

ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by their circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day.

SALT RHEUM

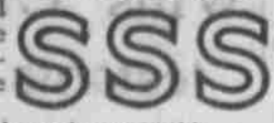

commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Letter, and often attacks the hands and feet.

TETTER

in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications.

ACNE

deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter (eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

S. S. S. contains no minerals but is guaranteed purely vegetable. Write us if you need medical advice; this will cost you nothing. Illustrated book on skin diseases sent free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Old Post Office Grocery.

The Bicycle Boom

Is on Again

But it is not the same sort of "boom" that prevailed a few years ago. It's an intelligent boom this time. People are not buying blindly or riding bicycles simply because it is the fad or fashion to ride them, nor to see how far or how fast or how many miles they can ride. They ride because they now realize that the bicycle is a health-giver, a pleasure-promoter—because there is nothing else that affords such invigorating, every-ready and economical means of obtaining that outdoor exercise and change of scene that counts for so much in the well being of mankind. The people now indulge in bicycling because it is a tonic—because it enables them to think clearer, hit harder, sleep sounder and feel better generally.

OTTO J. WILSON

135 Court Street.

F. J. Goode

Salem's Greatest House Furnishing Department Store.

The great increase of freight shipments received at Salem is due to the large sales of Charter Oak stoves, made by the sole agent in this city.

FIELD PEAS

We have a superior article in the way of Canada and Blue Prussian Field Peas, and our prices are the lowest going.

SEED WHEAT

We are prepared to furnish Foley and DeLancey seed wheat in any amount. SPELTZ—if you want a grain that will make a large quantity of feed try Speitz.

LAND PLASTER AND FERTILIZER—Remember that we are headquarters for anything in this line.

WEDNESDAY, APRIL 9, 1902.

Daily One Year, \$4.00 in Advance. Daily Three Months \$1.00 in Advance. Daily by Carrier 50 cents Per Month. Weekly 913 Year \$1.00 in Advance.

EXPANDING EVENING JOURNAL

The Journal is favored with a copy of the Galesburg, Ill., Evening Mail, which shows the rapid expansion of afternoon journalism. The Mail is in its own building, has a perfecting press and linotype. The Mail has twelve pages of interesting matter, and large advertisements. It is strong in news and local features, and has an entertaining editorial page. It is published in one of the old centers of political and historical interest of the grand state of Illinois, and sends its cordial greetings from the cornucopia fruit growing center of the Willamette valley, in Western Oregon.

DIRECT NOMINATION BURE TO COME

The Republican state platform demands the extension of primary reform all over the state. What is the meaning of the Lockwood law? There is a great danger in that system being extended. The Lockwood law legalizes ring rule, and puts the expense of the primary on the taxpayer. It requires slates to be made by the managers, and then puts all the slates, Republican, Democratic and Independent, on one ticket. In all Multnomah county only 700 Democrats voted the Democratic primary ticket. The rest, several thousand, took part as Democrats, but voted with one Republican faction or the other.

The Lockwood primary law was supposed to be a reform measure, passed by the citizens' delegation of the last legislature. It resulted in the most highly centralized political despotism ever exercised in Oregon. It has only reference to the Portland primary and some held at Salem and Woodburn, and other parts of the state, was that the Lockwood law legalizes the fraud, and saddles the expense on the county. Direct nomination, as proposed in the Republican and Democratic platforms of Marion county, is the only remedy. A direct nomination should be prepared in Marion county and passed.

REPLY TO A BANKER ON STATE POLITICS

An Oregon banker writes The Journal a letter that has so many good points that, although he tells us it is not for publication, we print some of his sentiments. Just where he is a good business man may look at politics. We print his letter and some comments in reply for readers of The Journal to consider. "I have received several copies of the Journal calling attention to the exorbitant amounts received by our state officials from the treasury. While your article is commendable, and I am convinced that it will be entirely fruitless, and my reasons are partly as follows: "The party in power (no matter under what name) are perfectly satisfied with the situation, because they are getting all the proceeds. The party out of power are not satisfied, but they expect to be well pleased with it when they get in power, as they always hope to be soon. The public is a patient ass, and pays taxes as long as they have the money to do so with a sort of mild wonder that their tax should be so high, but with about the same idea that they can do anything about it as a horse has that he can avoid being saddled and bridled. The official class have the power, pretty well sized up as to the amount they can pay without breaking down under the burden, and know that as long as they do not go beyond this limit the people care very little what is being done with the money, knowing that if it does not go into one form of 'grat' it will go into another. They also know well that the people of any locality can be placated by turning a little stream from the public treasury in their direction, as every section has some need, worthy or otherwise, that they can get in for, and they feel they feel highly elated when they get it, even if to get one dollar for themselves they help some other part of the state to get ten dollars. Property has no sufficient representation in our form of government. This leads to the great question of universal suffrage, but as long as the majority of voters pay little or no taxes, the majority will have a free hand, and property must hide, lie, and offset one politician against another.

In flush times, as at present with most people, taxes are easily paid, and a full treasury is merely a good mark for officials to shoot at. This makes easy vast appropriations of the people's money." In replying to this banker The Journal said in part: "Pressure of other duties have delayed answering your letter until the present, and I enclose an article that has been copied from our paper into the Democratic News at Boise. I will say as to my efforts to put our state officials on a flat salary, I have done that as a matter of principle and of practical politics. I believe in politics and in fighting for actual results in the way of better government with any weapon that comes to hand. We have got the plank in the Republican state platform, into nearly every county platform, into the Socialist state platform, and it will be made prominent in the Democratic state platform. The fight has got to be made in the state legislature and courts.

"What you say about the official class knowing how far they can go in burdening the people, and knowing how to placate them by turning a little appropriation in their direction is only too true. But there is a limit even to the gullibility of the people in the way of throwing them appropriations. A certain amount of normal schools and higher education is all right, but it must be absolutely justified by the average that people of other states spend on those matters, in proportion to their wealth and population. Oregon is top-heavy with politicians and light-weighted in conservative influences. Hence we are paying about seven mills state tax, when other states get off with two or three mills, and some none at all.
