They are used to being humbugged. My medicines are composed of nature's herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with me. Do not get weary; this life is too short and too sweet to worry out of this world.

Dr. Cook cures all kinds of diseases. Dr. J. P. COOK, 301 Liberty St., Salem, Ore., is the man you ought to consult. He is a natural doctor. CONVICTS ARE STILL AT LARGE

Posses and Militia are Through With Their Work.

No Further Efforts Will Be Made Except by Public Officials

Reported to Have Been Seen Near Barlow Today, But No Definite Clew is Known

No developments concerning the whereabouts of the escaped convicts, Tracy and Merrill, are available at noon today. In fact last evening's Journal had the most complete news based on facts that has been obtainable to date. The last seen of them was at the Akers farm, where they breakfasted Thursday morning. They had dinner at the farm of E. D. Graves, near the town of Needy. Upon leaving there they took with them a supply of bacon, a frying pan and several loaves of bread, intending, no doubt to spend some time in the timber or mountains.

This Morning. A message from Needy, the nearest station to the supposed location of the escaped convicts, Tracy and Merrill, says the posse has absolutely no clue to the men's whereabouts. The militia and posse are guarding all the roads and trails. A report was circulated that the escapes had been seen this morning going toward Barlow pass, but Sheriff Durbin discredited it, and proceeded to the timber with Guard Carson and the bloodhounds, where the men are supposed to be hiding.

The Militia Recalled. Governor Geer this morning issued orders recalling the Salem, Woodburn and Oregon City militia, companies which have been assisting in the pursuit of the fugitive convicts. The chase of the murderers, so far as an organized effort is concerned, has

IRONING DAY HAS NO TERRORS to those whose kitchen is equipped with a gas range. No heating up of the whole house on a hot day. Heat is only applied where needed. As a matter of fact, a gas range will soon save for itself in savings of fuel, when compared with an old style coal or wood fire and you cannot overestimate the comfort and convenience of this cleanly fuel in warm weather.

"The ceiling together of Tracy and Merrill was not the work of inexperienced men. When I came into office they were together. Mr. Brophy has been considered a most excellent warden of years of prison experience. Mr. James, the present warden, has had some 14 years' experience in prison work. Prison men, like all others, differ upon many points. It has been thought in years past that the solitary method was most efficient, but when men are working together, and otherwise brought in contact, it is next to impossible, without a great number of guards, to prevent communications, so the practice is changing.

In some great and progressive prisons, like Ohio, for example, at stated times they allow the prisoners to come together in perfect social freedom. Each has its arguments. "I trust the public will take a dispassionate view of the case. For more than three years we have not had a delinquent from the prison—a remarkable record, which would seem to justify our methods."

Dr. Gillis Returns. Dr. A. B. Gillis, surgeon-general of the state guard, returned this morning from Needy. He says the Salem company followed in the chase of the convicts to a point within three miles of Needy, when orders were received from Governor Geer recalling the militia. Company F, of this city, is in command of Major R. H. Leabo and Captain H. A. Kurtz, and will probably retrace its steps by marching to Gervais or Woodburn, where the men will watch the train, and arrive in Salem this evening.

Dr. Gillis says the section of country in which the fugitives are supposed to be hiding, is in a most crude state. It is very sparsely settled, and practically no land is under cultivation, the entire country being one continuous acreage of dense timberland, with only an occasional road or highway. Timber, brush and all kinds of vegetation abound, to the extent that the capture of the men, who are supposed to be in hiding therein, is a hazardous undertaking, almost impossible of successful result. The men are now in the foothills, and, acting upon the supposition that the men are making for beyond the Cascade mountains, squads have been stationed at all of the mountain passes, and the hope is still cherished that the murderous thugs may yet be surprised and captured before they shall have escaped into the eastern part of the state, for which there is every indication to believe the men are headed.

The Men Last Seen. W. E. Caterlin, a guard, who reported to have seen the men near Barlow today, followed a back street, and stole horses in the northeastern part.

Further details of the gallant work of our people need not be narrated. I only wish to correct the impression that 30 hours elapsed before efficient effort was made. The arrival of the hounds and the change of direction of the fugitives required a second organization.

BE WISE IN TIME

People Cannot Afford to Trifle With Ill Health

Salem seems to be full of wise people, judging from the steady stream of callers at the office of the celebrated Dr. Darrin. He is making wonderful cures, and letters of gratitude are being daily received showing the satisfactory results of his skill in treating diseases. The following cards are selected from the many:

A HAPPY MAN. Once His Wife Was Blind, But Now She Can See.

The following is an extract of a card from Mr. Austin, of Portland, Ore., telling how his wife was cured of total blindness. "I wish to make known what Dr. Darrin has done in my family. Eight years ago my wife was totally blind from what doctors called 'nervous absorption of light.' In that condition she visited him and was cured, so she could see as well as ever in her life. I know of hundreds who have been as miraculously cured. I am employed on the O. R. & N. railroad, and can be referred to at any time in Portland. I most earnestly recommend the afflicted to whatever cause to consult Dr. Darrin. W. H. 'Stubbs' AUSTIN.

FAVORS CUBAN RECIPROCITY

President Sends Special Message

Asks Congress to Aid the Young Republic

Its Prosperity Vitaly Concerns the United States

Washington, June 13.—The president this afternoon sent a special message to Congress, reiterating former recommendations for the passage of a law creating reciprocity with Cuba, and presenting additional arguments thereon. The message contains no reference to the recent disclosures regarding the appropriation by General Wood of Cuban funds for circulation of reciprocity literature.

The president's message today, after quoting extracts from his first message urging reciprocity, says: "Yesterday I received by cable from the American minister at Cuba a most earnest appeal from President Palma, asking for legislative relief before it is too late and Cuba financially ruined." He then goes on to say that the United States is concerned in getting friendly reciprocal arrangements with Cuba, this arrangement to apply to all articles that Cuba grows or produces. In his judgment no American interest would be hurt, and many will be benefited by the proposed action, and declared it was to our advantage as a nation that growing Cuban markets should be controlled by American producers. In closing he said: "Ours is a wealthy, powerful nation, Cuba a young republic, still weak, who owes to the United States her birth, and whose whole future, whose very life must depend on our attitude toward her. I ask that we help her as she struggles along the painful, difficult road to self-government and independence. I ask this aid for her because she is weak, because she needs it, because we have already aided her, and also that Cubans be given all possible chance to use to the best advantage that of which Americans have such right to be proud, and for which so many American lives have been sacrificed."

Latest from Durbin. Portland, June 13.—A telephone message from Sheriff Durbin, at 2 o'clock this afternoon, says that all trace of the fugitives has been lost; that their capture is improbable. The convicts have undoubtedly gotten away. The only chance of the posse now is to await the appearance of the fugitives at farm houses. The militia return to their homes tonight.

"Bonners" Come to Grief. Spokane, Wash., June 13.—Deputy Marshal Push arrived tonight with J. M. Hazeltine Cured Two Years Ago of Sciatica Rheumatism.

Wonderful, almost miraculous are the cures being effected in these days of science by electricity and medicine. Mr. M. M. Hazeltine, of Baker City, desired to have it known that he was cured of sciatica rheumatism two years ago by Dr. Darrin. Mr. Hazeltine says he has not been troubled with the pain since taking the treatment two years ago, and wishes his friends afflicted with rheumatism to go to Dr. Darrin and secure relief by the latest skillful applications of electricity and medicine.

A Wonderful Recovery. To the Editor: Being a terrible victim of bleeding piles, large tumors protruding, complicated with constipation and stomach troubles for the past 20 years, I consulted Dr. Darrin, after several other physicians had failed. With a light and almost painless operation he soon effected a radical cure of my case, and I wish others so afflicted to know that they, also, can secure relief. The doctor cured my sister of epilepsy and nervousness of 26 years' standing, 11 years ago. CHAS. L. ORDWAY, Montavilla, Or.

Dr. Darrin's Place of Business. Dr. Darrin can be consulted free at the Willamette hotel, Salem, until July 6th, from 10 to 5 o'clock daily, evenings, 7 to 8; Sundays 10 to 3. All curable chronic diseases, lost manhood, blood taints, stricture, errors of youth, catarrh and deafness, are confidentially treated. Cures of private diseases guaranteed, and never published in the papers, and so cures published, only by permission. Most cases can receive home treatment after a visit to the doctor's office. Inquiries answered and circulars sent free. Batteries and belts furnished, with full directions for their use. Eyes tested and glasses fitted.

Dr. Darrin's terms for treatment are now \$5 a week, or in that proportion of time, as the case may require, except in special cases. The poor treated free, except medicines.

Arrested for Embezzlement. New York, June 13.—Charles Shiver, for years a respected employe of the Western Union and American District Telegraph Companies, is under arrest today charged with embezzling \$16,000 from the District Company. He has confessed the theft.

Murderer of a Woman Hanged. San Quentin, June 13.—James F. Wheelock was hanged this morning for the murder of the aged Mrs. Emily Martin, of Costelete, Butte county in March, 1901. He criminally assaulted her and then strangled her to death. He died protesting his innocence.

Will Discuss Strike. Wilkesbarre, Pa., June 13.—It was learned today that a meeting of the Brotherhood of Railway Employees of the Delaware, Lackawanna & Western will be held Sunday to discuss their position in the anthracite strike, and to decide upon a policy of action.

SOFT COAL MINERS

Of Illinois Are Expected to Be Called Out.

Springfield, Ill., June 13.—The officials in the Illinois district of the United Mineworkers have received secret orders to attend a conference in Wilkesbarre next Sunday. In view of this fact, it was reported last night that 42,000 soft coal miners of Illinois will be called. It is believed a general call-out of all soft coal miners in the United States will be decided on at Sunday's conference.

Wilkesbarre, Pa., June 13.—Mitchell said this morning that the anthracite strike situation remains unchanged, and that the order calling Labor Commissioner Ryan to Wilkesbarre had only to do with Illinois affairs.

Addressing the surrendered Boers at Kronstadt, Orange River Colony, General Elliott said the only wish of King Edward, his government and the British people, was to help the burghers back on their farms as soon as possible. The king, the general added, had telegraphed congratulations to the burghers on the good stand they had made. This announcement was greeted with lusty cheers for the king, and for Lord Kitchener.

TWELVE THOUSAND BOERS

Have Already Surrendered to Kitchener

They Condemn Both Germany and France

For Prolonging the War By False Hopes.

Pretoria, June 13.—Lord Kitchener reports the surrender of Boers to date to exceed 12,000.

Many are youngsters of 11 years old and upwards. The majority are under 30, though some are septuagenarians. Advice from all the districts say that all the burghers are increasingly friendly. The only bitterness observable among the leading Boers here is against France and Germany. They declare the war was protracted unnecessarily owing to the hopes held out by the French and German press. Some of the Boers are so incensed that they have expressed the hope that some day they will fight on the side of the British against one of these powers.

The anticipated friction between the surrendered Boers and their former comrades of the Natal Scouts has not materialized to any extent. The Boers admit they received ammunition through Portuguese territory. General Dewet says the youngsters were his best fighters, and frequently held positions after the older burghers had cleared out.

The Boers of the Orange River Colony are handling in only a small percentage of their ammunition. They explain that they used most of it in hunting game since the peace agreement was signed.

Addressing the surrendered Boers at Kronstadt, Orange River Colony, General Elliott said the only wish of King Edward, his government and the British people, was to help the burghers back on their farms as soon as possible. The king, the general added, had telegraphed congratulations to the burghers on the good stand they had made. This announcement was greeted with lusty cheers for the king, and for Lord Kitchener.
