EDITORIAL

THE SATURDAY DOUBLE JOURNAL.
It was the largest and best daily paper ever printed as an ordinary week-day edition in this city.

A number of advertisements had to be refused on account of getting in too late. Two of the best ad. compositors in the city were employed Friday afternoon and evening and Saturday, setting advertisements.

There was a complete and full page of live editorials—not written from reference books and encyclopedias—but hot off the bat, keg drawn—not storage reservoir stuff that can be printed this year or next.

There were columns of matter about Salem as the growing capital city of the state—a place where business is doing and where people want to go to live and to do business.

Several hundred copies have been sent east by live real estate men to persons with whom they were in correspondence the past week to bring more people to Salem.

Take your copy of the Saturday Journal and mark what you think will interest your eastern friend, write your name on the paper and send it to someone you know wants to come to Oregon.

Next Saturday's JOURNAL will be just as good. It will contain notes of all the improvements and deals in dirt and prospects of new buildings and development of enterprises.

It will do your heart good and your business good to be in that paper if you are not in the regular daily and weekly edition.

The Saturday JOURNAL will be a weekly Push number. It believes in devoting one whole issue each week to pushing this town.

THE IDIOTIC REGISTRATION LAW
While it is the only registration law we have and ought to be respected, still it deserves to be held up to scorn to prevent ever enacting another such a piece of legislation.

Its operation this year will probably make it so unpopular that it will be repealed and a sane law enacted. One-third of the voters will never be got to the polls under its workings.

The writer was out two years ago for two weeks getting voters registered, and knows what he is talking about when he says that the registration law is a device, not a right to vote.

It is especially severe on foreign-born citizens, and those of foreign parentage who are slow to get out and vote at all times. They will not take the trouble to register, and submit repeated proofs of citizenship.

The result will be that only such will be registered as the political managers and party managers drum up and get registered at their own expense. Politics is thus to be corrupted at the start.

It was as hasty, ill-digested, raw and uncooked a piece of lawmaking as Oregon has ever been cursed with, and illustrates the proneness of would-be lawmakers to rush through something for which they think there is a clamor.

The Australian ballot provides a registration system that is not an obstacle to getting out the vote. A registration officer is appointed by a court of record for each precinct who makes up a roll of voters.

It is cheaper and more rational for one official to make up the roll in the precinct where he lives and knows everyone than for each voter to have to go and hunt up the officer and register himself.

We pay a man to enroll the school children in each school district, but we expect the voter to go and hunt up the registry officer. It is a slight estimate we put on the value of a voter.

The farcical registration law should be amended by the Australian plan.

LET THE ALLEYS BE CLEANED.

The city council should enact a simple and efficient ordinance to compel the cleaning of the alleys at least once a year. This is the time of the year when it should be done.

The ordinance should provide for an official inspection, a condemnation by publication, a notice by publication to the owners of the abutting property that the alley shall be made clean and wholesome.

If the owners do not make the alley correspond to the city's requirements of cleanliness within the prescribed time, the alley should be forthwith put in order at expense of the property under city direction.

Many of the alleys in the city have never been graded and drained and are standing mudpuddles and drainage ditches for stable manure and residence and barnyard refuse. They are a menace to good sanitation.

The ordinance should provide for the grading and drainage of the alleys. They should be made dry and clean and passable and kept so, as much as the streets. If not by the abutting owners, then by the city.

The alleys are as much the property of the people as the streets and the people have a right to have clean streets and alleys. Filthy conditions lead to diseases that carry off the unfortunate and it is then called an act of Providence.

The first right of the people in any city is to have clean streets, alleys, and good sanitation. Next water and light

should be furnished to all at cost. But that is another matter. The first duty of this city is to have the alleys cleaned, graded, drained, fifth hauled off, rubbish burned. If we are a Christian community let us at least aspire to public official cleanliness of premises.

JOURNAL X RAYS.

Don't ask your neighbor if he is civilized. Ask him if he reads a live paper like THE JOURNAL.

Tip Humphrey, of the Jefferson Review, says he isn't afraid a saloon will be opened in his town.

Clean up the alleys and citizens should rake up any old rubbish in front of their premises and burn it.

The Salem Woman's club is to have an official membership in the civic league of the state to work for cleaner cities.

Is there no way to remove old man Tillman of South Carolina? Hasn't he made about trouble enough in this world?

It ought to dawn on some people that what a college needs to succeed in this age of the world is less preaching and more business.

A man subscribed for this paper yesterday for no other reason than that it had opinions of its own and sometimes tried to express them.

By a new discovery a person who is too nervous can have his nerves removed by electricity. It seems to work the other way on the managers of light companies.

The senatorial question should be settled before the legislature ever assembles, or the people will pay dearly for the privilege of having political representation in the upper chamber at Washington.

The Eugene Register says, against the proposition by a Mitchell paper to knife Moody for congress if he can't be defeated for the nomination, that the time has come for the knifing process to end in Oregon politics.

The Geer administration would be far more attractive with some so-called Re-like the Davis defalcation, or had loaned public money to some rotten banks, or kept Eddie Giltner in a position to pass around trays of \$2.50 pearl-handled pocket-knives.

A Salem Republican paper makes war on the Geer tribes. There seem to have been three or four generations of them, and scattered all over the state. They seem to have been continually multiplying and spreading into other old and respectable families. There seems to be no way to stop it. They are to die—1 numerous.

The other day on the train the X-ray man passed a camp of white men along the railroad track near Junction, lying half naked around a fire, drying their rags and cooking food they had begged or stolen. Near them were working a gang of Japanese coolies and section hands well fed, well clothed but getting coolie wages. Shut out the Chinese, is a good proposition. But what consistency is there in letting the big corporations shut out the white laborer on his ballots, and in time of revolution have to be guarded by the white man's bullets and bayonets? There is a great fraud lurking back of the loud mounted anti-Chinese agitation that organized labor seems to be blind about.

BACKACHE

Is only one of many distressing symptoms which point to the presence of womanly diseases. If women thoroughly understood the relation of the local womanly health to the general health, they would understand that backache, headache, nervousness, sideache, dizziness, faintness and similar feminine ailments, cannot be cured until the womanly health is established.

Dr. Pierce's Favorite Prescription cures diseases peculiar to women. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. In curing these local diseases, it cures the ailments which they cause; backache, headache, sideache, dizziness, faintness, nervousness, and other ills peculiarly feminine.

"I wrote you for advice February 24th, 1898," writes Mrs. Emma Hallock of Claremore, Cherokee Nat. Ind. Ter. "I was racked with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicine, and I was cured. Golden Medical Discovery and Pleasant Pellets, also gave advice about injections, baths and diet. To my surprise, I feel much better from the time I began your treatment. I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard work."

Weak and sick women are invited to consult Dr. Pierce by letter free. Address Dr. R. V. Pierce, Buffalo, N. Y.

Funeral of Paul Klingele

A large number of friends and relatives of the late Paul Klingele attended his funeral Sunday at 2 p. m. It was held from the residence of his wife's parents, Mr. and Mrs. Jacob Amser, on South Liberty street.

Friends of the departed brought many beautiful floral gifts, and he was remembered as a man who was beloved by all who knew him.

Deceased was born in Baden, Germany, August 20, 1859, came to the United States in 1884, locating in Wisconsin. He came to Oregon in 1885, and was united in marriage with Miss Louisa Amser at Salem in 1888. Two years ago he went into business at Glendale, Ore., with H. G. Sonneman of this city.

After evangelizing, read the 15th Chapter of 1st Corinthians. In his funeral discourse he referred in most feeling terms to the sad circumstances of his death in his prime of manhood, after a brief illness of only fifteen hours. He leaves a son and widow to mourn his untimely death.

A large delegation of the Foresters of America assembled at their court room and marched in funeral regalia to the Amser residence on South Liberty street, taking charge of the funeral from the house to the cemetery, where Chief Ranger Hamilton conducted the burial service.

The Foresters were joined by a large delegation of Woodmen of America, who with the Foresters furnished the pall bearers. The remains were laid at rest in Rural Cemetery.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sores, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S. S. S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system a constant drain upon the system.

When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

SSS is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and even though your suffering. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.
