Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

SSS

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

The great bargain sale at Friedman's, No. 307 Commercial street, has taken hold of the laboring men's hands in the way they are buying our gloves and many of them wearing pants have captured our suspenders, for the quality and price suit them. The people buying our hats are not subject to sunstroke, and those who earn their bread by the sweat of their brow know where to get their handkerchiefs, at Friedman's. For durability and strength, Friedman's socks take the walk, for they get stronger every day you wear them. Remember the place.

Friedman's

307 Commercial Street.

ROLLMAN

CHERRY SEEDER

THIS perfect Cherry Seeder does not crush the cherry or cause any loss of juice; a practical machine for large, small or California cherries. The seed extracting knife drives the seed into one dish and actually throws the cherry into another. The marks of the knife can scarcely be seen on the seeded fruit. It seeds from 20 to 30 quarts per hour. Retail price, 85 cents.

FORECAST OF THE ELECTION.

With the best information The Journal could gather from every county, and estimating Marion and Multnomah counties a stand-off, we figured out a plurality of 325 for Chamberlain over Furnish Sunday evening.

It is apparent that the election of Governor will largely hinge on the action of the voters in Portland, and the effect that the Socialist vote will have on the result.

From the best information that we can gather Chamberlain and Godfrey will both be elected. At every polling place in the city of Salem the first ballots that went into the box were for Chamberlain. He will receive a large silent vote.

But, with a large majority to overcome, the election may be very close, and may result in a contest over the count in the courts and the legislature.

There is no specific provision of the constitution in case of a contested election over the office of chief executive.

GO AHEAD BUILDING UP SALEM.

Now that the exciting campaign is over all true and loyal Salemites should press forward the work of building up this city.

The Fourth of July celebration must be made a great success, and must be made a red-letter day in the history of the city.

The Greater Salem Commercial Club work must be pushed, and every citizen who is not a member and rests his hopes here should join.

Join hands with the Capital City Improvement League to make this a happier and more beautiful city to live in.

The next election is the school district election on Monday, June 16th, when a director is chosen for six years.

Let the right man be brought forward, and let us all unite to improve our public schools until they are as good as the best in the state.

This school district has a cash surplus. Interest has been reduced. There is no inconsistency in improving the schools, and improving the finances of the district and benefitting the taxpayer.

Let us make for the schools the same record for efficiency that we have for our city. That means that we shall have the best public schools in the state. That will build up Salem more than anything else.

LATE REPORTS SUNDAY NIGHT.

A telephone message Saturday evening to The Journal stated that Harney county would give Chamberlain 100 plurality.

A telephone message from Port Orford said Curry county would give the Republican ticket 75 plurality.

J. B. Delsman wrote from Tillamook that Chamberlain would cut down the Furnish majority in Tillamook to a very small plurality.

From Clatsop county came the word Sunday that Fulton's friends were abandoning Furnish, and doing all they could to save Fulton and the legislative ticket.

Wasco county: Chamberlain will run far ahead of his ticket, and may get this county.

The indications from all over the state are that the direct legislation amendment will be carried by a large vote—practically no one voting against it, so far as can be learned.

TO BE OPENED UNDER THE OLD "RUSH" SYSTEM.

The general land office has decided to open the bulk of the Fort Hall Indian reservation, Idaho, under the old "rush" system on July 17th. The president has issued a proclamation to this effect. The lands of the reservation have recently been surveyed and classified. It is estimated that about 300,000 acres are agricultural or grazing lands, containing more or less mineral, which will be entered under the homestead, timber and stone and mineral laws. All of these lands will be subject to the "rush." There are about 60,000 acres within the five-mile limit of Pocatello, which are to be sold at public auction, and will be opened during the scramble. All entries of land will be made at the Blackfoot land office. The department has decided that it is without authority to carry out the lottery methods at Fort Hall which was so effectual in Oklahoma last summer.

WILL AID SERVANT GIRLS.

A number of Chicago women who have their own ideas about the servant girl problem, and hope to reach some solution of that all important question, have just formed the Chicago Housewives' Association. The originators of the project are Mrs. August Levy, the president, and Dr. Mary A. Seymour, and they believe that the successful carrying out of their plans will tend to adjust household affairs by bringing about harmonious relations between mistress and maid, the association being formed for the express purpose of consulting the mutual good of employer and employe. Mrs. Levi says the object is to aid and protect the worthy and deserving domestic, and to improve her condition, while at the same time they will give the housewife hope for something definite, reliable and efficient in the way of service.

Many efforts have been made along these lines, but all have failed, Mrs. Levi believes, because in every instance they have worked for the exclusive interests of the housewives or for the exclusive interests of the servants. There is to be nothing of that selfish idea, however, in connection with the present movement, and the organization being for the benefit of employer and employe alike, it is believed it will secure general and hearty support. In New York City they have a German Housewives' Association with some 6000 members, and the scheme has worked to perfection there, the condition of the servants being much improved, while at the same time the housewives are being given the very best service. Rewards are to be offered the servants for faithful work, and if, for instance, a girl stays with one family for ten years, and performs her work faithfully and well, the association will give her $100 in gold. The new organization already has several hundred members, and the plans have thus far worked to perfection. The report a year from now will be still more interesting.

William J. Bryan is home again after a visit to Cuba to see the new republic launched and incidentally to give the Republican editorial paragraphers something to write about. He is unlike some of those statesmen of the Depew brand who are tumbling over each other to get a good seat at the coronation of King Edward, the inauguration of a plain republic having more attractions for the Nebraska editor and orator. Mr. Bryan says that the natives exhibited superior patriotism during the ceremonies. Further, he says he believes the United States would eventually give the Filipinos a government of their own—an expression of faith in our institutions that is entertained by many people.

Even as the inhabitants of Havana were rejoicing over the birth of their new republic a fiend incarnate was present in the form of a bomb thrower and eleven persons were injured. The authorities htus have at the very outset work to do ferreting out and punishing these arch enemies of society.

Injuries to the human heart, long considered fatal, are now successfully treated, and some surgeons have even gone so far as to say that they are no worse than any other muscular wound, the danger being the same in both cases, that of bleeding to death. It is claimed that the heart can be operated upon with less danger than other internal organs.

A prominent vegetarian makes this simple statement. To cure a horse of stiffness in forelegs and shoulders, feed him midlings or good bran until he gets well. He will get well in a short time. This will cure stringhalt, some kinds of weak eyes, knee sprung or contracted tendons and knuckling.

The president of Cuba will receive a salary of $25,000 a year New York, New Jersey and Pennsylvania are the only states in the union whose governors receive $10,000 salaries. But then Cuba, with one-quarter of New York's population, is a republic!

Sir Henry Irving has launched the keenest criticism against the Bacon lan theory, and it can be put in a sentence. He says that it took an actor to write Shakespeare's plays, and that no mere poet or philosopher could have done it.

Governor Odell is reported to have an offer of a position at a salary of $100,000 a year from Mr. Harriman. But the New York governor may prefer to run again this fall rather than go into the retirement of business life.

The very acme of cleverness in concealment was reached by a circus man in a Pennsylvania town lately, when he managed to hide a herd of 19 elephants from a constable who was hunting them with a writ of attachment.

Public ownership has made more progress in European cities than in the United States. In Great Britain 931 municipalities own their own water works, 99 their street railways, 40 their gas works and 181 their electric plants.

Now the Nicaragua canal route is opposed on the ground that Lake Nicaragua, a portion of the proposed waterway lies in close proximity to a volcano. Ocean steamers can't travel very fast through lava lakes.

A pumping engine has just been removed from a Birmingham, England, canal station, where it had been in constant service for 120 years. The record is said to be unparalleled in the history of steam power.

A woman with a bomb in her hand was recently observed in the neighborhood of the czar. Her arrest must be regarded as a compliment to her sex, as it involved faith in her ability to throw the thing.

Texas is living up to her reputation. Another negro burned at the stake down there the other day. That is Texas' solution of the race problem. And a woman witnessed the performance!

At Cassville, West Virginia, they have had a rain of snakes. The "mountain dew" down that way must be powerful stuff to drink.

"Ping to me only with thine eyes, and I will pong with mine." That's the way they are playing the game over in Lunnon.

Bishop Fallows says that Chicago is not so wicked as London, and, while this probably is true, it will make Chicago mad.

JOURNAL X-RAYS.

The British government has gratefully accepted the offer by the United States of a warship to bring home the body of Lord Pauncefore, late British ambassador at Washington.

* * *

Loyds Register, the world's authority on shipping, has given away the secret of the ship subsidy bill. It shows that the United States Steel Corporation is the largest owner of vessels in this country, and the fifth largest in the world.

* * *

The beef trust has already found that extortion does not pay, as it is making less from high prices than it did from low ones. Sales have decreased in a manner that no one could have forgotten, and the lesson learned by the other trusts, to make low prices and many sales, has come to the meat packers with a chilling force.

* * *

The famous Tillamook case of Kate E. Parker against Claude Thayer, administrator of W. W. Thayer, deceased, was compromised in Portland, where the case had been transferred on a change of venue. The plaintiff alleged that she was engaged by W. W. Thayer during his lifetime as his stenographer, the understanding being that for her services Mr. Thayer was to buy her a house and lot. She looked over locations and finally purchased a lot for $1000. She claims that altogether there was only $308 paid her and that the administrator of the estate refused to recognize the claim.

Roosevelt to the Church.

Here is what President Roosevelt thinks the church should do and what it should be:

There is more and more tremendous work looming up before the churches of this city which the churches must do. Our civilization has been progressing for right, and for some ways for which we have less cause to be proud. Industrial success has brought us face to face with many problems which have before puzzled the wise heads of other nations. The forces for evils, as our great cities grow, become more concentrated and menacing to the people. They must be met and overcome by forces for good that have grown in a corresponding degree.

More and more the churches have got to realize that they must shape these forces for good. In this work-a-day world we must largely judge men by their fruits. We cannot accept a crop of thistles as indicating fig trees. We must look to the church to benefit the whole land. The church must make itself felt through the life-work of its members, not merely on Sunday, but on week-days; not only in church, but at home and in business. Business and the church can go together. "Business is business" is said to excuse business rascality.

We expect to see the results of the advantages you have had in church life. We have a right to know that you not only speak righteousness, but do righteousness at your home and at large.

Women Bar Prominent Books.

At a meeting of the Hull House Women's Club of Chicago, held recently, there was a spirited and lengthy discussion on the subject of books and other reading material for children, and the organization finally put its ban on a number of prominent and well known works, including some of the books of Kipling and Mark Twain. The discussion was brought about by the fact that a seventeen-year old boy was sentenced to prison for life in Chicago a few days ago, and it was conclusively shown that, by reading dime novels and trashy literature, this boy had been led astray and finally became a murderer. Little was said in the discussion against dime novels, however, and most of the time was spent in criticising Kipling, Twain and Jules Verne. It was declared that Twain's "Huckleberry Finn," that you surely read when you were a boy, is not fit to be placed in the hands of any young person, and it was also agreed that "Tom Sawyer" should be tabooed, while "Roughing It" and "Innocents Abroad" would be permitted. Kipling's "Jungle Book" and his animal stories were declared to be all right for perusal by the young mind, but the ladies agreed that his other stories must be barred. It was declared that Kipling made heroes of unworthy men, and holds up to youth most undesirable examples.

As to books of war, and stories of adventure, a character of literature now very popular with Young America, those who took part in the discussion agreed that their effect was unfavorable and tended to make boys brutal. It was declared that the works of Jules Verne all supply too much food for the imagination, and lead the mind to wander to things that are not backed by the truth. It was stated that the reading of good newspapers would interest and at the same time instruct the young people, but it was added that all stories of crime should be eliminated from the papers given them. Good reading has made many a good man, and bad reading has made many a bad man. The discussion is timely and important.

It is a good advertisement for vegetarianism that a pedestrian who doesn't eat meat came in first in the international walking match between Berlin and Dresden. The winner made the 125 miles in the record-breaking time of 27 hours, 13 minutes and 14½ seconds. This beats the famous run of the Greek from Marathon to Athens, 140 miles in 48 hours.

Pennsylvania at one time had something like a monopoly of the production of nails, but in 1901, out of a total of 1,365,934 tons of wire nails produced, the share of that state was only 386,037 tons. It is significant of the westward and southwestward trend of the manufacturing industry that Kentucky, Alabama, Ohio, Indiana and Illinois produced over 800,000 tons of this class of nails in the year named.

Bed Time

I take a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. It is made of herbs, and is prepared as easily as tea. It is called Lane's Medicine. All druggists sell it at 25c and 50 cents. Lane's Family Medicines moves the bowels each day. If you cannot get it, send for free samples. Address, Orator Woodward, LeRoy, N. Y.

"Have you observed that man who has been abusing you?"

"Yes," answered Senator Sorghum with a great deal of interest. If I wanted anybody abused I don't know but I should hire him in preference to anybody I know of."—Washington Star.

Shake Into Your Shoes

Allen's Foot-Ease, a powder. It cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It is the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package free. Address Allen S. Olmsted, Le Roy, N. Y. 2

HOSTETTER'S Stomach Bitters

Is a specific remedy for ailments of the stomach, liver and bowels and is backed by hundreds of voluntary testimonials. We would therefore urge every sufferer from Indigestion, Dyspepsia, ache or Liver and Kidney trouble to try it. It will cure you. For sale by all druggists, with our Private Stamp over the neck of the bottle. Avoid substitutes.

NEW USE FOR ELECTRICITY

Electricity, long used in the laboratory for experimental purposes only, is fast coming before the public as an agent of great value in the arts and in the affairs of everyday life. By electricity power to drive machinery can be utilized at the distance of miles from its source, and by electricity—thanks to Mr. Edison's recent discoveries—our streets and houses are lighted more brilliantly than by gas. While all these results are evident to the public at large, there is still another field in which the use of electricity is rapidly working a profound reformation—the field of medical science. The following remarkable cures, performed by Dr. Darrin, show the new uses for electricity:

Catarrh, Bronchitis and Consumption Cured.

Mr. Editor: I will lend my name to the long list of cures performed by Dr. Darrin. Fifteen years ago catarrhal and bronchitis troubles commenced to annoy me, and seven years later a complicated lung trouble showed itself. All efforts to cure were fruitless, until coming under Dr. Darrin's electrical treatment eight years ago. I am happy to say I am cured. I attribute my long-continued good health to the healing influence of electricity, which restored me to a permanent sound condition. I am news agent on the Southern Pacific R. R., and will gladly answer questions at my home in Mount Tabor, Or.

J. A. LINDSLEY.

The Following Letter Speaks Volumes for Dr. Darrin's Mode of Treatment:

Dr. Darrin, Dear Sir: It is with great pleasure and a thankful heart I wish to inform you that I am cured of salt rheum, which I have suffered with for 25 years, at times so bad that my hands would crack to the bones, and my body was also affected. I have no words that can express my thankfulness to you. Mrs. E. Sherretts, of Vancouver, Washington, has known my condition, and can be referred to. Refer any one to me at Gardiner, Or.

Very respectfully yours,
MRS. MARTHA DAILY.

$1000 Squandered.

Mr. Editor: I feel it my duty to say that Dr. Darrin cured my wife, years ago. She had been affected for 30 years with kidney complaint, diabetes and pain in the back. Many physicians had given her up, after having paid out over $1000 for her treatment. We only saw Dr. Darrin one time. He gave her remedies and advice, and from that day to this her symptoms have never reappeared, and I am so pleased with his treatment that I have placed her under his care for deafness. I live near Medford, Oregon. C. MORRIS.

Dr. Darrin's Place of Business.

Dr. Darrin gives free consultation at the Willamette Hotel, Salem, until July 6th, from 10 to 5 and from 7 to 8 daily. All curable chronic, acute and private diseases confidentially and successfully treated. Circulars and question blanks sent free to any address, and correspondence solicited. Most cases can receive home treatment after one visit to the doctor's office. Batteries and belts furnished, with full directions for the use. Cross eye, rupture, tumors, varicocele, hydrocele, seminal weakness and stricture cured. Diseases of women an important specialty, quickly relieved. The poor treated free, excepting medicine, from 10 to 11 daily. Eyes tested and glasses fitted.

Dr. Darrin's terms for treatment are now $5 a week, or in that proportion of time, as the case may require, except in special cases. The poor treated free, except medicine.

Who Kills the Birds.

Who kills the birds?

"I," said the Woman, "although 'tis inhuman,
I must have dead birds.
Who sees them die?
"I," said the Man, "whenever I can.
For my sport they must die."
Who tolls the bell?
"I," said the boy, "I love to destroy,
I toll the bell."
Who digs their graves?
"I," said the Girl, "for a feather's neat curl,
I'd dig all their graves."—Oakfield Eagle.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address
