WASHINGTON, Nov. 5 .- Right Rev. Mgr. County announces that it has been found necessary to transfer to the cathedral at Baltimore the ceremony of his consecration as titular Bishop of Samoa, The number of prelates, clergymen and lay people who have already signified their intention to be present is so great that any chapel at the university would be taxed far beyond its power to accommodate them. The ceremony will therefore take place at Baltimore Sunday November 24 in the Cathedral Church of Cardinal Gibbons, Chancellor of the University. Is Often the Real Cause of a Sour Temper.

That the condition of the digestive or-San Francisco, Nov. 5 .- Three steam- gans has a marked effect upon the charers of the Arctic whaling fleet have acter or disposition is a truism as old as

OF SAMOA dispute that a sunny disposition more often results from a healthy digestion than from any other cause.

Acid dyspepsia, commonly called sour stomach or heartburn, is caused by slow digestion of food: instead of being promptly digested and converted into blood, bone and muscle, it lies in the stomach for hours, fermenting and decaying, creating gases which cause pressure on the lungs and heart, short breath and general discomfort and irritation. Such half digested food is indeed poor nourishment for the body, brain and nerves, and the result is shown in irrita-

ble tempers, unaccountable beadaches and that depressing condition usually called the "blues," but how quickly all there disappear when appetite and digestion are restored. Laxative medicines only irritate the

already irritated stomach and bowels and have no effect upon actual digestion

The sensible course to follow is to make use of simple, natural gdigestives like Stpart's Dyspepsia l'ablets after meals until the stomach has chance to recuperate.

The natural digestive which every healty stomach contains are peptones, diastase and hydrochloric and lactic acids, and when any of them are lacking the trouble begins. The reason Stuart's Dyspepsia Tablets are so valuable and successful in curing atomach troubles is because they contain in a pleasant concentrated tablet form all these absolutely necessary essentials for perfect digestion and assimilation of food.

A Peculiar Mixture. The mantle used in the Welsbach tight is made of a combination or mixture of two rure earths known as thoria and ceria, and to produce the proper effect they must be combined in a definite proportion.
