This is to Certify. Sale of Oregon. In Salem, Ore., Aug. 24, 1890. Crippled and Many Years an Invalid. I was born with a weak spine and an injury to my spine and pelvic bone which resulted in the formation of curved shoulders and hip shortening of the waist and displacement of internal organs, and shortening of about two inches of one limb between the knee and hip. In addition to the outward appearance of my body as above described in March, 1890 I was taken with a severe attack of La Grippe from the effect of which I suffered greatly with an lungward heat, and when in May 1891 on an to and back treatment with Dr. J. P. Cook my condition was about as follows: Could perform no manual labor, could not stoop to pick anything from the floor. Could get about the house only with difficulty, and getting up stairs was next to impossible. Could use my limbs only with difficulty and one of them was much wasted. My nervous system was badly wrecked. The cough and severe pain on lungs and heart, no appetite, could sleep only in broken spells, and in many ways suffered almost constant and insupportable agonies. In short I was as much dead as alive. Previously to my attack of La Grippe I was treated over a period of years by many physicians to no effective purpose. My personal appearance at this time is sketched in the sketch as anyone. My wasted limb restored to normal size and but little more than half an inch shorter than the other. Have free use of my limbs and can go up stairs one foot after the other with perfect ease. My weight is increasing. Can stoop to the floor with ease. Can get about and do pretty much any and everything other well people can do. My appetite is splendid; sleep soundly and an absolutely free from pain. Having lived in Dr. Cook's family for nearly a year I have seen much of the effect of his treatment upon others, and can truly and cheerfully recommend the Doctor and his medical skill to all in any way afflicted. The Doctor's treatment in this case was wholly confined to his Botanical Remedies, constitutionally administered. To resort to the use of knife, mechanical appliances or other method of treatment being altogether rejected. LILLIAN ROSENBAUM. Lillian Rosenbaum has lived in this vicinity about nine years. We, the undersigned, are personally acquainted with the above patient and cheerfully subscribe to the truth of the foregoing statement. ROSENBAUM, father. ROSA HASKIN, mother. A. V. ROSENBAUM. Subscribed and sworn to before me on 24th day of Aug. 1901. Seal attached. W. W. HALL, Notary Public. By A. McULLOCH, Deputy.

MILES WILL BE RETIRED

Roosevelt Decides to Have His Head. Vote on the Oleo Bill This Afternoon. Abner McKinley Denies Christmas' Charge.

WASHINGTON, April 3.—(Special to the Journal).—The oleomargarine bill passed the Senate by a vote of 39 to 31. WASHINGTON, April 3.—It was learned this morning from a source of unquestioned authority that the president has decided definitely to retire General Miles. The date of retirement is the only question not determined. The president is inclined to postpone his action until after the adjournment of Congress, although he may decide to issue the order within the next few days.

McKinley Pleads Innocence. WASHINGTON, April 3.—Abner McKinley, brother of the late president, was the first witness before the special House committee of investigation of the charge of bribery in connection with the purchase of the Danish West Indies this morning. Captain Christmas, in his report, referred to the witness as one of those connected with him in the scheme to further such purchase. McKinley testified he had no contract or understanding of any kind with Christmas, and denied he had ever brought the matter to the attention of the president. Representative Gardner, of New Jersey, who was also mentioned in the report, denied any and all connection with Christmas, direct or indirect. Richard Evans, who was mentioned in the report as representing Gardner, he saw but once. Evans asked him whether he thought the United States would buy the Danish West Indies, and he replied that, judging from the newspapers, nothing would be done. Col. W. C. Brown, whose name was associated with McKinley's, also made a complete denial.

Denmark Denies Christmas. COPENHAGEN, April 5.—It was officially announced today that the Danish ministry has had no dealings with Captain Christmas. The Premier, though Christmas had called, refused to see him, or to receive a report of his unauthorized negotiations for the sale of the Danish West Indies. Ohio Senators Sore. WASHINGTON, April 3.—The friends of the oleomargarine bill, after a canvass of the Senate, say they have enough votes to pass it. It will, however, be by such a narrow majority that not until the final vote is announced late this afternoon will either side breathe easy. They say the fate of the bill depends largely on the vote of the two senators from Ohio, who are in receipt of many messages commanding them to vote for the measure. This attempt to dictate how they shall vote has angered them, and both may vote against the measure.

Against the Boers. WASHINGTON, April 3.—It was admitted at the state department this afternoon that a communication had been received from Governor Hoard, of Louisiana, relating to the use of Port Chalmette as a mobilization station for mules and horses intended for use in the British Army in South Africa.

Body of Cecil Rhodes Lies in State. CAPE TOWN, April 3.—The body of Cecil Rhodes is lying state in the Parliament House today. Thousands of persons have passed through the hall to get a last view of the dead. The city is draped in deepest mourning. Rhodes' funeral services will be of a most imposing character. Tonight the body will be carried to Matoppo Hills, where Rhodes requested his body should lie.

SEASIDE RESORT AFLAME

Gay Atlantic City Fighting Fire. Damage Will Reach Many Millions. Society Butterflies Have Fled the City.

ATLANTIC CITY, N. J., April 3.—An insignificant blaze broke out this morning in the rear windows of a hotel spread and was fanned by a strong breeze until it developed into a conflagration that at one time threatened the entire resort. At 2 o'clock, after a fierce fight and the destruction of ten hotels, the Academy of Music and Young's pier, the firemen got the blaze under control. In addition to many stores, part of the famous "board walk" and some bathing houses were destroyed. Thieves took advantage of the terror-stricken inhabitants and began to loot the stores and hotels. The police arrested a number of thieves, and then a company of militia was ordered out. It was rumored that three musicians employed in the Hotel Berkeley, after leaving the place in safety, returned to save their instruments, and were burned to death. The report was not confirmed. The fire was the worst ever experienced here.

More than a dozen buildings have already burned. The hotels were crowded with Eastern vacation guests, all of whom rushed into the street, and as far as could be learned, none were injured. At 1:30 the loss was estimated at two and a half millions, and the fire was still raging. About three blocks have been consumed, and a strong gale is blowing up the coast. When it became apparent that the fire was uncontrollable, many guests took trains out of town. The greatest excitement prevailed among the residents and property-holders. Young's great pier and the Academy of Music are now in ashes. The fire is still spreading at 1 o'clock, and the conflagration forms a wonderful spectacle for the thousands on the beach.

At 1:30 the fire has spread to both sides of New York Avenue, and the situation grows more desperate every instant. Flames are licking up the famous board walk. At this hour the following hotels, in addition to the Academy of Music and Young's pier, are destroyed: Luray, Carleton, Windsor, Stickney Bryn Mawr, Stratford and Berkeley. It is said a number of people were imprisoned by flames at the end of Young's pier, but whether or not they escaped in boats is unknown. Later—the fire is now under control. Ten hotels were destroyed. The people caught at the end of Young's pier are all saved.

At 3 o'clock the fire in the Windsor hotel burst forth again, and it is feared the fire will spread to the Hotel Traymore. In the list of hotels burned are also the Rio Grande and Holland. It is now estimated that the loss will not exceed one million and a half.

Rebels Show Bold Front. SANTO DOMINGO, Republic of Santo Domingo, April 2.—The revolutionists who, on Monday, captured the town of Barbona, and were later dislodged by troops from a government gunboat, have entrenched themselves in a stronghold near that town, and are making a bold front, despite the hard blows received from the federal forces. Many of the rebels were taken prisoners, including some of the leaders. Nearly fifty were killed and wounded in the attack on Barbona.

Changes in Quartz. "Farther down Monumental creek the formation changes into quartz and porphyry, and on Big Creek and Ramsey Creek the formation again changes, enormous iron dikes cutting in. Together with several others I own two claims in Fitzgerald gulch, on Monumental creek, about twelve miles claims were located three years ago below the Dewey property. The and, for the work done, the claims by a prospector we had grub-staked, show up finely. Last year we started a tunnel designed to cross-cut the vein at a depth of 150 feet. We ran the tunnel in 42 feet last summer, and figured that fifteen feet more would strike the ledge. In making the tunnel we passed through several bodies of iron ore, which were all but pure metallic iron. Even last summer all the ground surrounding the Dewey mine, and along Monumental and Big creek was apparently taken up by the prospectors. I shall not try to go in much before the first of June, when it will be possible to get provisions and mining supplies into the district."

Returned Home from the East. Mrs. C. P. Bishop returned this morning, via the New Orleans route, from a seven-months' visit in the East. The major part of the time was spent by Mrs. Bishop at Philadelphia with her sons, Clarence and Roy, who are attending the Philadelphia Industrial School, and acquiring a practical knowledge of textile manufactures.

Dr. Price's Cream Baking Powder. Superlative in strength and purity. Improves the flavor and adds to the healthfulness of the food. PRICE BAKING POWDER CO., CHICAGO. NOTE.—There are imitation baking powders sold cheap by many grocers. They are made from alum, a poisonous drug, which renders the food injurious to health.

Prince Henry Will Attend. BERLIN, April 3.—An official note just published announces that Emperor William will be represented at King Edward's coronation by Prince Henry of Prussia. Prince Henry will be accompanied by his wife, on the special invitation of King Edward.

Cleared of Bad Charge. MOUNT HOLLY, N. J., April 3.—The jury in the case of Mrs. Mabel Haines, accused of beating her 3-year-old step-child to death, returned a verdict of not guilty this morning.

WILL RIVAL KLONDIKE. Thunder Mountain Miner is Enthusiastic. Ward L. Farnsworth, of Lewiston, Idaho, who spent nearly three months of last summer in the Big Creek district, is of the opinion that Thunder Mountain will witness the greatest mining rush occurring anywhere since the Klondike excitement. Mr. Farnsworth said to a Tribune reporter recently:

"I look upon the whole region embracing the middle and south forks of Salmon river, and extending as far south as the summit of the Sawtooth mountains as the most promising field for the mining operator. I was all over the country last summer, and can say that during many years of experience in mining regions I have never seen another like it. Pick up float on any of these hills, and an assay will disclose value. The ore will contain gold, silver, copper, lead or iron, and perhaps several of these. Parties coming in after a brief stay will say it is a country all porphyry, or all feldspar, or lava ash—depending much on what part of the district the narrator was in.

"They are all right in part. About Gold Hill, where the Dewey properties are located, the formation is compressed lava ash and porphyry, with a capping of black iron lava, much of which has been eroded away. It is noticeable that the hill tops show, by their sugar-loaf form, from the volcanic origin and disclose the direction of prevailing storms by being broken away on the west and south sides.

"Farther down Monumental creek the formation changes into quartz and porphyry, and on Big Creek and Ramsey Creek the formation again changes, enormous iron dikes cutting in. Together with several others I own two claims in Fitzgerald gulch, on Monumental creek, about twelve miles claims were located three years ago below the Dewey property. I shall not try to go in much before the first of June, when it will be possible to get provisions and mining supplies into the district."

CONTEST GROWING WARM. Many Ladies Mentioned for Journal Prize. The Winner May Go to the Show in Style. The second day's voting shows added interest in The Journal's contest for the box at the "Taming of the Shrew," April 10th, and there is much speculation here as to who will get the prize. The Journal is pleased to announce today that it has engaged Mr. Simpson's elegant new rubber tread cab to convey the prize-winner and her friends to and from the opera house. This insures the young lady and her chosen circle a comfortable evening, rain or shine. Several new names are in the race today, but it is so early that it would be difficult to form any definite idea as to who will carry off the prize.
