Paying Election Bets.

The Jefferson Review thus tells how an election bet was paid in that wide-awake town: "The boys had a heap of fun watching the payment of an election bet Wednesday evening Earl Aupperle and G. B. Hoyt had bet on governor and Mr. Hoyt paid his bet by wheeling Earl down First street in an "Irish buggy," the loser having a placard on als back reading "I'm the sucker who voted for Furnish." They were accompanied by a bass and a snare drum and a number of small

An Important Factor in the Happiness of His Grandchildren.

There are families where Grandpa's risit is looked forward to with delight and expectancy. Grandpa's coming means fun and frolic and enchanting tories. But there are other families where grandpa's visit is the burden of the year. The children dread it because they know it will put a stop to their romping. The parents dread it because it will disorganize the household, every member of which must keep step with Mineral Hitherto Unknown in

the slow shuffling tread of age; and sub-

ordinate duties and pleasures to the capricious whims of second childhood.

The difference in these two old men is

simply a difference of health. The one

stomach; had vertigo and would fail

for me; could not retain food on my

helpless to the floor. Two years ago t commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After tak-ing twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

No man can be strong when the stomach is "weak." The body, and every organ of it, depends upon the stomach for nutrition. This nutrition is supplied by food which must be properly digested before it can be assimilated. When the stomach and the other organs of diges-tion and nutrition are diseased, the food eaten is imperfectly digested, and there is a reduction of the nutrition necessary

body. This loss of nutri tion soon shows itself in the "weakness" of one or more of the organs most affected. Thus it is that digestion often results in sease of organs remote from the stomach, the liv er, heart, kidneys, etc., becoming "weak." So, also, when the diseased stomach is cured by Golden Medical Discovery" the diseases of other organs which were caused the diseased stomach are also cured. "I feel that I would be

doing an injustice to you if I did not send you a statement of my case," writes Mrs. David W. Guice, of Hamburg, Franklin Co., Miss. had liver complaint and indigestion. Everything that I ate disagreed with me. I suffered all the time with swimming in my head; heart beat too fast; my feet and hands were cold all the time; did not sleep well at all; was able to go about very little. I commenced to use Dr. Pierce's Golden Medical Discovery and 'Pleasant

Pellets,' in May, 1897, and by December I could begin to get about very well. Have been doing my work ever since, except washing. Feel better than I have for several years. I would recom-mend Dr. Pierce's medicines to all who are troubled as I was. I am now sixty-one years old, and I thank you most kindly for the happy relief and cure."

GOOD ADVICE.

If you feel weak and run down; if your stomach is disordered or diseased; if there is heart "trouble," liver "trouble," or kidney "trouble" if your blood is "thin" and sluggish, begin the use of Dr. Pierce's Golden Medical Disease of Dr. Pierce's Golden Medical Dr. Pierce's G covery and you will begin to renew your youth and strength.

Sick people are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. V.

Some dealers, tempted by the little more profit paid by less meritorious medicines, will attempt to sell a substitute for "Golden Medical Discovery," claim-ing it to be "just as good." The very claim makes substitution suspicious. A medicine as good as the "Discovery" would sell on its own merits and be asked for by the customer, not pushed
