LIPTON MAY TRY AGAIN

State of Oregon, in Salem, Ore., Aug. 24, 1901. County of Marion.

Crippled and Many Years an Invalid. To whom these presents shall come, I greet ye. About fifteen years since at nine years of age I met with an accident which caused me to be crippled and many years an invalid. I was afflicted with rheumatism, sciatica, and other ailments. I was treated by many physicians but to no avail. I was then treated by Dr. J. M. Lipton, who cured me of my ailments. I am now able to walk and perform all the ordinary duties of life. I hereby certify that Dr. J. M. Lipton is a man of high character and skill, and that his treatment of me was the most successful I have ever experienced. I am now a healthy and happy man, and I am able to perform all the ordinary duties of life. I hereby certify that Dr. J. M. Lipton is a man of high character and skill, and that his treatment of me was the most successful I have ever experienced. I am now a healthy and happy man, and I am able to perform all the ordinary duties of life.

New York, Oct. 11.—The World quotes Sir Thomas Lipton as saying in connection with the international yacht race problem that if no one else challenges for the America's cup, he will do so.

Salted Spanish Peanuts

THE SPA Peanut Roaster 114 State Street, Salem, Oregon.

BARR'S JEWELRY STORE 118 State Street, Salem.

WAR IS NOT FEARED

By the Columbian Ministers.

Venezuelan Revolutionists Attack Government Troops Near Barrancas.

Revolutionists in Both Columbia and Venezuela are Buying Large Supplies of "Fire Works."

WILLEMSTAD, CURACAO, Oct. 11.—A civil engineer who has just arrived here on his way to Caracas from Bogota, which he left on September 7, asserts that up to the time of his departure there was very little talk in Bogota of a war with Venezuela. The members of the Cabinet and high officials there did not seem to consider the war imminent. They appeared to be more deeply concerned with the revolution and with their efforts to put it down. One of the members of the Cabinet admitted to the engineer that the Tacira invasion and the engagement in July under General Banguel Gerhires were mistakes on the part of Colombia and regrettable.

In the opinion of the engineer the Liberal movement was strong throughout the entire country, only needing ammunition to succeed. He described the influence of the priests in Colombia as extreme and detrimental to the country. According to this statement, exchange and national bank notes were rising rapidly when he left. In his judgment, Colombia will never declare war, nor will she again attack Venezuela, having too many home troubles to be able to afford to do so.

A fair estimate of the Colombian forces would be, he thinks, 8000 on the Santander frontier, 1000 at Lahecha, 300 at Santa Martha and 800 at Barranquilla.

New York Oct. 11.—Advices from Ciudad Bolivar, announce that the Venezuela revolutionists commanded by General Geronimo Kivas have attacked and defeated the Venezuelan Government troops under General Arostegui, near Barrancas, in the State of Bermudez, and that General Arostegui has been taken prisoner. It is further announced that the Venezuelan troops from San Felix, commanded by General Africano, sustained a defeat near that town at the hands of the revolutionists under General Vidal. General Africano escaped to San Felix.

New York, Oct. 11.—The Tribune says: The Colombian Government has been buying several rapid fire guns here and shipping them south. Speculators in the West Indies and Central South America expecting eventually to dispose of arms and ammunition to the revolutionists, who are paying good prices for such wares, are sending stocks to South America marked "fire works." The use of the term "fire works," is not intended to conceal altogether the nature of the shipment, as they are not contraband. It makes unnecessary a full description and insures careful handling.

Within the last week upward of 200 cases of "fire works" besides fire arms, cartridges, dynamite and fuses, labelled as such, have been shipped to Argentina, Brazil, Chile, Central America, Cuba, Ecuador, Mexico, Uruguay and Colombia. It is believed that the revolutionists in Venezuela and Colombia will get most of the "fire works." The government of Colombia recently forwarded the 15 pound rapid fire Seabury and Driggs rifle which was on exhibition at the Pan-American Exposition and which it bought. Two of four rifled pieces also obtained were shipped by the Atlas and Panama lines a few days ago.

HEAVY IOWA STORM

OMAHA, Neb., Oct. 11.—A storm in Western Iowa yesterday caused much damage at Sheehoh, Willcox, and the towns between Red Oak and Hamburg and on the Burlington line. At Sheehoh a deluge caused the Nishnaboths to spread over two miles of bottoms, covered the railroad tracks and caused washouts of crops. A small cloudburst in the Northeast Missouri Valley took over several bridges.

New York, Oct. 11.—Discussing the South African situation, the London correspondent of the Tribune says: The best explanation which has been received regarding the proclamation of martial law in Cape Colony is that Lord Kitchener insisted upon having some means of protecting the army against traitors in the rear who were more dangerous than the Cape rebels, hiding and fighting in the mountains. Whether or not there was any controversy between Lord Kitchener and Sir Alfred Milner over the proclamation is an open question, but the report that another commander in chief in South Africa would have been requisite if it had been issued is generally credited.

LIBERAL LEADERS BRANDED

Trickery in Connection With Rhodes.

Buller's Defence of Himself Was a Great Failure.

Kitchener Finds Traitors in the Rear and Plenty of Rebels in Front.

LONDON, Oct. 11.—The Spectator today prints letters from Cecil Rhodes, and the late Francis Schaudhorst, from 1885 to 1892 to the chief organizer and advisor of the Liberal party, sustaining the sensational allegations made some months ago, that Mr. Rhodes, in 1891 gave 5,000 pounds to the Liberal party on condition that Mr. Gladstone would not bring about the evacuation of Egypt by British troops. Both Sir Wm. Vernon Harcourt and Sir Henry Campbell Bannerman, Liberal leaders, have publicly declared this to be false.

From the text of the correspondence published by the Spectator it is learned that it confirms substantially the original statement made by Charles W. Boyd respecting Mr. Rhodes contributions to the political fund of the Liberal party after the occupation of Egypt. It proves that Mr. Rhodes, in dealing with the liberals through out an anchor to windward, as he had done in contributing to the Irish campaign fund and that the retention of British control in Egypt was one of the conditions of the gift, as the maintenance of imperial connection has been when the subscription was made for the benefit of the Irish cause. Mr. Boyd drew this parallel, apparently, for the sake of removing unjust prejudices against Mr. Rhodes, on account of his home rule subscriptions. The Spectator extracted larger inferences from the matter than the facts warranted and Sir Henry Campbell-Bannerman made so sweeping a denial that Mr. Rhodes ought to influence the ministers but not to bribe them, with a paltry subscription, that Mr. Schaudhorst repudiated the party chest with a good conscience because the assurance asked for respecting Egypt was easily obtained. The party managers methods of filling the campaign chest were not discussed in the Cabinet but Lord Rosebery and other leaders were aware of the conditions of Mr. Rhodes subscription.

New York, Oct. 11.—Sir Redvers Buller's extraordinary speech is received with consternation by this morning's papers, says the Tribune's London correspondent. The Standard attacks him severely and tells him that the best thing he can do now is to resign his command of the First Army Corps. The Daily Mail, which considers that the speech would have been more in place on the boards of a theater, points out that the message to Ladysmith is exactly paralleled by Sir H. Parker's famous order to Admiral Nelson at Copenhagen to break off the battle and to retire in order a request which posterity has unparalytically condemned. On the whole, Mr. Brodick's statement concerning the South African situation is fairly well received, but two or three of the Conservative papers are not satisfied with it, continues the Tribune's London correspondent. If Minister optimism was unwarranted 12 months ago, why, it is asked, should the public have faith in it today? If the government cannot contrive to wind up operations without much further delay there is little comfort in the fact that the nation is employing a great many men and horses and spending enormous sums of money over the still unfinished task. Sir Michael Hicks-Beach, although he did not say much that was new in his speech, affords the information that the special object of the proclamation of martial law at Cape Town, was to stop supplies of ammunition, which have been making their way through Cape Colony to the Boers. General Buller talked garrulously about the collection and dealt freely in innuendoes, but he was merciless in attacking his own reputation. His attempt to connect the visit of some blackmailers of Aldershot with articles written by men like Spencer Wilkinson and others of the highest character, for the press, was farcical. He does not seem to know that men like the Duke of Cambridge have turned against him on his own record.

PACIFIC CABLE REPORT

Situation Open to Any Company. Roosevelt Will Appoint Some Southern Gold Democrats.

WASHINGTON, Oct. 11.—Attorney-general Knox made a verbal report to the president and Cabinet today regarding the result of investigations into the Pacific Cable question. His conclusion was that under the law of 1896 any domestic company could land, any cable on the shores of the United States or its possessions.

The president and cabinet were convinced by the verbal report that no executive action should be taken at this time. The president will go over the subject more in detail with the attorney-general tomorrow and review the whole matter to his message to congress.

SUB-MARINE BOAT NOW BUILDING

STANFORD, Conn., Oct. 11.—A mysterious submarine boat which has been under construction for the last three years at Ware Island, near the mouth of Stamford Harbor, has departed for the New Jersey Coast where she may have deep water for her trials. J. L. Carter, who has superintended the building of the boat has maintained much secrecy about her design but she is said to be fifty feet long and to have a cigar shaped hull of pine sheathed with galvanized iron.

The motive power is supplied by two powerful engines driving two dynamos, known also as being used as fuel and serving also as ballast. The boat is supposed to have been built as an experiment for a party of capitalists.

DEFENDS ARMY CANTEEN

Claim it Has Reduced Drunkenness.

Principal Cause of Destitution in Old Ireland.

The Socialists on Strikes-- Bishop Potter Argues in Favor of Arbitration.

WASHINGTON, Oct. 11.—Surgeon General Sternberg, in his annual report to the Secretary of War says the health of the Army was unusually good during 1900. Deaths from all causes amounted to 28.75 per thousand compared with 30.78 for the previous year. Health of troops in the Philippines is steadily improving. There is steady decrease of late years in admissions to hospitals for alcoholism among men in the regular army. This is matter for congratulation military officers may be said to be unanimous in the opinion that is mainly the result of the establishment of the post exchange, or canteen, at military posts.

New York, Oct. 11.—A telegram from Cork to the Times says arrangements have been made to hold a monster meeting in connection with the United Irish League at Toomevara, Tipperary, next Sunday. William H. Redmond, John Dillon and other members of Parliament are to speak.

The Rev. Father Hehir, in addressing his congregation in regard to this meeting said it was folly to suppose that snapping their fingers at the government would cure Ireland's ills. The main requirement of the Irish people was sobriety. Until Ireland was a sober country neither the league nor any other organization could make the people independent. Temperance was responsible for more misery, destitution and crime among the Irish people than their political disabilities.

New York, Oct. 11.—A dispatch from Brussels to the Times, says the general counsel of Socialists have just held a meeting, to consider the action of the miners federation at Liege, in voting for a general strike.

It was decided that local strikers were a mistake, tending to weaken the unity of purpose which alone could insure success in the matter of universal suffrage.

SCHLEY CASE DRAGS

Government Will Not Get Through This Week.

The Middle of November Will Not See the End of the Farce.

WASHINGTON, Oct. 11.—Lieut. J. H. Holden, Capt. Chadwick, Admiral Sampson's chief of staff during the war with Spain, Lieut. Commander C. C. Marsh, and Lieut. F. L. Bennett, who served on the flagship New York, Lieut. Adolph Althouse of the Massachusetts, Lieut. Francis Boughter, of Marblehead, and Lieut. Wm. H. Reynolds, signal officer on the Texas, were the witnesses called today in the Schley case.

Cap. Lenley had supposed he would be able to conclude his presentation of the government's side of the case by the close of this week, but he now finds he will have to consume the greater part of the first half of next week. Raynor estimates that the court will not be able to conclude the work before the middle of November.

Lieut. Adolph Althouse, formerly watch and division officer of battleship Massachusetts detailed movements of that vessel in connection with the flying squadron, on day of bombardment the Cristobal Colon. He had been in charge of the eight inch turret of the Massachusetts. Asked what developed as to strength of land batteries by this reconnaissance, he said to his mind it was shown they were very weak.

Lieutenant P. G. Dewey, nephew of Admiral Dewey, who was watch officer on the Massachusetts, was the next witness. He placed the distance the blockading line under Commodore Schley from the mouth of the harbor, at five to eight miles day and night. There was, he veiled, no particular formation of the vessels. He said the Spanish shore batteries had not given the American ships much trouble on the occasion of the reconnaissance against Colon.

RELEASE OF MISS STONE

Encouraging Reports Continue to Come

Big Reward Offered for the Head of One of the Gang.

Four Additional Brigands Have Been Captured by the Troops.

WASHINGTON, Oct. 11.—The State Department has heard again by cable from United States Consul General Dickinson and Secretary of Legation Spencer Eddy, touching the progress of negotiations looking to the release of Miss Stone. None of the details are made public. Conditions are by no means as reassuring as were expected yesterday.

New York, Oct. 11.—Three battalions of the Sixth Bulgarian Infantry Regiment marched through the country between Dubnitsa and Samskov and searched the village of Rilokoster's district, in one of which it was reported the brigands had concealed Miss Stone, says the Sofia correspondent of the Journal and Advertiser. Colonel Gashch, at the head of a searching party composed of 300 Bulgarian Infantry and 500 Dragoons is scouring the ranges of Doepat and Rhodopegebirgen.

The American Consul General at Constantinople has arrived at Sofia, with an Evangelical pastor from Philadelphia as dragoman, and both are taking energetic steps with the Bulgarian government to effect Miss Stone's release.

The reputed leader of the gang, who killed Staubhoff, has met his fate. Suspected of being associated in the capture of Miss Stone, he was shot dead on the frontier near Kostendity. Though \$10000 reward has been placed on the head for the murder of Staubhoff, Hallo, the name under which he was known, was too influential a ruffian for the Bulgarian police to arrest. Four additional brigands have been captured near Tachepino and a band of 10, fully armed, were discovered near Dubnitsa and driven into the mountains again.

WEALTHY BURGLAR

An Heir to Several Hundred Thousand Steals Jewelry.

CHICAGO, Oct. 11.—William H. Gibson, 19 years old, said to be the heir upon the death of his mother to several hundred thousand dollars is confined at the town hall police station on a charge of burglary. The police admit that the name under which the prisoner is

WAS A WIG

You don't see very many wigs nowadays. People have been educated how to care for the hair. That's one reason. Another is, Ayer's Hair Vigor makes wigs unnecessary. Nothing is equal for feeding the hair.

"For many years my hair has come out so fast every winter that I had to wear a wig. I tried Ayer's Hair Vigor. It stopped the falling, and made my hair grow so fast that I did not use my wig at all."

Sarah F. Lewis, Pittsburg, Pa. Dr. J. C. Ayer & Co., Lowell, Mass.

booked is a fictitious one, but they refuse to reveal any of the facts concerning his relations. It has been learned, however that the boy's mother, who is a widow, is the owner of a mansion in New York, another in Los Angeles, where she now resides, and that for a time she lived in Chicago with her son in the most fashionable quarter of Hyde Park. Gibson admits his guilt and as a result of his confession much of the jewelry stolen has been recovered at a pawn shop.

A NEW WATER SYSTEM

For the City of Mexico Will Call for United States Material.

New York, Oct. 11.—The Journal of Commerce says: A New York syndicate of capitalists has acquired the concession which was granted some years ago to William Mackenzie, formerly traffic manager of the Mexican Gulf & Monterey Railroad, for the purpose of bringing a new water supply to the City of Mexico. Warren H. Loss of this city, has been awarded the contract for carrying out the undertaking which, it is estimated, will entail an expenditure of nearly \$6,000,000 American currency, and will mean the purchase, it is said, of no less than 35,000 tons of material, in the United States.

There are about four new cases of bubonic plague daily at Rio Janeiro.
