LATEST NEWS OF THE WALLA WALLA DISASTER

Most Conservative Estimate Says 10 are Dead and 29 Missing.

ANOTHER ESTIMATE SAYS 73 PEOPLE HAVE PERISHED IN THE WAVES

The Name of the Colliding Bark is Not Yet Known --- The Government Cutter McCulloch Has Gone to the Scene.

SAN FRANCISCO, Jan. 4.—It is not yet known how many perished in the wreck of the steamer Walla Walla which was run into and sunk by an unknown French bark off Cape Mendocino. The most conservative statement placed the number of dead at 10 and includes 29 in the list of missing. Another estimate is that no less than 73 persons are yet unaccounted for. Those believed to be dead are:

Mrs. Hermann Kotschmar, wife of Lieutenant Kotschmar.
Mrs. H. Reynolds, stewardess.
Mrs. H. Erickson and three children.
Louis H. Druby, of San Francisco.
E. L. Nuttman, purser.
William Bertel, fireman.
John Wilson, also known as Hans P. Anderson, quartermaster.

The list of the missing, whose fate is still in doubt, includes the following:

H. Erickson, laborer; Dr. S. F. Allen and White; J. L. Field; J. A. Gray; Charles Noff of Seattle; W. Duhler; D. Jones; J. Brown; F. Demar; C. Gleason; M. C. Marsh; G. Nicholson; M. Hauselman; Chief Officer Peter Nielsen; Second Mate Frederick Lupp; Third Mate John Hughes; Fourth Mate Cecil Brown; Chief Engineer George H. Crosby; Second Assistant Engineer B. F. Potter; Steward John Connell; Boat Swain A. Holmes; R. Nelson; M. Haare; J. Rooney; M. Callaghan, Santiago Mariello, Pantryman; Frank Beardson, Porter; John Shiel; P. Naccetti, Frank Rhode; Walter; Edgar Reis, waiter; J. Holloway; T. B. Williams; Walter; S. O. Johnson, George Morrison.

There are still on the ocean so far as known, two rafts. If either of these has been picked up the number of supposed victims will be very materially decreased. Sixty two of the passengers and crew were picked up by the steam schooner Dispatch, 23 survivors drifted ashore near Trinidad and 17 others were rescued by the tug Ranger.

Captain Hall, who went down with the vessel but came to the surface and was saved, thinks that some of the missing may yet be heard from. The fact that the bark which caused the disaster did not stand by to aid the Walla Walla indicates to sea faring men that she must be seriously disabled, if indeed, she remains afloat. Her identity is not known, nor is it likely to be determined for some time, as there are several French vessels answering her description.

LATER.—Of the six life rafts launched by Walla Walla, three and a portion of another were found and their occupants rescued by the schooner Dispatch. On this little fleet hard battles for life were fought. One was half the time two feet under water; on another a man went mad, and attempted self-destruction.

This is to Certify

State of Oregon)
County of Marion) ss: [Salem, Ore., Aug. 24, 1901]

Crippled and Many Years an invalid.

To whom these presents shall come, Greeting:

That I, LILLIAN ROSENTHAL, do hereby certify that I have been afflicted with a severe and chronic disease of the spine and pelvic bones which resulted in the formation of bony growths and hip, shortening of the waist and displacement of internal organs, and shortening of about two inches of one limb between the knee and hip, in addition to the outward appearance of my body as shown in the photograph attached to this certificate. In August, 1901, I was taken with a severe attack of the disease from the effect of which I suffered greatly with my limbs and back, and when in May 1901 I came to and began treatment with Dr. J. F. Cook my condition was about as follows:— Could perform no manual labor, could not stoop to pick anything from the floor, could get about the house only with difficulty, and getting up stairs was next to impossible. Could use my limbs only with difficulty and one of them was much wasted. My nervous system was badly wrecked. Had cough and severe pain on lungs and heart, to appetite, could sleep only in broken spells, and in many ways suffered almost constant and intolerable agonies. In short I was as much dead as alive. Previously to my attack of the disease I was treated over a period of years by many prominent physicians, but without any benefit. My personal appearance at this time is shown in the photograph attached to this certificate. I had an inch shorter than the other, have few use of my limbs and can go up stairs only with the other with perfect ease. My back is lengthening. Can stoop to the floor with ease. Can get about and do pretty much any and everything other well people can do. My appetite is excellent; sleep soundly and am absolutely free from pain.

Having lived in Dr. Cook's family for nearly a year I have seen much of the effect of his treatment upon others, and can truly and heartily recommend the doctor and his method of treatment being employed.

LILLIAN ROSENTHAL
Lillian Rosenthal has lived in this vicinity about nine years.

We, the undersigned, are personally acquainted with the above patient and cheerfully subscribe to the truth of the foregoing statement.

PANAMA CANAL COMPANY

Will Offer Their Property to America.

New York, Jan. 4.—Informant from a trustworthy financial source has reached the Paris correspondent of the Tribune to the effect that the board of directors of the Panama Company, yesterday definitely adopted one of the alternative resolutions submitted by M. Bannau-Verilla—namely to offer for sale the property and franchises of the Panama Company at the price named by the Isthmian Commission, \$40,000,000.

Today (Saturday) a special meeting of the board will be held to draw up cable instructions embodying the above offer, which will be immediately transmitted to the representative of the company in Washington. This form of offer will be officially communicated to the United States Government Saturday evening or Monday morning.

With a strong European power established in the South and a great world power in the North, the too exuberant aspirations of Pan-Americanism would be checked, saving our empire from a grave menace.

"In conclusion, the Review points out that the United States will inevitably gobble up the weak turbulent states southward when it is certain to formulate a Pan-American tariff union against the remainder of the world and then controlling Cuba, Porto Rico and the Isthmian canal, convert the Caribbean sea into an American lake."

Will Try for the Record

New York, Jan. 4.—According to the officers of the Kron Prinz Wilhelm the new fast steamer of the North German Lloyd line, which sails today for Plymouth, Charbourg and Bremen, an effort will be made to beat on this voyage her past performances in the way of speed. So far she has beaten every transatlantic record in either direction except those of the Deutschland and she will probably try for those on this trip. The vessel is running on the short route.

BRITISH GERMAN ALLIANCE

Advocated by a London Paper

To Check Our Overwhelming Predominance.

Fears We Will Gobble Southern Republics.

LONDON, Jan. 4.—The Saturday Review today prints a remarkably free spoken editorial in which it strongly advises Great Britain to form a working alliance with Germany in order to check the "continued and apparently inevitable advance of the United States into South America."

According to the Review, "it is the wisest policy for this country to encourage the advance of Germany in the new world as the most useful counterpoise to the overwhelming predominance of the United States, which is the only possible outcome of the existing political conditions."

The Review disclaims all hostility to the United States, but says: "The solid interests of our own people which is the basis on which the United States always works, is the only sure ground on which to build."

Continuing, the Review says: "If we would only remember that the Americans are to be believed when they describe themselves as actuated by purely business conditions we would save ourselves from a large number of gratuitous humiliations and unprofitable speculations in stocks having no real market value; viz: the presumed gratitude of political and commercial rivals."

JOHNSTON, Pa., Jan. 4.—Because of a wrong signal from the Ninewah tower last night the fast East-bound Pennsylvania mail and express train ran into a slow freight ahead, a few minutes later a West-bound freight crashed into the wreck, causing the death of four persons and the serious injury of at least five others. The four dead are:

Amos G. Black, engineer; Wm. Paul, fireman; Robert S. Nolan, first brakeman; James Winters, engineer.

It is announced that Peter Cooper Hewitt, the grandson of the philanthropist and millionaire has invented a new light which in some ways revolutionizes illumination methods. Briefly stated, the illuminant is the perfection of the high power electrical gas or vapor lamp, which until now has existed more in theory than in practice.

Hard Colds

Hard colds nearly always lead to something serious. They run into chronic bronchitis, pneumonia, consumption. Doctors know this. That's why they so generally approve of Ayer's Cherry Pectoral. They tell us they cannot prescribe anything that cures coughs so quickly.

"Ayer's Cherry Pectoral cured my daughter of a very bad cough after we had tried about everything else without relief."—E. B. Davis, Providence, R. I. 25c. 50c. \$1.00. J. C. AYER CO., Lowell, Mass.
