DR.PRICE'S Gream Baking Powder

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cause doctors' bills many times this.

Dr. Price's Cream Baking Powder is the most economical in the end, because it goes further in leavening and insures perfect, wholesome food.

Used always in making the biscuit and cake it saves both health and money. Made from pure, grape cream of tartar, most healthful of fruit acids.

If this election does not go exactly as Mr. Furnish's friends would like to have it in Marion county, they can lay it to the Oregonian's course in the treatment of Governor Geer. He has maintained a guarded silence, under an oppressive fire of

persecution before the Republican convention, and ever since. He was perfectly willing to smother his disappointment at not being renominated, and go to work for the ticket, if he had been given

any assurance whatever that it would have been received in a friend-But he got assurance of not being treated otherwise than with con-

tempt, and was plainly told the party had such a large majority in the state that his services were not needed.

Was that good party wisdom, was that consideration for the phts of a safe governor, and a successful leader of the party who had built up that majority in the state for Republicanism? Republicans generally can see what the endorsement of this kind

political management will lead to, and if they want to have any party organization whatever left in Oregon, will rebuke Furnish and Scott, and will give Governor Geer an unanimous vote for United States senator.

Such contemptible methods as this ought to cost Furnish enough Rep ibl .an votes right here in Marion county to defeat him.
