnanimous and settle the strike. My interest in it lies in the fact that the settlement of the strike will have such a far-reaching effect generally."

The same tone was adopted by Henry White, general secretary of the United Garment Workers. "Mr. Shaffer," he said, "has modified his demands and made some concessions reluctantly at our intercession. The executive officers of the Amalgamated Association regard Mr. Morgan very highly and believe him to be broad and fair minded. They have not as high an opinion of the officials of the United States Steel Corporation, however."

Mr. White said that as soon as word was received from President Shaffer to go ahead with negotiations Prof. Jenks, John Mitchell, Samuel Gompers and the other members of the committee on conciliation will meet in this city and try to arrange a peace proposition.

CAMBRIDGE, O., Aug. 29.—There is every indication that the managers of the Cambridge plant of the American Tin Plate mill will try to put the plant into operation within a day or two. Beds, cooking utensils and a stock of food has been placed in the mill. The plant has six pot mills and could be operated by a small force of men. The leaders of the Association still declare that their men are all firm and that there will be no desertions.

NEW YORK, Aug. 29.—A special meeting of the City of Marion, Ore., May 1, 1900. To whom these presents shall come greeting. This is to certify that I have been afflicted with Ocular Tuberculosis for a number of years, also liver trouble. I desire to publicly state upon oath that Dr. J. F. Cook of Salem, Oregon, has removed said tumors, also in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and as I believe permanently cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was. I feel that he has saved my life. My home is three miles south of Turner, Oregon.

MRS. CAROLINE ROTZOLL, subscribed and sworn to before me this first day of May, 1901. W. W. HALL, County Clerk.

Do Not Listen to "Cappers" Who are hired to defame me and my methods of treatment. If I could not cure people there would be no use in this case. It is because I do cure people that I am persistently misrepre sented, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful.

Dr. J. F. Cook Botanical Physician Cures all kinds of diseases. Office, 301 Liberty St. Salem, Or.

He Has Saved My Life

PHILADELPHIA, Aug. 29.—Eleven known dead, nine missing, and 32 injured in the record made by the explosion of the boilers of the steamboat City of Trenton, on the Delaware river yesterday afternoon. Of the eleven bodies recovered ten identified. They are: John P. Chew, of Camden, ast. engineer City Trenton; Miss Elizabeth Green, Philadelphia; Wm. Dunn, Philadelphia, passenger; Arthur Launing, Trenton, N. J.; James O'Connell, fireman, Philadelphia; Mott Mable, fireman; August Mable, deck hand, Philadelphia; James M. Cormack, Wilmington, Del., passenger. Among the missing are Miss Ethel Stokes of Trenton, and Miss Helen Brist, daughter of former mayor John Brist, of Trenton.

It is believed the body so badly charred as to be unrecognizable is that of Mrs. John Matthews, of Philadelphia. Engineer Chew's wife said today that her husband said to her Tuesday night: "Lizzie, I may never see you again; I have a presentiment that there will be an explosion on the boat. They are running at too high a steam pressure, and if an accident should occur, I and many others will be killed." Augustus Reichart, an expert machinist, employed by the New and Levy Shipbuilding Company, builders of the City of Trenton, gave an opinion that the boat was being run too fast and this exhausted the water. The boat was 15 minutes late when she left the wharf

A Question of Looks

If you are anxious to preserve your good looks or to improve your appearance we will fit your eyes perfectly and your face attractively. The most important thing, though, is your vision. Let us look out for that for you.

Herman W. Barr Scientific Optician, 115 State Street.

resterday afternoon and it is stated that much lost time had been made up when the explosion occurred. The captain and other officers deny emphatically that the City of Trenton was racing the steamer Twilight, of the opposition line, when the explosion occurred. From the most authentic reports received up to 2 o'clock this afternoon it is believed that at least fifteen persons lost their lives in the steamboat explosion on the Delaware river yesterday. There are eight bodies at the morgue. The list of missing numbers between ten and fifteen, of which at least half a dozen are surely dead. Nine of the injured, victims still remain in the river. Searching is going on without intermission.

Philippine Commission

MANILA, Aug. 29.—The Philippine Commission has organized a civil government at Iba, Capital of the Province of Zamboela. This completes the northern tour, and it is expected that the commissioners will return to this city today.

SEETHING CAULDRON OF UNREST

Such is the State of Colombia Since the War is on.

Crops are Devastated Towns Decimated and Villages Wiped Out.

NEW YORK, Aug. 29.—A dispatch to the Herald from Panama, Colombia, says: Plots and counter plots fill the air. There is war here of the most hideous kind and strife that tears the country asunder; in which brother is

Winters was under arrest when the reward was offered and President Ralston says his conviction was expected. The company, however, thought he had accomplices and also feared that the gold had been taken out of the country and for these reasons offered the big reward. It is stated that several of the officers who worked up the case have been settled with, but the amount paid them is not known.

SAN FRANCISCO, Aug. 29.—President Ralston of the Selby Smelting Works announces that the reward of \$25,000 which was offered for the arrest and conviction of the thief or thieves who stole over \$300,000 of gold bullion on the night of August 5 will not be paid as such, though the detectives and others who were instrumental in recovering the treasure and sending the robber John Winters, to jail, will be liberally compensated for their services.

WASHINGTON, Aug. 29.—The great majority, nine out of 10 of them, desire peace and safety and are doing all they can to help the troops attain this end.

"Of course it is impossible to make an Anglo Saxon out of an Oriental, therefore the Filipino will probably never be an American citizen in the broad sense that is understood by all that term conveys to the man born in the United States of white parents. But as soon as he gets sufficient education and becomes a little more impregnated with our ideas and loses some of the ideas acquired by a 300 years association with the Spaniard, the Filipino will be a citizen in spirit, patriotism, industry and education and will be worthy of participating to the fullest extent in all the benefits of this government."

"Of course, will have to govern them with wisdom as well as with kindness. I think that forty thousand troops is about the right number to keep there for some years to come."

MASKED MINERS

Attack a Rich Nome Camp and Do Some Shooting.

Arrests Made, and the Men Give \$10,000 Bail Each.

SEATTLE, Aug. 29.—Sixty-five determined men, armed and masked, sought to take forcible possession of a piece of rich mining ground in the Nome district August 15. The property is known as the famous California Fractional Bench above Discovery on Glacier Creek. It was in possession of Finley McIntosh and a force of 18 men. As a result of the conflict Richard O'Connor, a McIntosh workman, lies in a hospital at Nome with a bullet wound in his left thigh, which it is feared will cause the loss of the limb and possibly his life.

Thirteen of the invading force were arrested by United States Marshal Richards, charged with participating in a riot with felonious intents and intent.

Engene Richards disputes McIntosh's possession of the property, and the attacking men, it is claimed, were acting in his behalf. Sixty-five men, armed with rifles, guns and revolvers, and all wearing black cloth masks, came running from behind the dumps, where the men had been at work. They ordered them off the ground and ran into the tents where the shift men were, and told them to get as quickly as possible. Then a number of them ran down the hill to where Richards and his men were in camp.

O'Connor, who was in bed, began to put on his shoes, but apparently he did not hurry fast enough, so they shot him. It all occurred so quickly that they could hardly realize what had happened. At Nome those arrested were admitted to \$10,000 bail each. All were released.

The litigation that resulted in violence is of long standing, is almost inextricably complicated, and has had several sensational episodes. The late violence was the third attempt made to forcibly take possession of the ground in dispute, one of which succeeded and the other failed, the attacking party encountering a force larger than any anticipated and they retired without an exchange of compliments.
