

Many of Our Boys and Girls are Suffering This Month From the After Effects of Winter Grippe

Wise Parents Provide Paine's Celery Compound For Their Loved Ones

The Wonderous Medicine Quickly Expels all Germ Poisons from the Blood and Fortifies the Weak and Run Down System.

A busy city physician, enjoying a large annual income, remarked the other day that a host of young people—boys and girls—were suffering this month from the after-effects of winter grippe.

Dear parents, have any of your children suffered from the attack of the cruel monster grippe, during the past winter months? Are your boys and girls irritable, feverish, pale or weak? Have they cold and clammy limbs? Is the blood watery, impure, or sluggish? Is the appetite poor and digestion weak? Has the rose tint of health faded from the cheeks? If any of these conditions are noted, be assured the drugs of deadly grippe are implanted in the system.

If your children are not blithesome, happy, boisterous, and strong in May, their condition calls for prompt action on your part. Their future—health and physical happiness or sufferings and early death—is in your hands, dear parents, and you alone are responsible to Heaven and the community of which you form a part.

When winter grippe has implanted seeds of virulent diseases, the first and most important work is to expel from the blood every trace of poison. This is always successfully accomplished by the use of Paine's Celery Compound.

This marvelous medicine after purifying the foul and stagnant blood, acts as a nerve food. It builds up the nervous system and nourishes all the bodily tissues.

Boys and girls with such a start in life as they always receive from Paine's Celery Compound grow up as sturdy as forest oaks; they revel in strength and true life; they are fair to behold; they make the men and women most needed by our country. Do your part this month, dear parents, with promptness and honesty, and rest assured Paine's Celery Compound will not fall in its grand work of health building.

DIAMOND DYES Purest, Strongest, Simplest, Fastest of all dyes.

WILLAMETTE HOTEL ARRIVALS.

- B. H. Cooper, Chicago. C. C. Cheeny and wife, Ohio. W. A. Bell, Princeton. C. H. Adams and wife, Minneapolis. L. Moreheim, San Francisco. W. W. Clayton, Portland. D. D. Warner, Portland. Thos. Collinson, Portland. J. D. Meyer, Portland. Mr. and Mrs. H. E. Judge, Portland. A. L. Clarke, Portland. Geo. Sorenson, Portland. J. O. Keating, Portland. W. J. Culver, city. I. W. Power, San Francisco. Oliver C. Thornton, San Francisco. J. W. Wright, McPherson, Kans. R. B. Brownell, St. Louis. J. J. O'Malley, city. G. A. Moulden, city. Chas. Corby, Seattle. Nannie Toan, Lyons, Mich. Mrs. J. P. Emerson, Stockton, Cal. Emerson J. Treanor, Stockton, Cal. K. C. Johnson, San Francisco.

A Few Pointers. The recent statistics of the number of deaths show that the large majority die with consumption. This disease may commence with an apparently harmless cough which can be cured instantly by Kemp's Balsam for the throat and lungs, which is guaranteed to cure and relieve all cases. Price 25 cents and 50 cents. For sale by all druggists.

Shake Into Your Shoes Allen's Foot-Ease, a powder. It cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package free. Address Allen S. Olmsted, Le Roy, N. Y.

Groceries Must Be tried and passed upon. Our goods in every line have won the verdict so often that many people merely send us their orders, and we answer for their satisfaction. Deal with us and join the Smilers' Club. BRANSON & RAGAN.

The White House Restaurant is the up-to-date eating house. Meals served to order, and open day and night. Give us a call, at 104 State street.

SALEM SOCIAL WORLD AND PERSONAL MENTION

Calendar of Local Events. May 16—Greater Salem Commercial Club rally at city hall. July 4—Greatest celebration in Oregon at Salem.

Minister Praises It. It is a notable fact that scores of ministers who have witnessed a performance of "Too Rich To Marry" praise it in the highest terms. The praises from the pulpit mark the comedy as one of good morals, but does not rob it of the opportunity of sparkling with humor. There is no reason why a minister should not enjoy a good, clean comedy, as well as the theatre-goer not of the cloth.

And there is no reason why a minister should not be a good critic, perhaps better than the average. The Rev. Justin Goodene Wade, pastor of the Congregational church, of Oneida, Ill., is one of a half hundred divines who have given their stamp of approval to the comedy. He said after witnessing a performance: "The picture comedy 'Too Rich To Marry,' by Edwin Owings Towne, was the best and most interesting entertainment we have ever had the pleasure of enjoying." The comedy "Too Rich To Marry" will be at the Grand Opera House Tuesday, May 13th.

Parasites Cause all Hair Troubles. Nine-tenths of the diseases of the scalp and hair are caused by parasite germs. The importance of this discovery by Professor Unna of the Charity Hospital, Hamburg, Germany, can not be over estimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff; because they do not, and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing, making the hair glossy and soft as silk.

PERSONALS. E. M. Croisan is in Turner today. J. B. Anderson is in Albany on business today. Mrs. C. A. Sehlbrede has returned from Portland. Mayor and Mrs. C. P. Bishop went to Albany this morning. Miss Olga Hewitt, of Albany, is visiting Dr. Grace Albright. Mrs. H. A. Dearborn is visiting with her daughter, Mrs. Scott Bosorth. Mrs. C. T. Pomeroy has returned from a visit with Portland relatives. J. W. Wright, a real estate dealer of McPherson, Kansas, is in the city, the guest of Capt. J. Q. Barnes. Mrs. T. E. Cornelius has gone to Hillsboro to attend the funeral of her father, the late Rev. Wm. Smith. LeRoy Gesner and Miss Leo Nicklin have gone to Corvallis to play with the Portland Symphony Concert Orchestra for the May Festival. Mrs. J. P. Emerson and grandson, Emerson Trainer, of Stockton, California, are visiting with her daughter, Mrs. J. Conner, at the Willamette. A. W. Hoover, who has been stationed at Salem for several weeks, has gone to Walla Walla to take charge of the local office of the Singer Sewing Machine Company.

INDIAN SKELETON FOUND

Gruesome Discovery by a Salem Nurseryman

T. D. Jones, the East State-street nurseryman, unearthed a human skeleton Monday afternoon while removing earth from his suburban property near 24th street, bordering on the Southern Pacific penitentiary switch track. The skeleton was found in a sitting position beside a large fir stump, and the greater part of the human framework was found intact. The skull, ribs, hip bones and bones of the lower limbs were all found, and in a decomposed state. It is more than probable that the body had been buried for many years. It is generally believed that the skeleton is that of an Indian. Since there were no circumstances of a suspicious nature connected with the finding of the bones, no official examination was had.

PUNISHMENT.

Social progress has done away with a great many forms of punishment once administered under the laws of enlightened people. But nature never changes and she still has her penalties. She still has the same punishment for the man who neglects or abuses his stomach as she had in the far off days when Adam delved and Eve span. The physical discomfort, dullness, sluggishness, irritability, nervousness and sleeplessness which are visited upon the man who eats carelessly or irregularly have been from the beginning the evidences of disease of the stomach and its associated organs of digestion and nutrition. Dr. Pierce's Golden Medical Discovery cures the diseased stomach and enables the perfect digestion and assimilation of food, so that the sleeplessness, irritability, nervousness and sluggishness which result from malnutrition are cured also.

Will Secure New Members

Company F. O. N. G., has arranged for a membership contest, in order to secure a full complement of members before the start of the summer encampment at Albany in July. With the usual demand for membership that exists when an encampment or other pleasure jaunt is in store, it is not likely the home company will have any difficulty in securing the eight men that are needed to give the organization a full membership of 65 officers and men. The company is still without a captain and second lieutenant, and an election to fill the vacancies is expected to be held soon.

Carpenters In Strong Union

The Salem carpenter's union is in a flourishing condition. It now has a membership of 58, sixteen candidates having been received into the organization at its last meeting, and the charter will be kept open for another two weeks, for more new members. The union holds meetings over Steiner's grocery store.

ORCHARD, BERRIES SPRAYING

Reports as to Strawberry Crop.

The Oregon experiment station at Corvallis is sending out bulletin 69, entitled "The Codling Moth and Late Spraying in Oregon," by A. B. Cortley. Every apple grower in Hood River should send for a copy. Mr. Cortley sums up his conclusions in the following paragraphs: The codling moth is our most serious apple pest. It is likely to be a serious pest wherever the apple can be successfully grown. Apple-growing regions now free from it are not likely to long remain so. The average percentage of fruit injured by the codling moth is not greater in Oregon than in other apple-growing regions. There are but two annual broods—not three or four, as stated. Owing to irregularity of development these broods overlap so that the larvae may be found in fruit from the time the first wormy apples occur in the spring until after the fruit is gathered. The eggs are deposited principally on the surface of the fruit, and not in the calyx. At Corvallis egg-laying does not begin until towards the end of June. It probably does not occur when the evening temperature falls much below 50 degrees, and is probably most active when such temperature is above 70-80 degrees. Probably a considerable number of larvae pupate under clods and rubbish on the ground. Birds are the most effective natural aids in controlling the codling moth. No benefit is to be expected from the introduction of foreign birds, or from artificial use of fungous or bacterial diseases. Spraying with some of the arsenites is the most practical method of protecting fruit from the codling moth. It is not only practical but it is necessary to spray for the second brood. Persistent intelligent spraying should give 85-90 per cent of fruit free from worms. Our best orchardists do even better. Clean, smooth trees, clean cultivation, sheep or hogs in the orchard, screens over the doors and windows of store rooms, and banding the trees are efficient supplements to spraying.

Scientific investigation, supplemented by experience, has shown that urinary diseases are more prevalent and destructive to life, health and happiness than any other class known to the medical fraternity. They are not confined to the low and degraded portions of humanity, as many suppose, but are to be found among the pure of heart, the innocent, the truly pious and the wealthy. Many of them are transmitted from parents to children, from generation to generation. Thousands of people suffer untold agony from their ravaging effects and meet an early and untimely death, often ignorant of the cause. Though transmitted innocently, the effects of these diseases are none the less terrible. It is sad truth that the innocents are often greater sufferers than the guilty. Of all the organs of the body few are more important than those engaged in the urinary functions. In perfect health—that great blessing which so few enjoy—one will scarcely direct a moment's thought to those important organs, and at the first unpleasant symptom good advice, such as may be easily obtained, should be immediately solicited. Among the chief and most common diseases are seminal weakness and nervous disabilities, or loss of nerve power. Thousands of young men and middle-aged men suffer with nervous diseases for years and may be ignorant of the cause, when a little timely advice would make life's pathway full of cheer and happiness. When the first symptoms of seminal weakness manifest themselves the sufferer is noticed to become dull and morose, and is troubled with indigestion, though the appetite may remain good. But the strength vanishes, and the patient grows thin. He becomes indolent and debilitated, and loss of memory and all vigor of the sexual organs may follow. In time he may fall into impotency—total loss of sexual power. Among its terrible effects may be mentioned loss of memory, confusion of ideas, nervous despondency and general weakness. It needs no mirror, it reflects itself. The pale face, the sunken eyes, the downcast countenance, the stooping, aged form—all serve to announce the victim's troubles. It seldom kills of itself, but opens the gates to other diseases, such as consumption and diseases of the heart. The unfortunate cannot sleep. In that intermediate stage, between life and death, intended for the recuperation of the mind and body, he can know no rest, for his dreams are dark and foreboding, and the constant drain upon his system robs it of its vital fluid. This affliction may be the result of excess on mature years. A "man is but a bundle of habits," how essential he should start right in life, that his mind should be full of sublime thoughts and pure conceptions. All of you who suffer from this disease should lose no time in consulting Dr. Darrin, for the time may come when you will be beyond the aid of medical skill. No matter what you have taken, or who has failed to cure you, call and see the doctor, as he can permanently, safely and privately cure you in one-half the time, and at one-half the expense required by others. Dr. Darrin can be consulted free at the Willamette Hotel until July 6th. Hours 10 to 5 and 7 to 8 daily. The poor treated free, except medicine. The cure of seminal weakness, lost manhood, varicose, hydrocele, tumors, gleet, gonorrhea, syphilis and stricture, a specialty, as well as all chronic diseases. Batteries and belts furnished if necessary. Eyes tested free and glasses fitted.

FOR MEN ONLY. New Cure for Their Diseases and Infirmities. Scientific investigation, supplemented by experience, has shown that urinary diseases are more prevalent and destructive to life, health and happiness than any other class known to the medical fraternity. Strawberry Crop Reports. Hood River, Ore., May 5, 1922.—Editor Glacier: Reports from the various strawberry growing sections furnish us the following figures: The Florin, California, crop is estimated at 135,000 crates of 15 pounds each, being 30,000 more than last year. The season is just beginning, and is about two weeks later than last year. The Milton crop is estimated at 18,000 crates and the Walla Walla 18,000, making 36,000, which will be ripening about May 20th and last four weeks. The Utah crop is larger than usual, and, like the balance, is late. Will begin in a small way about the 1st of June, and last about three weeks. VanBuren, Arkansas, was selling their berries in car lots on May 1st at \$2.60 f. o. b., and expected the price to be \$2 the following day. The season will be short and will be followed by shipments from Minot and Searsville, which will run into the early part of June. The Colorado crop will be larger than last year, and is also late. These are the principal strawberry producing sections that affect the markets for Hood River berries. Dealers in all the large markets are willing to buy berries f. o. b. Hood River after having learned positively that they would not be shipped on any other basis. DAVIDSON FRUIT CO.

But the strength vanishes, and the patient grows thin. He becomes indolent and debilitated, and loss of memory and all vigor of the sexual organs may follow. In time he may fall into impotency—total loss of sexual power. Among its terrible effects may be mentioned loss of memory, confusion of ideas, nervous despondency and general weakness. It needs no mirror, it reflects itself. The pale face, the sunken eyes, the downcast countenance, the stooping, aged form—all serve to announce the victim's troubles. It seldom kills of itself, but opens the gates to other diseases, such as consumption and diseases of the heart. The unfortunate cannot sleep. In that intermediate stage, between life and death, intended for the recuperation of the mind and body, he can know no rest, for his dreams are dark and foreboding, and the constant drain upon his system robs it of its vital fluid. This affliction may be the result of excess on mature years. A "man is but a bundle of habits," how essential he should start right in life, that his mind should be full of sublime thoughts and pure conceptions. All of you who suffer from this disease should lose no time in consulting Dr. Darrin, for the time may come when you will be beyond the aid of medical skill. No matter what you have taken, or who has failed to cure you, call and see the doctor, as he can permanently, safely and privately cure you in one-half the time, and at one-half the expense required by others. Dr. Darrin can be consulted free at the Willamette Hotel until July 6th. Hours 10 to 5 and 7 to 8 daily. The poor treated free, except medicine. The cure of seminal weakness, lost manhood, varicose, hydrocele, tumors, gleet, gonorrhea, syphilis and stricture, a specialty, as well as all chronic diseases. Batteries and belts furnished if necessary. Eyes tested free and glasses fitted.

FOR MEN ONLY. New Cure for Their Diseases and Infirmities. Scientific investigation, supplemented by experience, has shown that urinary diseases are more prevalent and destructive to life, health and happiness than any other class known to the medical fraternity. They are not confined to the low and degraded portions of humanity, as many suppose, but are to be found among the pure of heart, the innocent, the truly pious and the wealthy. Many of them are transmitted from parents to children, from generation to generation. Thousands of people suffer untold agony from their ravaging effects and meet an early and untimely death, often ignorant of the cause. Though transmitted innocently, the effects of these diseases are none the less terrible. It is sad truth that the innocents are often greater sufferers than the guilty. Of all the organs of the body few are more important than those engaged in the urinary functions. In perfect health—that great blessing which so few enjoy—one will scarcely direct a moment's thought to those important organs, and at the first unpleasant symptom good advice, such as may be easily obtained, should be immediately solicited. Among the chief and most common diseases are seminal weakness and nervous disabilities, or loss of nerve power. Thousands of young men and middle-aged men suffer with nervous diseases for years and may be ignorant of the cause, when a little timely advice would make life's pathway full of cheer and happiness. When the first symptoms of seminal weakness manifest themselves the sufferer is noticed to become dull and morose, and is troubled with indigestion, though the appetite may remain good. But the strength vanishes, and the patient grows thin. He becomes indolent and debilitated, and loss of memory and all vigor of the sexual organs may follow. In time he may fall into impotency—total loss of sexual power. Among its terrible effects may be mentioned loss of memory, confusion of ideas, nervous despondency and general weakness.
