

Contagious Blood Poison

Is the name sometimes given to what is generally known as the BAD DISEASE. It is not confined to dens of vice or the lower classes. The purest and best people are sometimes infected with this awful malady through handling the clothing, drinking from the same vessels, using the same toilet articles, or otherwise coming in contact with persons who have contracted it.

It begins usually with a little blister or sore, then swelling in the groin, a red eruption breaks out on the body, sores and ulcers appear in the mouth, the throat becomes ulcerated, the hair, eye brows and lashes fall out, the blood becoming more contaminated, copper colored spots and pustular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones.

POPULAR VOTE ON SENATORS.

A Salem correspondent, writing of Governor Geer's candidacy for the United States senate, just after the state convention said: To one looking at the present situation from the outside it would seem that the time is now favorable for the launching of the Geer boom. The only avowed senator is C. W. Fulton. It has been Fulton's idea that the people should express their choice for a senator, and to that end he believed that the senatorial candidate should be voted for in June. Now it happens that Geer counts his chief political strength in the ranks of the common people, far removed from the influence of politicians. It is quite in the cards, therefore, that Geer and Fulton will be opposing senatorial candidates before the people at the general election in June. By an act of the last legislature it is provided that names of candidates for United States senator may be placed upon the official ballot, the same as the name of the candidates for state office, and that the result of the vote shall be certified to the legislature for its information. The names be placed upon the ballots either by nomination in a convention or by petition.

TIEMON FORD

Was now introduced, and said this was a move to get a reform, that both political parties in Marion county had unanimously demanded. Many bills to reform the primaries had been offered in the past, but before they got through the legislature they were killed or so full of holes that they were not effective. The people who live in a precinct have little or nothing to say as to who shall represent them at the county convention. The question always was, who will we select to make the slate, and handle the money in the primaries? The use of money was forced upon candidates, not because they wanted to do wrong, but because the system was bad, and it was a notable fact that the man who had the sack generally downed the man who had none.

PLANNING FOR CLEANER POLITICS.

(Continued from first page.)

tions down to the present time, "in these latter days especially." Today to get a nomination a candidate had to consult a few managers. The direct nomination system was more needed than any other reform to purify politics. It was easy for the people to nominate candidates as it was to nominate delegates.

He read from his last message a passage in favor of direct nomination, saying that covered his sentiments. He expressed himself with vigor in favor of electing senators by direct vote of the people. This got a warm round of applause. He got in some hot shot at party bosses and those who make a business of managing politics.

Judge R. P. Boise Spoke next, and said while not many were present, but a great many more than usually took part in making nominations. Progress of the times, the spirit of the press and public sentiment demanded the abolition of direct nomination. He denounced the delegate system as wrong. How came the delegates on the ticket? Who put them there? There was a caucus back of the primary. It was usually a few men in some back room or law office. Direct nomination left no chance for the machine. The machine always had an ulterior object in view—a selfish object, while the people were generally unselfish. There was no buying proxies. Laughter. Direct legislation and direct nomination were two measures that were most needed by the people of Oregon, and if enacted would result in reducing taxes by one-half.

Judge N. J. Judah Said direct nomination would do away with delegated authority, and restore sovereignty to the people. Representatives in these days arrogated to themselves more power than was delegated.

Primary were controlled by ward heeler and hunchmen, and the people had party tools forced upon them who were not their agents, but the servants of bosses and manipulators. Direct nominations alone would remedy this.

The citizen should have the same right to secretly and silently pass his judgment on aspirants for nomination that he had to do so on election day by the Australian ballot. The state-maker was an underground dictator. He was warmly cheered for his remarks.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.
