STORMS ROAR AROUND

The Tight Little Island of England.

Eleven Lifesavers go down to a Watery Grave.

The Most Disastrous Storm in Many Years.

LONDON, Nov. 14.—The loss of a life boat and eleven of its crew near Yarmouth heads the list of today's wrecks by the continued gale. The life boat was on its way to rescue a distressed vessel when it was struck by a great wave and capsized. Unnumbered minor casualties continue to be reported making the storm the most disastrous one in many years.

The Norwegian bark Erratic of Christians is wrecked in the vicinity of Saltburn, and eight of her crew are drowned. An incomplete list of the persons who have lost their lives by drowning during the storm already aggregates over 100.

GERMAN PEOPLE LEAVING

New York, Nov. 14.—A Berlin cor-

respondent says there has been a great increase in the number of emigrants from Germany this year. In the past 10 months 115,000 Germans and foreigners sailed on German vessels. This is more than twice the number of those who sailed from 1891 to 1897. Emigration to the Argentine Republic and Uruguay has increased, while that to Brazil has diminished.

RANSOM WILL BE REDUCED

Sofia Dispatch Says Brigands Will Hear Reason.

SOPIA Bulgaria, Nov. 14.—Miss Eller M. Stone and Mine Tsilka, are said to be occupying a hut in a village in Southern Bulgaria to which they are closely confined. There is reason to believe the conference the recent committee held at Debnitz recently favored a reduction of the ransom demanded.

TO SEE THEM PUNCH

Big Crowds Coming to 'Frisco.

Comparison of Jeffries and His Antagonist.

Sharkey Will Fight the Winner in December.

SAF Francisco, Nov. 14.—Many eastern people anxious to witness the Jeffries-Ruhlin fight are coming to this city. New York and Chicago have already large delegations on the scene and more are arriving by each train. A telegraph order for 50 seats has been received from a party now on the way from Pittsburgh. Another large delegation is en route from Cincinnati. Two special cars filled with sporting men from Puget Sound cities have left Seattle and will be joined in Portland by another carload.

The Los Angeles delegation, over 100 strong will arrive here this afternoon, and delegations will be here from nearly every city and town in this state.

At the pavilion everything will be in readiness for the event by noon today. During the afternoon the kinetoscope machines and the lights will be tested. It is asserted that Jeffries now tips the scales at 235 1/2 pounds. He believes he can fight to better advantage when he weighs about 207 pounds. His trainer, Billy Delaney, is of a different opinion. He would rather have his protege enter the ring weighing about 215 or 217 pounds as he knows that in the course of a heated battle Jim will take off weight.

With a blow of his fist, while training, Jeffries burst a punching bag. It was done with one of the left swings which was for the boiler maker the glory of the world's championship.

Today Jeffries will do light work in the Reliance Club Gymnasium. A number of ladies of Oakland have been invited to watch him perform.

Gus Ruhlin's weight is 201 pounds. He weighed 211 pounds when he began training. Billy Madden is not satisfied with the truth of the report that Jeffries only weighs 210 pounds. He says he is willing to wager that the champion will tip the beam close to the 225 pound mark.

Ruhlin is said to have a new and effective blow which he will attempt to use during the contest.

Tom Sharkey has been heard from, in answer to a telegram sent him by Manager Kennedy of the Twentieth Century Athletic Club offering him a fight with the winner of tomorrow night's battle. He agrees to meet the winner on December 30. Sharkey will start for this city within a few days.

The clergymen's association has adopted strong resolutions against the fight. Some of its members have asked the city officials to stop it and have been politely informed that the police will doubtless interfere if the sparring match should develop into a brutal prize fight.

BRAZIL FAVORS YANKEES

Discriminates in Our Favor Against Argentine Flour.

NEW YORK, Nov. 14.—The Rio Janeiro correspondent of the Herald cables: The Chamber of Deputies has passed a bill increasing the duty on flour imported in bags instead of in barrels.

There was a lively discussion over the measure. It was contended that flour, imported in bags, is apt to contain dangerous germs, but this assertion was combated vigorously.

One member of the Budget committee frankly declared that the object of the bill was to protect United States producers against the Argentine. After the vote had been taken several deputies shouted: "The Yankees have routed the Argentines."

Public opinion and the newspapers generally disapprove of the new law as it is known that flour from the United States arrives in barrels, while the Argentine product comes in bags.

Newspapers of Buenos Ayres unanimously condemn the measure and remonstrances will be filed by the Argentine millers.

RUSSIA HAS LIED

NEW YORK, Nov. 14.—A letter appears in the London Times, a synopsis of which has been cabled to the New York Times from a correspondent who has just passed over the whole route of the trans-Siberian railway.

The writer intimates that the Russian declarations regarding the completion of the line are untrue. He says there are many gaps in the permanent track, the large bridges are not completed and three tunnels have scarcely been begun. The construction trains frequently leave the rails.

NEW YORK, Nov. 14.—Two former governors of New York, David B. Hill, and Frank S. Black, met in argument today in the court of general session on the motion to quash the indictment charging Roland B. Molineux with murdering by mailed poison Katherine J. Adams. Hill opposed the motion to quash. Black pressed the motion in behalf of the alleged poisoner, General Edward Molineux, the father of the prisoner who was in the court.

TURKEY IS THE CAUSE

Of Existence of Brigands

In Balkan States -- So Says Bulgaria's Prime Minister

The Bulgarians Want to be Friends With America.

NEW YORK, Nov. 14.—Petko Karavaleoff, the Prime Minister of Bulgaria, has just been interviewed by the Sofia correspondent of the Journal and Advertiser. Said the Prime Minister:

For humanitarian reasons the Minister of the Interior has undertaken to tolerate a friendly intercourse between the brigands, however indirectly, but we wish to stretch a point for America and the cause of humanity.

The brigands, wherever they are can now treat unmolested by the American Republic and safe conduct will be given to any man or men recommended by Mr. Dickinson.

"There is no brigandage in Bulgaria. Turkey is the cause of the brigandage, pillage, murder and massacres in Macedonia. Condition there is intolerable. Europe has been in a vicious circle regarding Macedonia. Since the Berlin treaty, all the powers agree that Macedonia should have autonomy, but none is willing to move in the matter. Count Andrassy of Austria was more to blame than Lord Beaconsfield at the Berlin conference for the present condition of Macedonia which is crying to heaven for vengeance.

"France patches up her quarrel with Turkey, oblivious of liberty, equality and fraternity for Macedonia; Germany is entangled with all matters out with Turkey; Europeans themselves may break the vicious circle and break Turkey's cruel boast 'We took you by the sword, by the sword we shall hold you.' All we ask for Macedonia is autonomy. We do not ask annexation.

"If the American people knew the kind of heinous barbarities perpetrated by Tukey in Macedonia the voice of the nation which freed Cuba and fought the most chivalrous and unselfish war of modern times would awaken the cabinets of Europe to a sense of their duty regarding Macedonia.

In conclusion the Premier said that he wished the United States would establish consulates at Sofia, Varna and Philippopolis, particularly at Bulgaria is entirely agricultural and needs American agricultural implements.

TURKEY TURNS TO THE BEAR

Abdul Hamid Opening Negotiations With the Czar.

NEW YORK, Nov. 14.—The Odessa correspondent of the London Times and the New York Times says an extraordinary mission from Czar Porie to St. Petersburg will leave Constantinople this week. AUSTRIAN TALKS ON BOERS

Believes the War Will End by June Next.

NEW YORK, Nov. 14.—An interview with an Austrian merchant who has just returned from South Africa is reported by a Vienna correspondent. The merchant believes the war will last another six months but does not think the Boers will hold out beyond next June. He believes they would be glad to make peace if they obtained substantial autonomy.

He says the British should not allow the boogies to retain the gold mine region which should be permanently under British rule. This observer also declared that Mr. Kruger kept up the Afrikaner Band by means of wealth derived from the gold industry. He says if the former President loses his money he will soon lose his friends.

NEW YORK, Nov. 14.—A Brussels cor-

respondent says the Standard, the Dutch newspaper which is the official mouth-piece of Dr. Euper, The Netherlands Premier, insists that the administrative council of The Hague tribunal is incompetent to offer its good offices in connection with the Boer appeal for arbitration. The Boers must know perfectly well, says the paper, that their appeal will not be received.

DENMARK TO CRUSH AMERICA

Considering Most Effective Method--May Search Long.

COPENHAGEN, Nov. 14.—The Government of Denmark is considering the most effective methods of retaliating against the United States should diplomatic representations in behalf of the Danish chocolate exporters fail. The exporters allege an over valuation of chocolate by the New York customs officials. They deny that Denmark pays a bounty on chocolate and claim that Copenhagen should be accorded the same treatment as America gives to other free ports.

The brigands, wherever they are can now treat unmolested by the American Republic and safe conduct will be given to any man or men recommended by Mr. Dickinson.

So Says a Resident of Shanghai, China.

NEW YORK, Nov. 14.—Emil S. Fisher, many years connected with the Deutsche Asiatic Bank of Shanghai recently addressed the students of the School of Commerce, Accounts and Finance of New York University on "The Commercial and Business Methods of China." In introducing the speaker, Dean Haskins referred to the Chinese problem as one of extreme gravity and complexity.

"We are scarcely able," he said, "to comprehend the Oriental or Orientalism and the situation is not yet appreciated in the United States or in Great Britain. The dragon which many suppose to be dead is full of vigor and vitality and resources." Mr. Fisher in his address said foreign importers confine their business mainly to the treaty ports.

This is to Certify Crippled and Many Years an Invalid.

To whom these persons shall come, free of charge. About fourteen years since, at the age of 12, I met with an accident which caused an injury to my spine and pelvic bones which resulted in the forward curving of my shoulders and hips, a shortening of the waist and displacement of internal organs, and shortening of about two inches of one limb between the knee and hip. In addition to the outward appearance of my body as here described in March, 1890 I was taken with a severe attack of La Grippe from the effect of which I suffered greatly with my lungs and heart, and when in May, 1891 I came to and began treatment with Dr. J. P. Cook my condition was about as follows:—Could perform no manual labor, could not stoop to pick anything from the floor. Could get about the house only with difficulty, and getting up stairs was next to impossible. Could see my limbs only with difficulty and one of them was much wasted. My nervous system was badly wrecked. Had constant and severe pain in lungs and heart, no appetite, could sleep only in broken spells, and in many ways suffered almost constant and insupportable agonies. In short I was so much dead as alive. Evidently to my attack of La Grippe I was indebted for a period of years by many physicians to no effective purpose.

My personal appearance at this time is straight in the back as a spine. My wasted limb restored to normal size and but little more than half an inch shorter than the other. I have free use of my limbs and can go up stairs one foot after the other with perfect ease. My track is limbering. Can stoop to the floor with ease. Can get about and do plenty work with ease. My appetite is good. Sleep soundly and am absolutely free from pain.

Having lived in Dr. Cook's family for nearly a year I have seen much of the effect of his treatment upon others, and can truly and honestly recommend his method and his moral character to all in any way afflicted. The doctor's treatment in this case was wholly confined to his botanical remedies, and I thoroughly believe that the recovery was the result of his method. The best method of treatment being employed.

Lillian Rosenbaum has lived in this vicinity about nine years. We, the undersigned, are personally acquainted with the above and thoroughly subscribe to the truth of the foregoing statement.
