A Word... About Plows

We are having a splendid trade this fall on the Syracuse chilled plow. Making new customers every day and the beauty of it all is that the plow is making its way right along by sheer merit alone. As an illustration, one of the best farmers in Polk county came in this week and ordered two 14-inch Syracuse chilled plows, without a word of argument or inquiry, simply because he has watched the Syracuse chilled plow at work alongside of other well known lines, and has seen its utility proved by the steadiness with which it runs, the ease with which it handles, and the perfect furrow it leaves, all points of importance. This gentleman is only one of many who have been prejudiced in favor of other makes, and was only convinced by actual demonstration. The Syracuse is making its way to the front every day.

The share is attached by two bolts, instead of one, as in other makes. The moldboard is higher, and gives the soil a better turn. The shin has more of a slant, clearing itself better of trash. The handles are longer and have more slope, making the plow much easier to work with, as it is vouched for by men who have used these and others, and then the entire plow runs steadier in the furrow.

If you are on the market for a plow, you make a mistake if you fail to look these over. All sizes of chilled and steel constantly on hand. Parts for same.

Spike tooth harrows.
Spring tooth harrows.
Disc harrows.
Drills, seeders and implements of every sort.

We are having a particularly good trade on sulky and gang plows this fall. We have the best lines on the market, and you'd do well to see us. Gang plows are money-savers to the man who will use them.

The men had pinned the occupants of the place at the point of revolvers and were proceeding to rob them when Ella, who had crept behind the counter opened fire with a shot gun. Ship fell dead but Meus, though wounded, ran out and mounting his horse escaped. Meus formerly lived in Sherman, Tex. Ship was from Las Vegas, N. M.

To Teach Boer Children

NEW YORK, Nov. 6.—Following the recent outcry against the treatment of the children in the South African concentration camps comes an advertisement, says the London correspondent of the Times, inserted by the board of education in this morning's paper, for female teachers to go to the camps in order to teach the children simple rudiments in singing.

Why should the children be taught singing? The pro-Boers will ask, in view of the reports of sickness and death among them. A correspondent of the London Times however, asserts this morning that the mortality among Boer children is always shockingly high. He says the Boers frequently have families of twenty, half of whom die young.

Fire At East School

A fire at the East school building last night called out the fire department. A blaze had started in a pile of about thirty cords of wood, and when the department reached there the blaze had extended up to the second story windows of the school building, scorching the walls considerably. A line of hose was laid and the flames soon extinguished. About half a cord of wood was consumed, but almost three cords was charred. The alarm, turned in by telephone, reported the fire to be on East State street, but the drivers happened to go up Chemenets street and by the crowd and calls soon located the fire. It is believed that the origin is incendiary, as there could be nothing to start a fire out doors in the damp wood.

How to Treat a Troublesome Corn.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. TAMMANY SNOWED UNDER BY 30,000

Continued from first page.

It is difficult to even attempt to estimate the final figure, but it is believed that he will run nearly 30,000 behind some of his associates on the county and judicial tickets.

All of the fusionist candidates for Justice of the Supreme Court in New York county are elected and all of the Democratic candidates are beaten. The name of Justice O'Brien, however, appears on both tickets as a candidate for Justice of the Supreme Court. Present appearances indicate that the Democrats will have just one out of 18 members of the board of Estimate and Apportionment of greater New York, the board which under the new charter succeeds to many of the powers formerly vested in the Mayor. The Democrat who is certain of a position on the board of estimate and apportionment is Borough President Cassidy of Queens.

In addition to the election of an entire new assembly, two state senators were voted for at the recent election. The voters were elected to fill vacancies caused by death in the Thirtieth and Forty-third Senatorial districts. In the Thirtieth district William D. Barnes, Republican, was elected, while in the Forty-third district, Morton E. Lewis, one of the Republican leaders of the last assembly, won.

The election of Messrs. Barnes and Lewis leaves the senate unchanged. There will be 25 Republicans and 15 Democrats in the senate of 1902, which is the same number each party had in the Senate of 1901. The assembly of 1902 will probably stand as follows:

Republicans and fusionists 108; democrats 42. This is in all probability a Republican and fusionist gain of three, leaving the Democrats in a minority of 62.

In the municipal elections throughout the state the Republicans effected some gains in the larger cities. Buffalo, the only first class city outside of the metropolis, elected E. C. Knight, Republican, by over 5000 majority. Of the four second cities, Syracuse was captured by the Republicans, Mayor McGuire, one of the Democratic leaders of the state being defeated. Albany and Troy were retained by the Republicans. Both parties are claiming Rochester and the plurality of A. J. Rodenback, republican, in the event of the official figures demonstrating his election will be very small.
