This is to Certify. State of Oregon, the Salem, Ore., Aug. 24, 1901. Crippled and Many Years an Invalid. About fourteen years since I was afflicted with a severe rheumatism which caused an injury to my spine and pelvis bone which resulted in the formation of a tumor on my back and a shortening of the waist and displacement of internal organs, and this condition gradually became worse until I was unable to walk and my appetite could sleep only in broken snatches, and in many ways suffered almost insupportable indescribable agonies. In short I was as good as dead alive. Previously to my attack of La Grippe I was treated over a period of years by many physicians to no objective purpose.
