Comparison's

Comparisons bring out the strong points in favor of our glasses, demonstrate superiority in the make and finish of our frames and show the highly polished, clear-cut and accurately centered excellence of our lenses. We court comparison in our goods, our fitting and our methods and require but an opportunity to convince, as the ease and comfort and pleasure afforded in the perfect vision our correctness always give.

PACKING PLANT OPERATES

Salem Cannery Will Preserve Strawberries and Cherries

The Allen Packing Company began the operation of the cannery plant in this city at noon today. Strawberries will be the first fruit canned, and the plant will be run to its full capacity while these berries last. The cannery has a capacity of 600 to 800 cases, and the force of 50 hands, with which the plant started, will be increased to 100, as the berry crop ripens more rapidly. The strawberry season will last about a month, and when this crop has been exhausted cherries will be canned. Little attention will be paid this year to vegetables by the Salem cannery, but a great quantity of the strawberry and cherry crops will be preserved.

Editor Guilty of Contempt.

Honolulu, June 12.—The supreme court affirmed the decision of the circuit court adjudging Walter G. Smith, editor of the Advertiser, guilty of contempt, and remanded him into the custody of the sheriff to serve a term of 30 days' imprisonment. He will appeal to the United States supreme court.

STORM DAMPENS RIOTERS

Militia Under Arms and Awaiting Orders

Pawtucket, R. I., June 12.—The severe thunder storm which passed over this city this morning dampened the ardor of the striking conductors, mobsters and sympathizers. Hardly a baker's dozen of people could be seen on the streets, where yesterday exciting scenes occurred. It is conceded, however, that the storm only acted as a temporary check to the operations of the militia, who are quartered in the armory today under arms and awaiting orders.

Pawtucket, June 12.—Several street cars, guarded by deputies, moved this morning. No passengers were aboard. No attempt was made to hold them up. The governor announced today that he would not withdraw the militia until peace was absolutely assured.

King Edward Congratulated

London, June 12.—The lord mayor and city corporation proceeded in state to Buckingham palace this morning and presented to the king an address of congratulations because of peace obtained with South Africa. During the presentation all the church bells throughout the city were tolled. Replying to the address, the king said he heartily joined in the expression of thankfulness at the termination of the struggle, which, though it entailed on the people at home and across the seas many sacrifices, has resulted in an increased unity and strength of the empire.

Fall of An Elevator

Richford, Vt., June 12.—An elevator containing 24 people fell three stories in the venerable mill of C. U. Manuel & Son last night. Two persons were killed and several injured.

Eruption In Hawaii

Honolulu, June 7.—The volcano Kilauea is in active eruption since June 31. So far only flames appear, the reflection of which is seen many miles. It is believed a big eruption is certain in the near future. Earthquakes and explosions were frequent the past week.

PRAISE AMERICAN ALLIES

Boers Declared Them Crafty and Great Fighters

Pretoria, June 11.—Boer commandos arriving here bring reports of instances of fraternization by Boers and the British troops. The surrender of a command of Balmoral, Transvaal, was followed by a big "tag-song." The British soldiers stationed at the blockhouses between Balmoral and Pretoria in some instances hold up the trains and proffered coffee and tobacco to their late enemies.

The Boers generally hold unfavorable estimates of their foreign allies, excepting the Americans, whom they declare to be crafty and great fighters. A prominent commandant said: "All the Germans are fit for is to give horses sore backs."

GOT GOOD PAY

Bingham Will Receive \$900 Collecting Insurance

It cost the state of Oregon \$903.25 special attorney's fees to adjust the suits against the several insurance companies for damages resulting from the fire at the reform school last winter. A Portland paper has the following on the subject:

"The state will receive, in reality, only \$8129.25 insurance money on account of the reform school fire, under the terms of the compromise subscribed to by the state officials and insurance company representatives. The claim of G. G. Bingham for legal services in conducting the cases for the state will amount to \$903.25, a contract having been entered into by which he should receive a contingent fee of 10 per cent. of the amount recovered.

"Shortly after the fire which destroyed the industrial building at the reform school, Attorney-General D. H. N. Blackburn submitted an opinion to the state board, in which he held that it was doubtful if the state could recover any part of the insurance. Subsequently, G. G. Bingham, an attorney of this city, offered to take the case on a contingent fee of 10 per cent. of the amount received, no fee to be received if the suit failed. The contract covering these conditions was framed and the papers were prepared and served. The members of the board feel that, in view of the fact that the state's legal adviser had passed an opinion that the state's claims for damages probably could not be collected, that settlement of the case under the contract of a 10 per cent. contingency fee was a reasonable proposition. While Attorney-General Blackburn and District Attorney A. N. Hart signed the stipulation by which the pending suits were compromised, Mr. Bingham actively represented the state in the litigation until the time of its mutual adjustment. At the time the suits were brought against the insurance companies, Attorney-General Blackburn was incapacitated from the performance of official duties by illness, and the proposition of Mr. Bingham was accepted."

CONVICTS ARE STILL AT LARGE

(Continued from first page.)

turned this morning, says that the last that was seen of the prisoners yesterday was at noon when they left the Graves place. About 6 o'clock last night Sheriff Cook decided that the men were in a strip of timber near Needy, and ordered the woods surrounded. It is seriously questioned that the men were really in the woods. The supposition that the convicts were in the timber was based upon the fact that the bloodhounds could not follow the scent longer. Mr. Catterlin says this fact is only a confirmation of the general belief that the escaping men thoroughly greased their shoes with bacon grease as a means of destroying the scent, and in addition thereto, are known to have changed their clothing at every opportunity, and this has added to the difficulty of the bounds in keeping the scent. Mr. Catterlin is of the opinion that the men were never surrounded last night, as was presumed, but that they had evaded their pursuers and were making good time for the Barlow pass. He says if the men ever succeeded in getting over that mountain pass, it will be a difficult matter to locate the prisoners or hope to effect their capture, since from an early residence in that section of the state, Merrill is thoroughly acquainted with the topography of the country, and, with his companion, will be doubly prepared to elude his pursuers.

Killed By An Electric Car

Portland, June 12.—Dr. W. J. McDaniel, a prominent physician, while riding his bicycle, fell in front of an electric car this morning, and was instantly killed. He attempted to cross the track when his wheel slipped.

FROM POLK COUNTY

How Young Mr. Byers Recovered Hearing.

Mr. A. J. Byers of Independence, accompanied by his son, A. G. Byers, called at the Journal office this afternoon and made a statement relative to the condition of the younger man. He had been deaf from his infancy, and later the difficulty gradually increased to such an extent that he was almost totally deaf. Two months ago the young man came to Dr. Darrin, at Hotel Willamette for treatment, and today called at the Journal office to state that he could hear as well as anybody. The reporter talked to him in a low tone of voice and was convinced that his hearing was as good as the best. This remarkable cure of necessity makes the young man feel happy, and his father is more than pleased. Their purpose in coming to the Journal office was to make a statement to the public concerning the wonderful cure.

PERSONALS.

Mrs. Lela Johnson and Miss Mabelle Pike have gone to Roseburg for a visit.

Mrs. Dolph Bell, of Oakland, Cal., has been visiting friends at Salem, and went to Corvallis today.

Mrs. Shaw, mother of Mrs. Thos. Sims, and granddaughter, went to Albany today.

Mr. and Mrs. Wm. G. Martin, of Florence, were guests of their brother, Carey Martin, today.

J. M. Martindale, city superintendent of the Albany public schools, was in the city today.

Hon. L. P. K. Page, of Ida Grove, Iowa, is in the city. He was at one time sheriff of his county, and is a prominent citizen of his state.

Rev. Dawn, of Gervais, who went to Eugene today, came in from Mt. Angel about ten minutes after Dr. White was held up, and so considers he had a narrow escape.

GIVEN SMALL VERDICT

Jury Awards Woman \$25 for Injured Pride

After seven hours' deliberation, the jury in the Bursell-Lindholm \$15,000 damage suit for breach of promise, awarded the plaintiff a verdict of \$25. The case was concluded in the circuit court Thursday afternoon, and went to the jury at 4 o'clock. At 11:15 p. m. the jury returned a sealed verdict that was opened in the court this morning.

John Daly was this morning sentenced to six years' imprisonment in the state penitentiary, having been convicted in a jury trial of aiding prisoners in the county jail to escape. The case went to the jury at 6 o'clock last evening, and a verdict was not reached until 10 o'clock this morning. Court was adjourned until 1 p. m. Monday.

Operation Injured Queen Wilhelmina.

Amsterdam, June 12.—Reports from Castle Schaumburg, state that Queen Wilhelmina is so weak that she is still being carried about on a stretcher. It is believed the operation has permanently injured her.

WEST INDIAN VOODOO

Native Islanders in Superstitious Terror

Fort de France, June 12.—Yesterday was the day set down in the minds of the natives for the total destruction of Martinique. Great anxiety was felt, and thousands of eyes were turned toward Mt. Pelee, expecting the fatal blast. There was no disturbance, and this morning the excitement calmed down. The merchants who fled are returning and reopening their stores.

UTAH EDITORS ARRIVE.

Portland Press Club Extends Hospitality of the City.

Portland, June 12.—The Utah Press Association excursionists, who are touring the Pacific coast, arrived in the city last evening, and will spend a day here, departing for Seattle at 11:30 o'clock tonight. The party consists of 30 active members of the newspaper fraternity, some of them being accompanied by their wives and children. The train to which their excursion car was attached was seven hours late, and the river trip up the Columbia had to be abandoned. However, the party alighted from the train at Bonneville, at 1:45 p. m. yesterday, and, after a short stay at the beautiful mountain station, boarded the steamer Tahoma, and came to this city.

This morning the visitors will go to Oregon City by boat, returning on the trolley line of the Portland City & Oregon Railway Company. The Portland Press Club has made extensive plans for a reception, which will be held at Parsons' hall, at 2 o'clock this afternoon, after which a luncheon will be served. In the evening a trolley ride will be taken through various drives of the city, after which the start for Seattle will be made. Upon their return to Portland, on June 19th, the visitors will be given a river trip to Astoria.

JOURNAL X-RAYS.

No trace of Tracy, but he was supposed to be drinking soda water at Wilhoit when last heard from.

The children are compelled to suffer many things, but none cause them more real anguish than printing all their middle names when they graduate.

ABOUT SALEM SCHOOLS

Correspondent Makes Interesting Comparisons

Editor Journal: In district No. 24 there are at least two large private schools, and a party is negotiating for a building to establish a third one, which shows plainly that the present system is not satisfactory to the people. Private schools are detrimental to the free school system. It is said, with some truth, that there is too much useless and too little useful education. The Democratic nominee for state school superintendent, himself a prominent educator, called attention to the fact that a large per cent of the pupils who pass out of the common schools have but little practical knowledge, many of them not being able to spell fifty per cent. of the common words. Nor can they nearly all apply their knowledge of mathematics to the ordinary business problems. This should not be so after eight or nine years public schooling. A little of the practical and less of the impractical would be a good proposition to elect the next school director on.

A little time spent interviewing the people who are patronizing private schools might be a benefit to the rising generation, and a revelation to the directors of this district. Perhaps not 10 per cent. of the youth who attend the public schools are able to avail themselves of the higher education.

And these are the people who must perpetuate this great and glorious government of ours. A sage once said, "Allow me to educate the youth, and I will rule the world." LEXICON.

IRRIGATION BILL PASSED.

Washington, June 12.—The House this afternoon passed the irrigation bill.

Salem Woman's Club.

The Woman's Club will hold its regular meeting tomorrow afternoon in the parlors of the Hotel Willamette. As this is the last gathering of the season, the presence of a full membership of the club is most desirable. At the meeting tomorrow important topics are to come before the club besides the usual business. It is to be regretted that Miss Calbreath, who has charge of the social program for this date, will be unable to sing, owing to indisposition. However, solos will be rendered by Mrs. Purvine and Mr. Snider, and a lecture will be given by Dr. Williamson.

Alderman Walker Recovering.

Alderman E. P. Walker is recovering nicely from his recent injury, when a fractious cow jerked his right leg out of joint at the hip. After a great deal of suffering it was found that his hip bone was not broken. The surgeons had replaced it in the socket and set it for a break, and were as much pleased as "Pap" Walker was when they found that his thigh bone had not been broken, and he could flip his leg up and down nearly as well as ever. He is improving nicely under the kindly influence of Dame Nature, and his native grit. In fact, it's hard to kill an alderman, especially one of the hayseed variety.
