How to D0 the Business

Every farmer has eou ething to sell that he can turn into money and there are plenty of people who want that particular thing. Many have land to sell or rent, stock to sell or rent on shares, money to lend on real estate, fruit to sell in the orchard, young stock to dispose of, horses or breeding cattle eating their heads off, that some one would buy if they only knew where to find them. Here is the way to get the business going that will save you trouble, put you long on cash, save you time, wear and tear on teams and travel, have people coming to you instead of your running after them :- : : : :

Write down is as few words as possible just what you have to sell or want to buy, from a wife up.

Put down your full name and postoffice ad-dress by mail, so that people can write you, and your location so that people can come to see you.
